THREE COUNTIES TO GET TOGETHER TO BOOST RESORTS

The Medfordite who does not attend the Commercial club's tri-county banquet at Hotel Medford tonight, will miss probably the best affair of its kind ever arranged here. The list of speakers is short but comprises the best ever. George Hyland, familiarly known as "Silver-tongued George," will come down from Portland. Prof. Vining of Ashland, who has had years of experience as a professional lecturer and actor, is an orator of rare power; Judge Benson of Klamath Falls is an excellent speaker. Bill Hanley with his Bryanesque smile will be very much in evidence, for to him this is "the old home."

Gold Hill is sending a delegation of ten with H. D. Reed, George A. Patrick and C. S. Redfield, as their representatives on the joint committee.

A fine vaudeville program of six numbers will vie with the speakers in entertaining the crowd.

Manager Mohr promises a first class dinner to be served promptly at eight o'clock. Tickets 75 cents.

The club urges a general attendance and promises a splendid time.

FRUIT MEN AGAIN ROUT FROST KING

Monday night's set-to with the frost king was a repetition of the night before. A clear night, a gradual drop to 32 at 2 a. m., a partial check of the drop by a bank of clouds coming in from the south, which were driven back by a shift of the light breeze to the northwest, the drop continuing, till the critical temperature of 30 was reached at about 4 a. m. with an average firing of one pot in four covering about two hours. This statement fairly represents the valley as a whole, but in some spots longer firing was required and in others, usually considered dangerous, no firing was necessary. Average minimum, 28 degrees.

The oil supply has run low and rush orders for additional cars were wired to Richmond, Cal., this morning.

FEDERALS MAKE LOVE TO REBELS

WASHINGTON, April 28.—Admiral Mayo reported today that Tampico federals were making overtures to the constitutionalists there despite the fact that fighting was in progress.

Major Clark at the head of a detachment of marines from the British Cruiser Hermione has gone to Orange Hill, 40 miles from Tampico, to get a number of American refugees. Secretary of the Navy Daniels, defended Admiral Mayo's failure to land marines and the acceptance of the offer of the coommander of the Hermione to send British marines to Orange Hill for the refugees.

Other dispatches to Secretary Bryan said the railroad from Vera Cruz to Mexico City was being destroyed by Mexican federals. It was said that the ties were being burned and the rails loaded on cars and hauled away.

CHINESE PIRATES IN BOLD OUTRAGE

HONG KONG, April 28.—Two hundred Chinese were killed, according to messages received here today in an attack by pirates on the British steamship station near the neighboring island of Macao.

Of those who perished some were hacked to pieces by the pirates; others were forced to jump into the sea and were drowned. Chief Officer Evans of the station, an Englishman, was also missing and probably dead. The other foreign officers and 150 Chinese escaped. The station was burned.

The outrage was the boldest of which the West River pirates have been guilty in years and a warship will be dispatched to deal with them.

GRANTS PASS BONDS DECLARED VALID BY SUPREME COURT

SALEM, Ore., April 28.—In an opinion by Justice McBride, in regard to a suit to enjoin the city of Grants Pass from constructing a railroad for ten miles beyond the city limits, the supreme court today held that the acts of 1913, authorizing cities and towns to construct railroads beyond the city limits, is constitutional. Also, that the amendments to the city charter of Grants Pass, authorizing the issuance of bonds for that purpose, are valid and properly passed. Also, that a contract with J. F. Reddy whereby he is granted an option to lease or purchase the road under certain conditions is not a violation of section 9, article XI of the state constitution, which forbids any municipal corporation to become a stockholder or loan its credit to or aid in any private corporation, joint stock company or association. The city was upheld upon every point raised by the complaint. Justice Ramsey dissented.

WEST VIRGINIA GUNS SHIPPED COLORADO

PITTSBURG, Pa., April 28.—That two large shipments of arms and ammunition had been sent within the past four days from Charleston, W. Va., to the Colorado coal fields was reported here today.

It was said that on Saturday the Cabin Creek Consolidated Coal company consigned to "H. Felts, Trinidad," eighteen thousand cartridges and that on Monday a machine gun and sixteen thousand rounds of ammunition were shipped to "H. W. Krebs."

The machine guns was to belong to the Baldwin-Felts detective agency and it was understood to be the same weapon used on the "Death train" at Hollygrove, W. Va.

ARREST GANG OF OREGON TIMBER LAND SWINDLERS

SAN FRANCISCO, Cal., April 28.—With the arrest of John W. Logan here today, the federal authorities declare they have the leader of a well-organized and long-established gang of timberland swindlers who have cleaned up not less than $2,000,000 in the last eight years. Warrants also have been issued for Attorney W. A. S. Nicholson and Norman D. Cook and the police declare they will be arrested this afternoon. Sidney Snerry, a wealthy rancher, was taken into custody at Covina, Cal., yesterday. In all fourteen indictments were returned at a secret session of a Portland grand jury recently.

The scheme of the alleged swindling trust was said to be a novel one. In Oregon the United States some years ago confiscated thousands of acres of timber lands previously "jumped" by wealthy corporations. Prospective purchasers were told, the authorities allege, that the land was tied up in litigation between the Government and the "Oregon railway." For the modest sum of $2.50 the men are said to have agreed to sell their clients one acre of immensely valuable timber land. They charged, however, a $250 filing fee. They were told, it was alleged, that as soon as they had the deed to the land the railroad company would be more than anxious to buy it back for double the price they had paid.

ASKS UNCLE SAM TO SEIZE, OPERATE JOHN D.'S MINES

WASHINGTON, April 28.—Government ownership and operation of John D. Rockefeller's Colorado coal mines was proposed in a bill introduced in the house today by Congressman Bryan of Washington.

The measure directs the president, as commander-in-chief of the army, to use federal troops in the coal fields "to restore order and respect for law," and authorizes the attorney general to begin condemnation proceedings to obtain the stock in the mines held by Rockefeller and his son, John D. Jr., together with such other stock as may be necessary to give the government full control.

It provides for the taking over of the bonds by similar means and authorizes the president to operate the mines from that time forward at cost plus 3 per cent on outstanding stock and on the basis of a minimum wage, an eight-hour day, workmen's compensation and sanitary working conditions.

ARMY OFFICERS AGAIN REFUSE TO GO TO ULSTER

LONDON, April 28.—That English army officers had balked again when called on to serve against the Orangemen in Ulster was asserted today by the London Evening News.

A report was current Sunday that when the government learned of a clandestine landing by anti-homerulers of 60,000 cnotraband rifles on the Irish north coast, three regiments were ordered to Ulster to prevent the weapons' distribution. The government issued an official denial of this report Monday.

According to the News the order really was issued but the officers refused to go and the purpose of the denial was to conceal the administration's defeat.

RIO DE JANIERO, April 27.—Members of the second Roosevelt expedition arrived here today. Col. Roosevelt is expected in the vicinity of Manaos tomorrow.
