With Medford Stop-Over

BRIDGE PROGRAM FOR YEAR TALKED BY COUNTY COURT

The bridge program for the year is being considered today by the county court, in session at Jacksonville.

A new bridge to cost \$3000 across Evans creek at Rogue River will likely be ordered. The present bridge is old, rickety and weather beaten, and has been in place for 50 years.

A number of residents of the northeast section of the county appeared before the court and asked for a pile bridge across Bear creek to cost \$500, on the new county road back of the Taylor place in Northeast Medford. It would serve a large section and many farmers.

The county court is investigating the report that the steel bridge in Central Point across Bear creek is crystallizing, and if it proves true steps will be taken to prevent further deterioration.

SWAT THE FLY CAMPAIGN IS ON

The swat the fly campaign, for which the Commercial club offers \$31 in prizes for the best swatters in the schools of the city opened today with a bang, the boys and girls going after the world's greatest carriers of disease germs for the fun and the dollars that are in it.

An ordinance providing for the cleaning up of rubbish, garbage and co-operating with the Greater Medford club in its anti-fly campaign.

J. S. Howard the father of Medford says he can remember when it was considered inhuman to kill fly, and that the boy who did so, was scheduled to meet an ignominious death on the gallows, when he grew up.

TEXAN KNOCKS OUT MUGGSY M'GRAW

HOUSTON, Texas, April 1.—Manager "Muggsy" McGraw today nursed a sore jaw as a result of a quarrel with Manager Newnan of the home team. The two managers quarreled just before the game was scheduled to start.

McGraw, it was announced, is now trying to buy the Houston team and if he is successful says "Newnan will last about fifteen minutes as club manager."

ASK WARSHIP OREGON FOR OREGON MILITIA

SALEM, Ore., April 1.—The navy department has under advisement today a request that the battleship Oregon will be assigned to the Oregon naval militia after the Panama Pacific exposition, according to information received by Governor West from Secretary Daniels.

WE ARE VIEWED WITH ALARM

THE Pacific coast is being viewed with alarm by the stand-pat east. Our experiments in government fill the ancestor worshippers with apprehension. Efforts to reform abuse and eliminate graft from public service arouse distrust among the Tories. Popularizing government causes dismay in aristocratic and plutocratic circles.

As for the coast statesmen, those that current political majorities have put into office are curious persons. They seem to feel that the North American continent was created and peopled and should be governed and conducted for the benefit of its west coast. They feel this with intensity, and even with violence. Their manners about it are far from being diplomatic.

The coast is all a geological afterthought thrown up long after the rest of the continent was dry and getting into shape. The very land of it is restless and threatens from time to time to leave the Union and slide back into the sea.

The coast is more truly American, in the best sense of the word, than any part of the United States. There are more New England families on the Pacific coast than there are in New England—more of the best blood of all the eastern states than is left in those states.

The Pacific coast has not only given the United States its supply of gold, of fruit, of lumber and of fish and other staples, but its current political thought and ideas. Its strivings are for real democracy and for purification of politics. Unfettered by tradition, unhampered by caste, its people are working out their own and the nation's salvation.

The "Oregon system," ridiculed as it has been, is revolutionizing and popularizing government in the United States. It has destroyed the political machine and taken away the occupation of the political boss. It has awakened a widespread interest and participation in government among the masses. It has enabled legislation for the protection of humanity as well as the dollar. It has made possible popular election of senators and regulation of corporations.

The Pacific coast is politically far in advance of the east. Women have the ballot along its entire length. Widow pension, minimum wage and child labor laws are actualities. And its example is forcing and will force similar legislation upon the tranquil and self-satisfied east to remedy abuses that cry to heaven.

Single tax, which many consider the real panacea for poverty, originated on the coast. The direct primary, initiative, referendum and recall received here their great stimulus. Let us hope that before we crystallize mentally and become immune to progress that other equally radical changes will create a real democracy and make the nation a true land of equal opportunity.

THE WASTE OF WAR

THE war in Mexico amply illustrates the thinness of the veneer that civilization has glossed over humanity.

Barbarous Mexico today is but little in advance of France in the thirteenth and fourteenth centuries. With the whole country wasted by war and brigandage, its industrial institutions turned into fortresses and its yeomanry harried on every side, it seems but a short step back to the middle ages.

Japan also furnishes another modern example of the misery and folly of war. While its aims were notably successful in the field, the empire is now threatened with internecine strife, brought about wholly by the inordinate war tax, and it will take decades to wipe out the misery occasioned by its militant spirit.

Yet the voice of the jingo is still heard, even here where the sorrows of war are still fresh, calling for intervention in Mexico and using his best endeavor to embroil the country in a useless and idiotic war.

COLORED GIANTS HERE TO PLAY PORTLAND COLTS

The greatest colored baseball team in the world—the American Giants—who are playing the Portland Colts of the Northwest league at the baseball park this afternoon in the opening game of the season in this section, discovered this morning when they went to get their breakfast that all the eating houses of the city are owned by southerners, or don't need the money the cash register would show after feeding fourteen hungry colored citizens. No one would serve them.

