Baking and Cooking in this Climate

Climatic conditions are very important in cooking and baking; what applies to the high altitude of the East is not adaptable to the sea level of this section. That is why successful Eastern formulae are often failures here. The Fairles Cook Book, just issued by the Fisher Flouring Mills Company, manufacturers of

Fisher's Blend Flour

the perfect All-Purpose Flour, made of choicest Eastern hard wheat and choicest Western soft wheat, was prepared with this lact in mind.

Mrs. Isabella Swezy, recognized authority on the art of cookery,
repared and tested every one of its 156 recipes. For successful haking in this climate the Fairies Cook Book has no equal. We will mail
