WEAKNESS MARKS STOCK MARKET

NEW YORK, April 23.—Pronounced weakness marked the opening of the stock market today as a result of the developments in the Mexican situation. Although the selling was not heavy, support was poor. A general drop of American stocks in London also influenced the decline.

Although the movement was generally downward, the losses, except in a few cases, did not reach as much as a point during the early trading. Mexican Petroleum lost heavily and American Smelting, which has large interests in Mexico, declined about two points. Canadian Pacific dropped to 194 1/2, the lowest price in four years. Bonds were weak. The market closed steady.

MODESTO RANCHER SHOOTS THREE MEN

MODESTO, Cal., April 23.—Without apparent provocation, W. H. Hutchison today shot and killed Frank Canfield, fatally wounded Spurgur and seriously wounded John Hall, on the Hickman ranch, fifteen miles east of here, where the men were employed. Hutchison gave himself up. The two wounded men were brought to the county hospital here, where it is said Spurgur cannot live. The only explanation for the shooting that Hutchison would make was that he had been persecuted by his victims.

AMERICAN LOSS TWELVE

Communication with the capital was re-established last night and it was then that news was received of O'Shaughnessy's safety and of the fact that he had received his passports. Communication was slow and uncertain even today, however.

Huerta Big Bluff. In the running of trains between Mexico City and Vera Cruz, President Huerta has intimated that he will assume responsibility for the passengers' safety to a point ten miles west of the coast. From there to the coast he will expect the Americans to protect the service.

Huerta was quoted as saying he would have 100,000 troops in the field within 20 days "to defend not only Mexico's national sovereignty, but all of Latin America."

Most of the American refugees quartered in the Hotel Dilligentia went on board the steamship Esperanza today in readiness to leave for Galveston.

Tales of Heroism

Many stories were told of heroism during yesterday's fighting. A number of American women carried water to the wounded while the firing actually was in progress. Others acted as nurses. The Mexican wounded were as carefully tended as the Americans.

Among the women who took part in the work were Mrs. Charles Hutchison, wife of the president of the Mexican National railways, Mrs. Thomas Ryder, wife of the manager of the Cowdray oil interests, Mrs. Harry Archer and Mrs. Mary Crow.

Admiral Fletcher was not having much success with his attempt to get municipal business transacted by the Mexican civil authorities under his direction, and unless they speedily show a disposition to co-operate with him he plans to take direct charge and put the city under martial law.

He planned another proclamation urging the inhabitants to resume their ordinary peaceful pursuits.

1200 AMERICAN REFUGEES ABOARD TAMPICO WARSHIPS

WASHINGTON, April 23.—That 1200 American refugees were on board the warships at Tampico was announced today in a message received at the navy department from Admiral Mayo.

The message mentioned no landing and it was evident that the reports of the landing at Tampico were foundationless.

More refugees were expected to arrive tomorrow, Mayo added, and accommodations would be found for them on merchant ships. The captains of the German and British cruisers at Tampico, it was stated, were aiding in handling them.

Admiral Badger sent word from Vera Cruz that he was sending the Ward liner Esperanza with 400 refugees on board to Galveston, whence the ship will return to Vera Cruz for more.

Badger said he has also chartered the steamship Mexico and would send it, together with the collier Cyclops, to Tampico to take off the refugees on the ships there. Another rescue ship will go to Tampico.

It was estimated that 2000 refugees will reach Galveston soon.

TREASURY IN FINE SHAPE FOR WAR

WASHINGTON, April 23.—Secretary of the Treasury McAdoo today reported that the treasury was in fine shape for war. He said he thought it would be unnecessary to change the revenue laws to provide more money for military purposes but suggested tentatively that if any extra tax were levied, it be placed on sweet wines fortified with brandies. It would bring in \$100,000,000 annually, he explained.

BRYAN'S BUSY DAY IN WAR CONFERENCE

WASHINGTON, April 23.—President Wilson and Secretary of State Bryan held a war conference at the white house this afternoon. Later Bryan received a number of important code despatches from consuls in Mexico. Then he summoned Chief Long of the state department bureau of Latin American affairs to confer with him.

FOREIGN WARSHIPS ASSIST REFUGEES

WASHINGTON, April 23.—A cable received by the navy department this afternoon from Admiral Badger of the American fleet at Vera Cruz said: "By the courtesy and energy of the captains of German and British cruisers, 1200 American refugees are now aboard ships in this harbor."

AMERICAN LOSS IN MEXICO TOTALS TWELVE

WASHINGTON, April 23.—Twelve Americans have been killed and fifty wounded in the occupation of Vera Cruz. This amount is given in a dispatch from Admiral Badger made public by the navy department at 2:45 this morning.

HUPMOBILE The car of the American Family

MARK THIS:

It is a matter of common knowledge that a Hupmobile sold at "second hand" commands a price above the market average. It always has commanded a higher price—ever since the first Hupmobiles were built. Why do you suppose this is?

The best measure of value for any product is what a second man is willing to pay for it, after the first man has used it.

What the second man pays for the Hupmobile represents what he and thousands of others think about the value of the car.

"USED" HUPS 25% TO 40% MORE

Every extra dollar he is willing to pay testifies that he thinks the Hupmobile is just that much better than some other car.

Now, American buyers don't go on fooling themselves, year after year. If thousands of people think the Hupmobile is worth more, you can bank upon it—it is worth more, first hand and second hand.

Its worth more at second hand because it hasn't deteriorated. And it hasn't deteriorated because of what's in it and the way it is built.

And the stuff that's in it "stands up" because it's the best money you buy—the best steel, the best aluminum, the best bearings, the best rear axle, and so on.
