

CAMPBELL EXPECTS AID FROM FAMILY START LIFE ANEW

PORTLAND, Ore., Mar. 25.—After spending the night at the Imperial Hotel guarded by a deputy provided by Sheriff Word, Walter Greer Campbell, who was arrested here yesterday on a telegraphic warrant sworn to by W. B. Kellogg, a San Francisco hotel man charging him with obtaining \$250 under false pretenses, awakened today with the optimistic declaration that he will have no difficulty in securing his release when he reaches the Bay City.

Three years ago Campbell was reputed to be worth several million dollars, but it is said that little now remains of the once huge fortune. After telephoning his sister, Mrs. Phoebe Gibbons at Walla Walla late yesterday, Campbell assured the detectives that she would immediately send \$25,000 to aid him in starting life afresh.

Campbell is said by a Portland broker to have \$29,000 in English bonds in the mails on the way from San Francisco from which he expects to realize money with which to pay his most pressing obligations.

Since his arrest Campbell has spent but one hour in jail, going about town freely with a guard in attendance. Although arrested by the Portland police, Campbell was turned over to the county authorities for safekeeping.

WHOLESALE MURDERESS BELLE GUINNESS SOUGHT

LA PORTE, Ind., March 25.—Carrying an unsigned warrant, former Marshal Clinton Cochran started today for Neville, Nask., where he believes Mrs. Belle Guinness, the notorious wholesale murderess, is in hiding. Many persons think Mrs. Guinness lost her life which destroyed her home on the "murder farm" near here several years ago.

MILITIA DISPERSES STRIKE SYMPATHIZERS

BUFFALO, N. Y., March 25.—Militia dispersed a crowd of strike sympathizers which gathered in the Depew railroad yards on arrival of a trainload of strikebreakers from Buffalo today. Three hundred more militiamen were sent to patrol the Depew and Lancaster factory districts. Last night there was occasional shooting, but so far as known no one was hurt.

NEWS FROM COUNTRY CORRESPONDENTS

BUTTE FALLS BUBBLES.

Mr. Carnes of Medford was buried at the cemetery Tuesday. He was a member of the Odd Fellows lodge and the ceremony was in charge of them. Mr. Carnes leaves a little son, Donald, and a stepson, Edmond Raymond, who have the sympathy of everyone here.

The Junior Endeavor was favored by a special quartet Sunday by Cecile Peeler, Wilma Morris, Merrill Stewart and Glennie Albert.

Mr. Clevenger has just completed a contract for putting in some more crosswalks. Butte Falls now has a total of 2.2 miles of sidewalk.

O. B. Morris spent Sunday at Evergreen ranch, near Plummer Rock.

The Ladies' Aid called a special meeting at the church Monday afternoon to make plans for a social to be given about the first of April.

Mr. and Mrs. Frank Netherland and children, Lowell and Harold, moved to Medford last week.

Professor Harry Day and Miss Laura Blackburn came up from Gold Hill Thursday and were married at the home of Rev. and Mrs. Day here. They remained until Saturday.

Mrs. Carson returned Saturday, after having spent the winter with relatives in Kansas.

Mr. Howard made two trips to the valley last week, purchasing live stock for his ranch above here.

Mr. Moore and family left last week for Algoma, where they intend to stay for a while at least.

Mr. Murphy's so narrived Thursday to help him with some survey work.

Mr. Niel's family were up from Derby Tuesday.

Registration to date shows: Republicans, 44; democrats, 37; socialists, 10; prohibitionists, 6; independent, 1; total, 98.

ROGUE RIVER ITEMS.

Ms. Turner died very suddenly at the home of her son, Orin Train, three miles up Evans creek, Sunday morning. She had been in usual good health and around the house in the morning. Different duties called all the members of the family out of the house for about an hour, and when Mr. Train returned he found her lying on the bed, dead. Deceased was about eighty years of age. Funeral was held at the Presbyterian church in this place this afternoon.

CENTRAL POINT POINTERS

Mr. and Mrs. Broadbent and family spent Sunday with relatives and friends at Medford.

One of the most enjoyable and noteworthy events in our city took place at the home of J. J. Grim Saturday evening, when they were host and hostess to their many friends. A delightful evening was spent, long to be remembered by all present. Dainty refreshments were served. Mr. and Mrs. Grim expect to leave soon for the north, where they will spend the summer with their daughter.

Born—To Mr. and Mrs. Clyde Applegate, Saturday, March 21, a daughter. Mother and child are doing nicely.

The two Bowman brothers left for Eastern Oregon the first of the week to spend a few months.

Miss Francis Shields and Edith Emerson spent the week's end with friends at Riverside.

Mr. Nealon of Table Rock was a business visitor here the last of the week.

