FIERCEST BATTLE OF WAR RAGING ASSERTS VILLA

JUAREZ, Mexico, Mar. 25.—General Chao, military governor of Chihuahua state, announced this afternoon that he had received encouraging news from General Villa. It was somewhat confusing, however. Villa said the fiercest battle of the rebellion was raging at Torreón and Gomez Palacio. At the moment the federals held the latter place, it was added. Yet Villa asserted that he had the federals surrounded and would soon capture both towns. The rebels, according to Chao's message, were using Lerdo and El Verjel as their bases. As nearly as could be ascertained, the federals retook Gomez Palacio last night or early today. Artillery was said to be figuring largely in the engagement.

KING GEORGE CRITICISED FOR BENDING TO LIBERALS

LONDON, March 25.—Westminster continues a seething caldron over what the liberals now denounce as the "mutiny of the army aristocrats" against the democratic government. The fact is established from all obtainable evidence that General Humber Gough and other officers of the Third cavalry brigade demanded and obtained written assurances they would not be ordered to fight Sir Edward Carson's Ulster volunteers and that these assurances were obtained largely through the king's personal intervention. Before leaving London they sent messages to brother officers in Ireland they found support from the highest quarters. The throne which has traditionally kept out of party controversies, both because of aloofness and as a point of honor with public men and newspapers, is involved in the discussion as never before during King George's reign or that of his diplomatic father. The liberal section who opposed what they denounced as a surrender to the military oligarchy are criticising the king with the greatest freedom.

SURVEY OREGON COAST TO BATTLE HIGH LIVING COST

SAN FRANCISCO, March 25.—The department of commerce is going to do much during the coming summer for the Pacific coast. Secretary Redfield told the San Francisco chamber of commerce today. Two great undertakings are already determined upon, a survey of the fisheries off the Oregon coast to determine how much they may contribute to the food supply and a more careful survey of the Alaska coast to increase the safety of shipping. The steamer Albatross will leave next summer for the Oregon coast. Secretary Redfield said, to investigate the halibut and other fishing possibilities. "I believe we may add as greatly to the food supply of the Pacific coast in this way," he said, "as the fishing banks of the Atlantic have contributed to the food of the east."

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed. As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists, 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.

hotly denied that the king had interfered between the war office and the army officers who resigned. This, however, did not prevent many members of parliament from saying that they believed he did.

Replying to a query as to the meaning of a statement attributed to General Paget, commanding the troops in Ireland, to the effect that the country would be "abandoned" by last Saturday, the war minister said Paget merely referred to the newspapers. He was questioned, too, referring to the arguments he used to persuade General Gough to withdraw his resignation from the army. "I told him," said Seely, "that the government had no intention of shooting the Ulstermen down, and that all we wanted was to keep order."

Defend the King

Like Seely, Premier Asquith and others tried to defend the king against the accusation of having interfered improperly in the home rule controversy. The liberals, labor and Irish members, did not warm up much over Asquith's depreciation of attempts to "drag his majesty's name into such a matter," but they cheered enthusiastically when he denounced army dictation. "Such dictation would put the government at the mercy of the army and navy," he said. "We don't apologize, because all we took were perfectly proper and natural steps to preserve order in Ireland in view of the fact that Sir Edward Carson claimed to have organized and equipped 100,000 men to resist home rule."

Pumps that Please

A Well Dressed Lady from San Francisco

came into the store Saturday to look at street shoes. While trying them on another lady came in and sat down, beside her, to try on pumps. "My!" said the lady from San Francisco, "what a large variety of pretty and sensible pumps you have here. How I do wish I could wear pumps, but they always slip on the heel." She had already decided on a pair of patent button boots. But the clerk, anxious to please her better than they did in her home town, showed her several styles of our new one strap pumps. "My, what a pretty shaped pump, how nice it looks on my foot and it would never slip at the heel." "What practical soles and heels, yet they look just as nice as the light and dainty ones." Upon being told they were only \$3 and \$4.50 in velvet, gun metal and patent leathers. She said: "Medford held many surprises for me but this is the greatest of them all." That is satisfaction that comes by satisfying the desires of our patrons. First class shoe repairing.
