FOR A CITY BEAUTIFUL

A FTENTION is called to the commendable campaign in process of inauguration by ladies of the Greater Medford elub for civic improvement and a city beautiful.

Neighborhood clubs are being organized for shade tree * and rose planting, and every street in every section will * receive its share of attention-or at least the effort will be made to enlist the co-operation of the nieghborhood.

School children are being interested and encouraged . in both rose and tree planting, and through them a large * section of the indifferent public can be aroused.

During the campaign articles on tree planting and rose culture by experts will be printed in the Mail Tribuneadvice on varieties and care-taking. These articles will be supplemented by lectures both to the public and in the schools

Medford can be made a city beautiful merely by lining its avenues with shade trees, its curbs with roses and its lawns with shrubbery. Concerted action and co-operation by individuals is essential to the success of the project.
