

## LEAVES PRISON TO WED GIRL WHO JAILED HIM

Charles Kimzey Pardoned From Thirty Years' Term for Statutory Offense—Young Woman's Grandfather Arrives With Wedding Ring

Girl's Blasted Reputation Righted and Babe Stamped With Legitimacy, States Governor Dunne.

SPRINGFIELD, Ill., March 19.—Governor Dunne today signed a full pardon for Charles Kimzey, who recently began serving a thirty-year term in the penitentiary for a statutory offense against Cora Calvert, a minor. Before the signing of the pardon Kimzey married the girl in prison.

In signing Kimzey's pardon, Governor Dunne issued the following statement:

"I have this day commuted the sentence of a convict who was convicted of an atrocious crime. The crime was committed by an adult man with the consent of a female child incapable of giving legal consent under the law.

**Governor Gives Reasons**

"What justification have I for commuting this sentence and giving him his liberty? Every justification from the standards which appeal to a human heart in trend with human sympathy.

"As the result of this crime, a babe has been born which has for three years borne on its brow the brand of illegitimacy. An innocent-minded girl for the same long period has borne a blasted reputation. Throughout those years of ignominy to the girl whose reputation has been blasted and of criminality to the man whose reputation has been ruined and whose liberty has been taken from him, this man and girl have preserved an affection for each other which must be and is more than just.

**To Found a Home**

"She, with the consent of her nearest relatives, and the man in the penitentiary have jointly appealed to me to permit them to become man and wife, to have the iron bars of a penitentiary which have separated them for so long, torn apart, to permit them to be married under the laws of the state, to found a home, to legitimize their child and to become respectful members of society.

"To refuse this appeal from them, their relatives and friends, and to

## WEST CLASHES WITH CRAWFORD ON LAND BOARD

SALEM, Ore., Mar. 19.—The stormiest session of the state desert land board during the present administration was held here today when Governor West endeavored to get the board to require the Des Chutes Land company of which J. E. Morson is president, to enter into a new contract with the state embodying provisions, he stated he believed necessary for the proper protection of settlers to whom land is being sold.

Anger on the part of the governor, Attorney General Crawford and State Treasurer Kay rose to white heat, and with blanching faces and quivering lips the governor and Crawford hurled ugly charges at each other. For a time it appeared as though blows could not be averted.

The Des Chutes Land company's contract with the state expires April 1, 1914.

State Treasurer Kay moved to give the company an extension of time without changes being made in the contract.

When the anger subsided Attorney General Crawford renewed a motion to extend the time of the contract 90 days and the governor amended it to 30 days. This motion was passed with the governor voting against it.

## 149 MUTINEERS SHOT IN SQUADS DOZEN AT TIME

Nine Leaders and 140 Followers of Jofutla Murdered by Federals for Revolt—Condemned Faced Death Stolidly—Prisoners Lined Up

Fifty Others Also Killed in Neighboring Towns by Order of General Castro With Huerta's Approval.

MEXICO CITY, Mar. 19.—"It was horrible but it was the only thing to do," said Captain Adan Toledano, speaking today of yesterday's execution of 149 federal mutineers at Jofutla, of which he was an eye witness.

"The nine leaders and their 140 followers were shot," he continued. "The men were brought out in squads of a dozen at a time. An embankment served instead of a wall. The work was done rapidly. The firing squads made ready as the prisoners were lined up and as the men fell they were piled together, and before burial the troops were marched past to get a close view and profit by the lesson.

**Is Usual Penalty**

"This is usual in cases of executions for mutiny.

"Most of the condemned faced death stolidly.

"I was at Cuernavaca a week ago when I heard that the mutiny at Jofutla had occurred and that General Atarista had been killed by the mutineers.

"A special troop train was ordered, with General Castro, military of the state, in command and we left at once. Arriving at Jofutla at 7 in the evening, we found there were 250 mutineers against our force of 900.

