BENSON TRIED WITH M'NARY

PORTLAND, Ore., May 18.—Straggling returns today from Friday's state primary elections in the republican, democratic and progressive parties did not materially affect the leads held yesterday by the candidates in the more important contests.

In the Second Congressional district the democrats and progressives had no avowed candidates in congress but it is though likely that names were written in. No account of these has been kept by the unofficial compilers, and the candidates, if any, will probably not be known until the officials count is completed.

The count of the ballots early today had not made certain who would be the fourth republican nominee for supreme court justice. Of the four nominated the returns showed that Thos. A. McBride, Henry J. Bean and Lawrence T. Harris had been successful. For the remaining place Charles J. McNary and Henry L. Benson ran close with the former holding the advantage.
