NEWBURY'S NARROW ESCAPE FROM DEATH

Attorney Gus Newbury and Mrs. Newbury, and Mrs. August Paulsen, wife of the Spokane millionaire property owner and mining man, had a narrow escape from death or serious injury, when the front spindle of the automobile driven by Attorney Newbury broke, at the approach of a bridge, and a plunge down a ten foot embankment narrowly averted.

The front wheel of the car plunged down the embankment, and by good luck and much strength the car careened on the bridge, and listed on its side. The drop of the heavy car down the cliff would have resulted in serious injury to members of the party is certain. The party was on the way to Ray Gold.

STEAMER WRECKED

Kanto got under way at 8 a. m. and it was said at the very earliest it could not reach the Siberia in less than six hours.

A Japanese and a British cruiser—the latter presumably the Minotaur—also steamed at top speed for Sumasuma island.

The failure of the distressed vessel's wireless naturally gave rise to the most direful forebodings, and for some time it was believed the Siberia had gone to the bottom. Later, however, it was announced from the Pacific Mail offices that the craft was aground only, though it was admitted its position was extremely dangerous.

Wireless Collapses

The collapse of the wireless was attributed by some to damage to the apparatus, which did not necessarily mean that the ship itself was hopelessly lost. Others said it might be due to aerial conditions, which frequently are bad off Formosa for such signaling.

The Siberia was commanded by Captain Adriaan Zeeder, commodore of the Pacific Mails fleet, and considered one of the ablest navigators on the eastern ocean.

The ship carried eighty cabin passengers, a crowded steerage and a crew of 282, all, excepting the officers, Chinese.

Among the passengers was Mrs. Francis Burton Harrison, wife of the governor general of the Philippines, who had been visiting in Japan and joined the vessel at Nagasaki.

A Luxurious Vessel

The big liner left San Francisco, April 7. It touched at Honolulu, Yokohama, Kobe and Nagasaki and left the latter port for Hong Kong and Manila, April 29.

The Siberia was of a tonnage more than 18,000 tons and cost \$2,000,000. It was luxuriously fitted out and for service and accommodations compared favorably with all but the most palatial of the trans-Atlantic liners.

WASHINGTON, May 1.—The interstate commerce commission held today that line and plaster rates between Seattle, Tacoma and Portland are reasonable, but it was ruled that eastbound rates twice as high as the rates for corresponding distances westbound were unjustified.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily. Here's a chance, Miss Freckle-face to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

See our big assortment of Middies, \$1.25, \$1.50, \$1.75, \$1.98.

Cottolene advertisement. The Good without the Grease. "It doesn't seem a bit greasy," is the universal verdict about the pleasant-to-use Cottolene. Because of its purity and high shortening value Cottolene makes foods tender and delicious. It has been a favorite cooking fat for many years. It "creams up" beautifully when used in mixing pastry. It is a firm fat when cool, but nevertheless is always of just the right consistency to blend evenly with the flour or sugar. You who make cakes, pies, cookies, biscuits and the like know what an advantage this is. Cottolene is especially excellent for all frying—whether pan frying or deep frying. Foods fried in Cottolene do not absorb grease, neither does Cottolene absorb odors. Using it over and over for frying, you not only find it economical, but you produce food that is wholly digestible and most appetizing. A prominent physician says of Cottolene: "Cottolene, being essentially a vegetable product, forms the most healthful and nutritious cooking medium known to the food experts and medical profession." (From an article in the American Housekeeper, entitled "The Most Healthful of All Cooking Fats," by Dr. James Page Emery.) Every thoughtful mother and careful housewife will be interested in the valuable FREE Cook Book, HOME HELPS. Send for your copy today, also order a pail of Cottolene from your grocer. THE N.K. FAIRBANK COMPANY CHICAGO. HOMINY CRESCENTS. Fine hominy or corn meal may be used in the same way to serve with meats or for breakfast with syrup. Cook 2-3 cup hominy or meal in 1 pint boiling water over the fire until thickened, then place over boiling water to finish cooking for about an hour, adding salt and more water if too stiff, also the yolk of an egg, or a little butter. When done, pour into flat pan and when cool cut into crescents, diamonds or strips, roll in egg and crumbs and fry in Cottolene. MRS. HELEN ARMSTRONG.
