DUCHESS DE TALLEYRAND LOSES FIGHT AGAINST MARRIAGE ANNULLMENT

The Duchesse de Talleyrand, formerly Miss Anna Gould, lost a long fight in the Papal Courts at Rome when the Segnatura Tribunal, the high court of the Roman Curia, rejected her appeal from the verdict of the Sacra Rota, annulling her marriage to her first husband, Count Boni de Castellane. The chief effect of this decision is that it permits the Count to marry again, if he wishes, with a religious ceremony. There is no impediment to him marrying again so far as civil law is concerned, for a divorce was granted to the Countess from him in November, 1906.

VETERAN CONFESSES INTENDED WIFE'S MISERY

PHILADELPHIA, Jan. 21.—William Eberwein, a civil war veteran, 80 years old, told in the criminal court today the simple story of how his wife, 15 years younger pleaded with him to kill her and how he committed the deed.

After the old man completed his story, Judge Walling surveyed the prisoner's bent form, and fixed the crime at second degree murder and imposed the minimum penalty, seven to 14 years at solitary confinement.

Eberwein told the court his wife was an invalid. One day last October he came into his home and found her lying at the bottom of the stairs down which she fell. He offered to send her to the hospital but she wouldn't go.

"You do it, William" Eberwein alleged she said.

"Do what" he asked.

"End it all for me; it's no sin when I am suffering so."

"I had a board in my hand and looked at her and guessed it wouldn't be a sin," he continued.

"Go on William, go on" she said.

"Then I tapped her on the head with the board and tapped her again. She didn't moan much and once when I stopped she whispered "Go on, it won't be long."

"So I kept on tapping and she got quiet."

MILLIONAIRE TO GIVE

25 times more valuable in other diseases than in cancer. He was positive that it is a cure for rheumatism and other painful diseases. Flannery then made his statement regarding the unnamed millionaire who planned to establish a chain of 29 free radium hospitals.

Flannery made his announcement regarding the hospitals while voicing an appeal for the government not to undertake to regulate radium extraction.

Publicity Spoils Plan

"There is a philanthropist who is planning to put up institutions in the centers of population to cost \$15,000,000 so all cancer victims may be treated without cost," he said, "and he wants five grams of radium for each institution."

After the hearing Flannery refused to discuss the matter further. "Publicity would spoil the plan, but it seems to me to be a splendid idea for an old man to spend his money that way," he said. "That's the way Rockefeller and Carnegie are doing."

Flannery offered to sell his secret for extracting radium to the government. He estimated that there were 200,000 cancer victims in the United States and that 75,000 died from the disease each year.

BLUSTERING WIND BUT LITTLE RAIN PRESENT STORM

Driven by a twenty-five mile an hour wind, a light rain fell over the Rogue River valley last night and today, gladdening the hearts of the farmers and orchardists, but putting the long distance telephone line temporarily out of commission to the south. A heavy fall of snow is reported in the Siskiyou and higher elevations, and the advent of a Chinook wind would make torrents of rivers and streams. Low temperatures, however, minimize this danger. This afternoon thunder enjoyed the storm.

Up to 5 o'clock this morning, .06 of an inch of rain had fallen, with the precipitation up to noon less than a tenth of an inch. The wind drove the rain, and a number of display windows in the business district were soaked from this cause. Three or four awnings were wrecked. Northbound trains were slightly delayed by the storm, which extends into the Sacramento valley, but southbound trains suffer no inconvenience, although a heavy fall is reported in the Cow Creek canyon country and the Willamette valley. Storm sewers in the city were taxed to the limit carrying off the surplus water.

Weather predictions say the storm will break late today, and forecast fair weather for tomorrow.

THREE REEL SPECIAL AT THE IT THEATER

Be sure to go to the It Theater tonight to see "The Wreck." It is a remarkable photo-drama. It is interesting and gripping throughout. It is of big work. A Vitagraph three reel special.

The wreck comes about through an unfortunate deed of violence committed in a moment of jealous rage by an irate husband. He regrets the deed ever afterwards, but it cannot alter what he has done. His beautiful young wife is the cause of his deed, though she is not to blame for it, having done only that which a sweet, lovely woman should have done. She was trying to help her son. The man who committed the deed her husband, goes west with his son to get away from his sorrow. It is on this trip, years afterwards, that the head-on collision takes place which costs the lives of hundreds of passengers, including his own son. The grief-stricken father bows his head in tears, and when he looks up to the heavens, his expression reveals the fact that he acknowledges the presence of an all-powerful hand of justice. He knows that he has been justly punished.

LORD STRATHCONA PASSES AWAY AT AGE OF 93 YEARS

LONDON, Jan. 21.—Lord Strathcona, who died peacefully in his sleep just before 2 a. m., will be buried in Highgate church yard beside his wife, it was stated today. Lady Strathcona died only last November and her husband, who was devotedly attached to her and the past his 93d birthday, never fully recovered from the shock. The direct cause of his death was prostration due to an attack of catarrh.

A Scotchman by birth, Donald Smith, later Lord Strathcona, settled in Canada at the age of 18, entered the Hudson Bay company's service and rose finally to the position of its resident governor. His countrymen generally considered that he did more toward western Canada's development than any other man. In 1846 he was sent as Canada's high commissioner to London. The bulk of his huge estate will go to his daughter, Margaret Charlotte, wife of R. J. Bliss Howard.

ATTENTION FRUITGROWERS.

All owners of orchards are respectfully requested to dig the dirt away from the trunk of their trees to the extent of allowing the inspectors an opportunity of testing the tree near the roots. A large number of orchardists have complied with this request, but we find a number who have neglected this work. In order to make the inspection work thorough it is necessary that the orchardists co-operate in this matter and thereby make the inspection more thorough and complete.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's a Simple Recipe That Anybody Can Apply With a Hair Brush

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, hot and abundant.