Mrs. Caton and children, who have been visiting relatives and friends here a few days, have returned to their home at Ruch.

Herman Simpkins has returned from a several weeks' visit to Chico, Cal.

The city council will meet Thursday evening to transact such business as may come before it.

BEAGLE BEAGLETS

The fruit tree inspectors made the rounds of the Beagle country last week and fortunately escaped without serious mishap.

The Ward medicine man was in this section last Tuesday.

Mr. and Mrs. Hazlewood of the Meadows were here buying supplies Wednesday.

Dell Morrison and John Corum have gone to Medford, where they have employment.

Mr. and Mrs. Will Jones are rejoicing over the arrival of a baby girl at their home. Now it's two boys and a sister.

Mrs. Laura Brown is helping care for Mrs. Jones and the new baby.

Supervisor Peterson made the Mountain and Meadows schools a visit Friday.

S. H. Hubbard is doing some team work for Gail Gordon.

Miss Shultz was the guest of her

aunt, Mrs. Daw, at Debenger from Friday night till Saturday evening. A fairly good-sized crowd is reported as in attendance at the dance at Walker's Saturday night.

Mr. and Mrs. Jim Martin were Sunday guests of Mrs. Jane Ragsdale.

Percy Clumpan and Ola Rodgers were married at Jacksonville Wednesday, the knot being tied by Judge Tou Velle.

Mr. and Mrs. Sanderson and Mr. and Mrs. Earl Case were Sunday guests of the M. H. Gordon family.

All bids on the new mail routes must be on file by April 17. Harry now and do your duty.

Charlie Marquess tried the experiment of touching a cigarette to a can of powder Friday and as a result is nursing new lumps and a badly burned eye. Experience is a hard lesson, but convincing.

The Stacy family were Sunday guests of the McCreights.

Norman Gage of Debenger came over to take 'em in the ball game Sunday.

Mrs. Jasper Rodgers visited her daughter, Mrs. Jones, Thursday.

"Uncle Billy" Jones made a business trip to Medford Saturday. Blanche Rodgers was entertained at the Johnson home Sunday.

WILLOW SPRINGS TWIGLETS

A little nonsense now and then is relished by the wisest men.

Mrs. McKee and family spent Friday with the Burkholz family.

The Willow Springs boys and girls who attend the Central Point high school are making great plans for the big picnic.

Marion Young of Ashland is removing his fence and enlarging his orchard in the northern part of this district.

Mr. and Mrs. Moon and W. A. Cowley and family were guests of Frank Thompkins a week ago.

J. R. Rowe made a short pleasure trip to John Eddington's, near Gold Hill, last Sunday.

There ought to be peace on earth to you if you have a piece of earth to call your own.

W. A. Thompson was host to friends on Sunday.

Earl Heit has several teams at work on the property known as the "76."

Mrs. T. M. Jones visited Mrs. Hoagland the latter part of the week.

The Grange will meet Saturday evening at the schoolhouse.

Mr. and Mrs. O'Hara were in the district Monday afternoon. Mr.

O'Hara was inspecting the wood cutting being done on his place.

It is rumored a fine residence will be erected in Willow Springs in the very near future.

The Dean family spent Sunday in Sam's Valley with Mrs. Dean's mother.

Mr. Hicks, a former resident of this district, but now of Ashland, is spending several days in the neighborhood.

Co-operation is needed more than all the political panaceas that are recommended for prosperity. We can create our own prosperity by co-operation, but this may be impossible when each works independently of the other.

Mrs. E. M. Andrews and daughter, Caroline, of Medford, were guests of Miss Francine McNasser for the week end.

The following persons motored to Medford on Monday: John Sisty and wife, D. W. Stone, J. P. Hoagland and A. A. Davis.

D. W. Stone and wife dined on Sunday with Mr. and Mrs. Streets of Medford.

A large number of hives of bees belonging to John Sisty were removed to the Will Lewis ranch, in the Kane's creek locality.

GARDINER NOMINATED BY PROGRESSIVES OF MAINE

BANGOR, Me., March 25.—Maine progressives nominated Herbert P. Gardiner for governor and declared for continued prohibition.

EAT CABBAGE, FISH SAUSAGE, NEW BREAD

No Indigestion, Gas, Sourness or Upset Stomach if You'll Take "Pape's Diapepsin"—Try This!

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down. Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets wet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

"Get Up" and Get

Don't you back up or stop until you've tried **DIXIE QUEEN**. It's the one perfect tobacco for the big, two-fisted, out-of-doors man who wants a rich, mellow tobacco for both chewing and smoking.

You get hold of **DIXIE QUEEN**. Note the honest sweetness of this pure old Burley leaf, aged for three to five years, to bring out all its mellow fragrance and flavor. **DIXIE QUEEN** has the genuine snap and taste that you want in tobacco.