"By midnight we had taken the barracks with 149 prisoners. General Castro investigated and found most of them were convict soldiers, mainly thieves and pickpockets. He ordered them shot the day after the inquiry was finished.

**To Quell Mutiny**

"We captured Jofutla after three hours fighting," said General Castro, who was also here today. "I personally ordered the execution not only of the 149 mutineers, but of 50 others captured in neighboring towns the next day. It was the only way to quell the mutiny and enforce discipline.

"I did not see the executions myself but I received full reports from the officers who had charge of them and made a complete report to President Huerta."

## HALF MILLION ON THAW'S PETITION

ALBANY, N. Y., Mar. 19.—With a petition a half mile long, bearing approximately 500,000 signatures, two lawyers, two press agents and a messenger, all representing Harry Thaw, stood in the capitol lobby today buttonholing members of the legislature. The petition asked that the legislators use their influence to end New York state's efforts to secure Thaw's return to Mattewan. The lawyers, the press agents and the messenger asked the same thing. Assemblyman Golden had a speech along similar lines ready to be delivered Monday.

## EXCLUSION FAILS TO GET A HEARING

WASHINGTON, March 19.—Another attempt to secure consideration of an Asiatic exclusion bill was made before the house immigration committee today by Pacific coast representatives. It failed because of the absence of Chairman Barnett. Western congressmen, however, predicted that a bill restricting the immigration of Mongolians and Hindus would be favorably reported at this session of congress.

## WILSON EAGER TO FORCE CANAL EXEMPTION BILL

Full Pressure of Administration Being Exerted to Accomplish Result—Red Hot Fight in House Certain, But Majority Safe for Repeal.

Jones of Washington Called Down by President for Asserting British Ambassador Inspired Message.

WASHINGTON, March 19.—Debate in the house on the bill to repeal American shipping's exemption from Panama canal tolls will start Tuesday, it was stated today. It was predicted a final vote would be reached the Saturday following.

How important President Wilson regards the repeal of the exemption clause of the Panama canal tolls act was indicated today when he disarranged his entire business program to confer with Congressmen Sherley and Covington. Meanwhile a score of white house callers waited.

**Representative in Charge**

President Wilson has asked Representatives Sherley, Covington, Palmer and Adamson to take charge of the repeal bill, which probably will be considered by the public next week. As many of the southern congressmen are supporting Representative Oscar Underwood's opposition to the measure, a red-hot fight is certain and administration officials admit it will require all the pressure that President Wilson can bring to bear to pass the repeal bill.

At today's conference the position of each democrat was discussed and the attitude of each representative checked off. Both Sherley and Covington assured the president that the bill was certain to receive a majority in both houses.

**Jones Called Down**

Senator Jones of Washington, who yesterday denounced President Wilson's attitude on the Panama canal tolls act, called at the white house today on another matter. President Wilson immediately told him that he was "skating on thin ice" when he intimated yesterday that his (President Wilson's) canal tolls address was prepared at the request of Sir Lionel Carden. The president told Jones that his address was in the hands of the printer three days before Carden called at the white house.

## CAILLAUX COSTS CABINET MEMBER

PARIS, Mar. 19.—The Caillaux case cost another cabinet member his portfolio today. This was Minister of Marine Ernest Monis. He resigned following the remark by one of the lawmakers in the chamber of deputies that probably he would be influential enough to prevent the prosecution of his ex-colleague, former Finance Minister Caillaux's wife for killing Editor Calmette of the "Figaro." When Monis was premier, the deputy added, he succeeded in delaying the trial of Henri Rochette, accused of swindling aggregating \$20,000,000, as well as in getting him released on bail, the result being that Rochette disappeared and had never been seen since.

## GIANT REDWOODS THREATENED BY FIRE

SANTA CRUZ, Cal., Mar. 19.—A forest fire which started yesterday near California Redwood Park in the Big Basin had assumed alarming proportions today and hundreds of employees of the Southern Lumber company and the Middleton Lumber company were fighting the flames. The fire today was but a quarter of a mile from the state park line, while one on Gasos creek is within three miles of the big reserve.