After a pow-wow, in which Chick Bowlin of the home guards played the role of mediator, the pork chops were thrown on the different ranges and the athletes relieved of the prospects of starvation.

The Colored Giants and the Colts arrived this morning in two special cars from the south. Doherty and Williams will be the battery for the Giants and Nick Williams has not announced his battery.

The Colts and Giants have been playing close, hot games in the south and a good crowd of valley fans will be on hand this afternoon to see one of the best games of the year.

Automobile Tires At Factory Prices

SAVE FROM 30 TO 60 PER CENT

Table with columns: Tire, Tube, Retliner. Rows include 28x3, 30x3, 30x3 1/2, 32x3 1/2, 34x3 1/2, 32x4, 33x4, 34x4, 36x4, 35x4 1/2, 36x4 1/2, 17x4 1/2, 37x5.

TIRE FACTORIES SALES CO., Dept. A Dayton, Ohio

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ill it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At drug stores. 50c. large box, or by mail. The Paxton Toilet Co., Boston, Mass.

CATARRH VICTIMS

Use Hyomel—You Breathe It

It's the right-to-the-point remedy not only for catarrh, but for 30+ colds, sniffles, bronchitis, laryngitis or croup of children. You breathe it—no stomach dosing.

You will like Hyomel. It not only gives instant and lasting relief, but is entirely harmless, pleasant to use, and economical. Money refunded by Chas. Straub if you are not benefited.

Hyomel is a combination of anti-septic oils that mixes with the air and quickly reaches the irritated and inflamed membrane of the nose. It's sure and safe healing begins immediately—you feel better at once.

If suffering from watery eyes, husky voice, discharge from the nose, or that choked-up feeling, try Hyomel now—today. All druggists sell it. Ask for the complete outfit—\$1.00 size.

Boils Are a Bad Indication

No Time Should be Lost in Purifying Your Blood.

At the first appearance of pimples and boils the blood should be given a good searching internal bath with S. R. R. the greatest blood purifier known to man. This remarkable remedy has the peculiar action of soaking through the arteries directly into the blood. In a few minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every conductor becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. R. R. compel the skin, liver, lungs, kidneys, bladder, to all work to the one end of casting out every irritating, every pain-inducing atom of poison. It dislodges by irrigation all accumulations in the joints, causes acid secretions to dissolve, renders them neutral and scatters those peculiar formations in the skin that cause boils and other skin eruptions.

And best of all this remarkable remedy is welcome to the weakest stomach. In a very brief time S. R. R. has the reconstructive process so under control that all eruptive diseases heal. You can get S. R. R. at any drug store. Beware of any effort to sell you something claimed to be "just as good." If yours is a peculiar case and you desire expert advice, write to the Swift Specific Co., 212 Swift Bldg., Atlanta, Ga.

PROPOSE TO LIMIT FREE POSTAGE ABUSE

WASHINGTON, April 1.—The senate was scheduled to vote this afternoon on Senator Robinson's proposal to limit the free postage of congressmen and senators to \$600 worth annually. The proposal is an amendment to the bill suggesting the abolishment of the present privilege enjoyed by members of congress, by which the government pays for their official telegrams.

45,000 COAL MINERS IN OHIO QUIT WORK

CLEVELAND, O., April 1.—Forty-five thousand Ohio coal miners quit work today. Their wage agreement with the owners expired at midnight, and their representatives could not come to terms with the employers on a new scale. Miners' union leaders said few of the strikers' families had anything saved, and predicted much suffering among them. The suspension may last for months.

RUBE WADDELL DYING OF CONSUMPTION

SAN ANTONIO, Tex., April 1.—Rube Waddell, famous old Athletic baseball pitcher, was reported dying in a sanitarium here this afternoon of tuberculosis. He has been in a stupor for hours and physicians do not expect him to survive the night. Ten years ago Waddell was considered one of the best pitchers in either of the big leagues. He figured largely in keeping the Philadelphia Americans up among the leaders for years, and when he was stricken with tuberculosis, Manager Connie Mack and other Athletic players provided him with the best of care. "Waddell will never want for anything as long as I have a dollar," said Mack recently. "He was undoubtedly the most eccentric player the game has ever known, but with it all he was a brainy and competent twirler. When right, he was the best pitcher in the business."

Hupmobile History

CHAPTER VIII

(Continued from yesterday) An explanation of the Hupmobile pedal, so that one motion of the pedal is sufficient to start the motor. The same motion of the operator's foot that engages the gears also closes the starting switch and the starting motor is revolving slowly before the gears engage, thus greatly facilitating the operation. The main contact in the starting switch is made only when the gears come into mesh practically their full depth, giving a practical guarantee against stripping.

The starting motor is located on the left side of the crank case, immediately back of the carburetor, where it is easily accessible for inspection of brushes and lubrication. The latter point will require very little attention, as the armature shaft runs on imported annular bearings. The electric lighting equipment consists of two electric head lamps, with full parabolic reflectors, sixteen candle power bulbs. The bulbs in the head lamps are adjustable to proper focus. The side and tail lamps are combination oil and electric.
