BEAGLE BEAGLETS

Mrs. Milly Glass had the misfortune to crush one of her fingers Wednesday while making sausage.

Theo. Glass has been carpentering for Clarence Case and as a result many needed improvements are noticeable on the ranch.

Earl Case has been to the city having some surgical work done in removing some growths from the nose.

Mrs. L. M. Sweet and daughter Ruth were in Central Point from Friday until Monday visiting relatives.

Mr. and Mrs. B. C. Chapman were Central Point visitors Monday.

Mrs. P. H. Gray is at the Cases for a short time.

The directors of the Antioch district have erected a very nice shed on the school grounds for the benefit of those pupils who wish to drive to school.

How nice it would seem if all of our schools could be managed for the benefit of all, eliminating spite work, hatred and the nasty "get even."

The regular road viewers went over the proposed change in road between Case line and Glass lane Wednesday and gave a favorable report.

This formality of the law should be dispensed with and the unnecessary expense done away with, for we dare say not one road out of fifty is rejected when known to be desired by the commissioner as this was.

The change will do away with quite a steep grade but will also make a nasty looking job in its lineup.

Clarence Wilhite is in Sams Valley on business Friday.

Our friend "Bill" Cottrell of the Meadows is sure some still hunter.

Not long ago he became suspicious certain parties were killing and stealing cattle and hogs from him, and so he good naturedly made them an incidental call and after securing the required evidence coolly rode away without even so much as a frown.

There are some people not far away who are much nearer the penitentiary than they surmise.

Some people seem to have a mania for anything but hard work, and pilfering becomes almost an irresistible habit which can only be stayed by the stern hand of the law and the sooner the reformation begins for such, so much sooner a long suffering self-respecting community will benefit by it.

We understand our neighbor, Lampman of Astoria has contracted to furnish the city of Gold Hill with several hundred pitch stumps for kindling and will ship them by parcels post.

Mr. Dinkins of Dinkinsville was here last week buying supplies and looking after the interests of his

friends in that town. We understand he contracted with J. W. Rodgers to furnish him a carload of flour which will soon begin shipment via the Beagle-Astoria parcels post line.

Considerable excitement was caused in our quiet little city recently by a very bitter quarrel between two of our best known residents, W. C. Chapman and C. E. Wilhite. While we know little of the merits or demerits involved, we do know it is regrettable that any person holding a responsible position by appointment of the county court should allow his temper to overcome his power of self-restraint to the extent exhibited on this occasion.

Criticism hurts no man and lies only reflect upon the maker, but a defiance of law and order is always a reproach, and a reflection upon its sponsor.

The whole affair seems lamentable in the extreme and we hope will be closed at once both out of respect to the entire community and also the self-respect of the participants.

Why not smile and forget it?

Butte Falls Bubbles.
