WEED GROWERS TO BE CALLED TO COURT
Property owners who permit weeds to grow on vacant lots with abundance of whiskers on a moss-back will be brought to accounting before Police Judge Gay, according to action taken by the city council at a regular meeting Tuesday night. The ordinance providing for the cutting of weeds and a fine for allowing them to grow will be rigidly enforced. Two reasons contribute to this stand, the danger from fire and the unsightliness of foreign growths. It was decided to prosecute all who refuse to act after the customary ten days' warning by Chief Hutton.

TODAY HOTTEST DAY OF YEAR IN MEDFORD
The hottest day of the year broke upon Medford today, with the mercury hovering around 90. In the office of the Fruitgrowers' association the thermometer registered 82 in the shade at 2 o'clock. The twilight coloring of the sky was marvelous and attracted much attention.

MELLEN TELLS
(Continued from page 1.)
"I never heard of a large number of newspapers on our payroll."
"Did you know the Boston Republic published advertisements and then sent the bill to the New Haven?"
"Yes."
"Did the fact that Mayor Fitzgerald was the owner of the publication have anything to do with this?"
"It certainly was not an obstacle."
Folk read the minutes of a meeting of the directors of the New Haven, held in October, 1909, at which a report of the contract with John L. Billard regarding the transaction in 109,948 shares of Boston & Maine was ordered approved. Mr. Billard, in previous testimony, was said to have made \$2,750,000 out of the transaction.

Enormous Profit Made
Mr. Mellen said a part of the minutes which made it appear that the New Haven had made a profit of \$1,640,220 was incorrect, but that a clause to the effect that Billard was only to get a commission was correct.

The total investment of the Boston & Maine in the Worcester was \$7,975,000, Mr. Folk showed.

"When Mr. Morgan told you he had bought the stock of the Worcester road at 165 from the Mutual Life Insurance company, what did you say?"
"I think I said, 'Jerusalem' or something like that."
"Why didn't you remonstrate with him?"
"Was Mr. Morgan's the 'masier mind' in New Haven matters?"
"His was the 'master mind' pretty nearly everywhere that Mr. Morgan was."

Mr. Mellen, guided by the questioning of Chief Counsel Folk, is endeavoring to develop in related form the facts concerning the acquisition by the New Haven or the New England Navigation company of their various subsidiaries.

VILLA WINS BATTLE
(Continued from Page 1)
they faced the hail of bullets stubbornly and sent back an effective fire in return, but the constitutionalists under Villa and his brigade commanders, Maclovio, Herrera, Trinidad Rodriguez, Raoul Madero and Percha were not to be denied. The constitutionalist advance never faltered and as their lines dashed forward from three sides under Villa's personal encouragement and that of the brigade commanders, all of whom distinguished themselves for bravery, the federalists broke and ran.

"It is known that the generals Miguel Alvarez and Ignacio Munoz fell in the combat. General Ozorno and a good number of federal officials were executed."

Regarding the fight at Zertuche the report says in part:
"There was captured also a general and 32 officials who composed his staff. All were executed immediately."

The federal general Miguel Alvarez and Ignacio Munoz were killed in the battle of Paredon and two other generals and many former federal officials were executed by the constitutionalists after the battle according to a copy of an official telegram from General Francisco Villa to General Carranza, received here today.

WATER USERS OUT OF CITY MUST METER
Conservation of the city water supply, by compelling all water users outside of the city limits to install meters, and a rigid enforcement of the water laws during the summer months was the most important action taken by the city council Tuesday night.

The Meters were ordered installed to equalize the water assessments of all users. Residents outside the city limits have been paying the same rates as users within, yet paying nothing towards the upkeep of the city. The meters will make it possible for them to pay for the water they use, and raise their payments. A protest is expected to arise from this action. Some in their efforts to dodge the water assessments have purchased water from their neighbors on a half and half basis.

The hot weather coming on lawn sprinkling is in vogue, and the regulations provided for this use will be rigidly enforced by Superintendent Tranna.

NARROW ESCAPE OF COMMERCIAL EXHIBIT
The Commercial club exhibit building came close to burning up Tuesday, when telephone and electric light wires in the same pipe became grounded. The police and fire alarm box, and the light and telephone in the club rooms were put out of commission, and about 50 feet of wire burned almost to a crisp. Had the wires touched a rafter or piece of wood, there would have been a blaze in the attic.

GRAND JURY PROBES OFFICIALS OF COUNTY
No indictments were returned by the grand jury today, the general probe of county officers and the county poor farm being under consideration, to be followed by the usual recommendations in the final report. The sessions of the grand jury will be completed this afternoon or tomorrow, it is expected. The petit jury will be called next Monday, but there are very few criminal cases to be called, the present docket being the lightest in years.

Don Wood and Merle Reynolds, accused of forgery, and indicted, will plead guilty. They comprise the original cases. As both are young men and the grand jury has recommended clemency, it is likely they will be given another chance.