## GOLD RAY DAM HAS MODEL FISHWAY

—Courtesy of the Journal.

New fishway recently completed on south side of river at Gold Ray dam. Cost \$3000, was designed by Engineer Harry Foster and constructed by California-Oregon Power Co. There is now a fish ladder on either side of dam.

## BUILD TROLLEY TO MOUNT ANGEL FROM OREGON CITY

PORTLAND, Ore., March 19.—Important announcements are expected within a day or two from President F. T. Griffith of the Portland Railway, Light & Power company affecting the Willamette Valley Southern, a line being built southward from Oregon City thirty-two miles toward Mount Angel. Trains are being operated over six miles of this line. President Griffith, over the long-distance telephone from Estacada, admitted that his company is affording assistance to the stockholders of the Willamette Valley Southern, but denied any intention on the part of the Portland railway to take over the road, as had been repeatedly rumored.

By the establishment of working traffic arrangements with the Clackamas Southern, whether by actual operation of the entire line from Portland to the present terminus of merely by a friendly pact of co-operation, the territory south of Oregon City would be served without the necessity for a second interurban line between Portland and Oregon City. Added strength was given the report of this traffic arrangement today with the filing at Oregon City with the recorder of Clackamas county of a mortgage to secure a bond issue up to \$3,000,000. The filing was made by F. C. Taylor, private secretary to President Griffith, though it was in the name of the Willamette Valley Southern Railway company.

## KEEP QUARANTINE ON HAWAIIAN FRUITS

WASHINGTON, Mar. 19.—It was intimated at a meeting today of the horticultural board of the department of agriculture that no important changes regarding quarantine regulations affecting Hawaiian fruits were contemplated. Members indicated that the only change probably to be made was that the government will take over the inspection of fruits now being made by Hawaiian and California state authorities.

## PARK POND NAMED AFTER PRESIDENT'S WIFE

WASHINGTON, March 19.—Secretary of the Interior Lane today named one of the ponds in Glacier National Park, Lake Ellen Wilson, after the president's wife.

## BANK BANDITS GET \$3800 IN BLOOMINGTON

BLOOMINGTON, Ill., March 19.—Bandits today robbed the State Bank of Tonia of \$3800 and escaped. A posse is in pursuit.

## OFFER MOTION OF CENSURE ON HOME RULE BILL

LONDON, March 19.—Adoption of a motion to ensure the government for its attitude on the Irish home rule bill and for its refusal to make further concessions was urged in the house of commons today by A. Bonar Law, leader of the opposition. He declared the situation was more dangerous than ever. After challenging the government to take a referendum vote regarding proposed concessions, Law promised that the opposition would accept the result as final.

"If the government is serious it ought to explain its attitude," said Law. "The unionist party is opposed to any sort of home rule, but it is not willing to slam shut the door of peace."

Unionist papers published today stories that the guards of the barracks at Londonderry, Belfast and other places had been doubled because it was feared Orangemen contemplated ammunition raids.

Reports that warrants had been issued for Sir Edward Carson and other Ulsterites were denied here.

## 842 PINTS WHISKEY DUMPED IN SEWERS

ALBANY, Ore., Mar. 19.—Eight hundred and forty-two pints of whiskey, confiscated on orders of the circuit court, was emptied into the sewers here today by Sheriff Bodine, and Chief of Police Austin. Forty pints were similarly disposed of last night. The liquor was seized last night while being transported through the streets on a dray, under the law passed by the legislature in 1913 requiring that all liquor shipped into dry territory shall be labeled as such on the outside of the packages containing it.

The liquor was consigned to an Albany drug firm.

The title of the action which resulted in the confiscation was: "The state of Oregon versus thirty-five packages of whiskey."

