

LOCAL AND PERSONAL

Southbound traffic upon the Southern Pacific, both freight and passenger has been particularly heavy the last three days, most of the trains being hauled by two engines. Friday afternoon two freights passed south thus hauled, and No. 15 of late has been hauled by two moguls. The extra tonnage on the passenger trains is caused by refrigerator cars loaded with fish for California points. E. D. Weston, commercial photographer, negatives made any time or place by appointment. Phone M 1471. Greatest of All Human Blessings The most wonderful thing in the world is love expressed in the helpless infant. And among those aids and comforts for expectant mothers is the well known "Mother's Friend." This is an external application to enable the abdominal muscles to become more pliant, to expand naturally without undue pain from the strain upon cards and ligaments. Applied as directed upon those muscles involved it soothes the fine network of nerves with which all the muscles are supplied. Thus a great share of the pain so much dreaded may be avoided and the period of expectancy passed in comfort. There is no question but what such relief has a marked influence upon the general health of the mother. It is a little book sent by mail which contains full information given by experienced mothers. It tells how to use "Mother's Friend" and how to avoid taking Laxatives. It has been prepared in our laboratory for over forty years and is known favorably to most druggists everywhere. Get a leaflet today and write for book to Bradford Regulator Co., Box Lamar Bldg., Atlanta, Ga. Be sure to ask for and see that you get "Mother's Friend."
