

ASK \$150,000 TO EQUIP REFINERY TO MAKE RADIUM

WASHINGTON, Jan. 31.—An appropriation of \$150,000 to equip a "radium refinery" was asked in a bill introduced in the house today by Representative Foster, chairman of the house mines committee. An additional \$300,000 to carry on the work until June, 1915, also was asked. The withdrawal of radium lands was eliminated from Foster's bill. Instead, it reserved to the government the right to purchase exclusively at rates established January 1 and July 1 of each year, all ores from claims located hereafter. It provides that prospectors develop "with all reasonable diligence" all claims on penalty of losing their claim. The sales of ores to anyone except the government is punishable, by the terms of the bill, by a fine twice the amount of the product sold. The bill authorizes the secretary of the interior to dispose of the "refinery products" as will best serve the needs of the people.

W. C. T. U. Reception

A most enjoyable occasion was the reception tendered by the W. C. T. U. to their husbands and new members on last Friday evening at the library building, at which some 60 were present. The president Mrs. S. C. Godlove presided, with Mesdames Townsend and Howell as mistresses of ceremonies. An interesting address was delivered by the Hon. B. F. Mulkey, and readings by Mesdames McDonald and Webster, the "Denunciation of Abraham by Hagar," by the latter lady being particularly impressive. The different features of the program were interspersed with music, after which refreshments were served and the remainder of the evening spent in introducing new members, and in social intercourse. The W. C. T. U. is growing rapidly in a quiet way and accomplishes much in its particular line of work.