## FEDERALS BEATEN BY VILLA ASSERTS REBEL LEADERS

EL PASO, Texas, Mar. 19.—Absolutely contradicting reports that General Villa had been defeated at Escalon, rebels here were showing a telegram from the constitutionalist leader today declaring he had beaten the federals and expected to occupy Torreon Sunday.

The message was received at Juarez last night and contained the first definite news to reach the north from the fighting line since March 15. Later official advices amplified it somewhat. So also did a telegram from General Benavides, who was reported yesterday to have been killed in battle.

Benavides' message said the Escalon fighting was not as serious as had been rumored though the general admitted it "was annoying." He asserted that the federals were thoroughly beaten and in full retreat from Torreon.

## STOCKS SHOW GAINS IN TODAY'S MARKET

NEW YORK, March 19.—Narrow price changes were the rule in today's early stock market. Reacting from yesterday's slump, Lehigh Valley gained a full point in the first few transactions. The general tendency was upward, but no other advances of more than a fraction were recorded. Conflicting reports of the steel trade tended to restrict trading. At noon most stocks were a trifle above yesterday's level. Seaboard Airline preferred lost 1.

## HEAVY BLIZZARD COVERS ENTIRE SEWARD PENINSULA

NOME, Alaska, March 19.—A heavy southerly blizzard has covered the entire Seward peninsula with a new fall of snow. While the streets of the city and the trails leading to it are blocked, no damage has been done.

## PLAN EXTENSION TROLLEY LINE TO CITY RESERVOIR

Construction Work to Be Begun at Once on Mile Extension of Electric Railroad—May Loop Back Through Queen Anne Addition.

Will Make a Two and a Half Mile Scenic Route—Further Extensions of System Planned for Future.

The Southern Oregon Traction company is to commence construction work within the next few days on the extension of their street car line. The line is now built to Siskiyou Heights addition, a distance of one and a half miles, and will be in operation this week. From the present terminus the line is to be extended east and north through the Siskiyou Heights addition to the city reservoir, a distance of one mile.

The city reservoir will be the new terminus, but it is not believed that point will long remain the terminus, as overtures have been made the company by property owners west of the reservoir to extend the line west through Highcroft, Queen Anne and Laurelhurst additions. Should this be done, the line will extend as far west as Roosevelt avenue, where it will connect with the line now constructed at the corner of Roosevelt avenue and Main street.

The line to the reservoir, to which point it has positively been decided upon to build, will afford a two and a half mile scenic route, which ought to give the road a good all-the-year-round business, and if the loop is made as above outlined, added business will be given the line because of the new residences which will be built in the two additions referred to.

The intentions of the company are first to establish and maintain a busy one-car route, after which the line will be extended into such localities as will extend to the company to be good prospective business routes. In this connection it may be said that pressure is being brought to bear on the officials by property-owners in West Medford, and it is not at all improbable that before another winter the line will be extended west on Main street to the city limits and into the residence sections north and south of West Main street. The company will extend their line into all sections of the city just as fast as the situation seems to demand.

The service which is to be started this week will be a "half-hour service" and will start at 6 o'clock in the morning and continue until 9 at night.

## HUERTA WORRIES GREAT CAPITALISTS OF MEXICO CITY

MEXICO CITY, March 19.—Between the devil and the deep sea, the big business men and great landowners on whom President Huerta called last night for help in his campaign against the rebels were debating among themselves today what course to pursue.

The embarrassing feature of the president's demand was his specification that each of the individuals he addressed equip and pay ten men to serve with the federal forces. This would not only give him an army of about 500,000 men, but those who provided it would be definitely committing themselves to the dictator's party.

And it was to commit themselves in this way that they objected. For the expense they did not so much care, but if they actually put men into the field against the rebels and the latter won, they were afraid they would be ruined.

On the other hand, there was every prospect that Huerta would ruin them if they disregarded his wishes. United States Charge d'Affaires O'Shaughnessy was suffering from sciatica today. He was in bed with a physician attending him.