DIXIE QUEEN

Plug Cut Tobacco

is purposely made up for the sturdy man who is hungry for a real man's tobacco. For many years all sorts of brands have tried to beat out **DIXIE QUEEN**—but **DIXIE QUEEN** is still the leader of them all.

Nothing fancy about the **DIXIE QUEEN** package—we put all the cost into the tobacco. As you say of a horse, "he's all horse"—so we say of **DIXIE QUEEN**—"it's all tobacco."

DIXIE QUEEN is the longest lasting good tobacco ever sold. Slow burning in the pipe. The flavor is enduring when you chew.

Hitch up with **DIXIE QUEEN** for a week's trial, and you and **DIXIE QUEEN** will always pull together like a well-matched team.

Sold everywhere in convenient 5c foil packages—also in 10c pouches and 50c lunch boxes.

THE AMERICAN TOBACCO COMPANY

Telephone Achievements

Telephone Service of Today the Creation of the Bell Co.

In no line of human endeavor has the inventive brain of the scientist contributed more to the world's progress than by the creation of the art of telephony, of which the Bell system is the embodiment.

When the telephone was born, nothing analogous to telephone service as we now know it existed. There was no tradition to guide, no experience to follow.

The system, the apparatus, the methods—an entire new art had to be created. The art of electrical engineering did not exist. The Bell pioneers, recognizing that success depended upon the highest engineering and technical skill at once organized an experimental and research department which is now directed by a staff of over 550 engineers and scientists, including former professors, post-graduate students, scientific investigators—the graduates of over 70 universities.

From its foundation the company has continuously developed the art. New improvements in telephones, switchboards, lines, cables, have followed one another with remarkable rapidity.

While each successive type of apparatus to the superficial observer suggested similarity, each step in the evolution marked a decided improvement. These changes, this evolution, has not only been continuous, but is continuing. Substantially all of the plant now in use, including telephones, switchboards, cables and wires, has been constructed, renewed or reconstructed in the past 10 years.

Particularly in switchboards have the changes been so radical that installations costing in the aggregate millions have frequently been discarded after only a few years of use.

Since 1877 there have been introduced 53 types and styles of receivers and 73 types and styles of transmitters. Of the 12,000,000 telephone receivers and transmitters owned by the Bell Company January 1, 1914, none were in use prior to 1902, while the average age is less than five years.

Within 10 years we have expended for construction and reconstruction an amount more than equal to the present book value of our entire plant.

Long distance and underground transmission was the most formidable scientific problem confronting the telephone experts.

The retarding effect of the earth on the telephone current often impaired conversation through one mile underground as much as through 100 miles overhead. Overhead conversation had its distinct limitations.

long-distance circuits of which as much as 20 miles was in underground cables. By 1906 underground talking distance had increased to 90 miles. By 1912 it was possible to talk underground from New York to Washington.

It was then that the construction of underground conduits from Boston to Washington was determined upon—not that it was expected to get a through underground talk between those place, but in case of storm or blizzard, to utilize intermediate sections in connection with the overhead.

Our persistent study and incessant experimentation have produced results more remarkable still.

We have perfected cables, apparatus and methods that have overcome obstacles heretofore regarded as insuperable both to long distance overhead and underground conversation.

Underground conversation is now possible between Boston and Washington, four times the length of the longest European underground line. This enabled the Bell System in the recent great storm, so destructive on land and sea, to maintain communication for the public between all the principal points on the Atlantic seaboard.

Telephone communication is established between New York and Denver, is potentially possible between all points in the United States, and by 1915 will be an accomplished fact between New York and San Francisco.

In our use of methods or apparatus, we are committed to no one system. We own, control or have the right to use inventions necessary to operate any system recognized or accepted as the most efficient. The Bell System must always recognize, and in its selection must always be governed by the necessities of a national service, with its complex requirements, which is infinitely more exacting than local or limited service.

These achievements represent vast expenditures of money and immense concentration of effort which have been justified by results of immeasurable benefit to the public. No local company unaided could bear the financial or scientific burden of this work. Such results are possible only through a centralized general staff, avoiding wasteful duplication of effort, working out problems common to all, for the benefit of all.

The pioneers of the Bell System recognized that telephone service as they saw it, was in the broadest sense a public utility; that upon them rested a public obligation to give the best possible service at the most reasonable rates consistent with risk, investment and the continued improvement and maintenance of its property.

Without this expenditure of millions and concentration of effort, the telephone art as it exists could not have been developed.

What we have done in working out these great problems in the past should be accepted as a guarantee of what we will do in the future.

THEO. N. VAIL, President.
