The shipment was made by the C. S. Lebo company. It is reported that there is a shortage of spuds in Texas and a steady demand for Oregon products.

Five cars of onions have been shipped and probably 300,000 pounds of beans. While these figures ought to be ten-fold as great, they show the balance of trade is turning in the valley's favor, for three years ago just as many cars of these products were being imported.
