The General Federation of Women's clubs has been in existence for a quarter of a century and to the Sorosis of New York is due the credit of its founding. At that time, Jessie C. Croly, better known as Jessie June, founder of Sorosis, wished to celebrate the twenty-first anniversary of the establishment of that club. There were other women's clubs in the country—very few as compared with the hundreds and thousands of today—and to each of these she sent an invitation, inviting one of their members to join in celebrating Sorosis' twenty-first birthday. To the surprise of everyone, hundreds accepted and on that occasion the following subjects were discussed:

1. The emancipation of the woman's club idea and its point of departure from the society. 2. The data upon which to gauge the extent to which in twenty-one years club life had grown among women. In what it consists and how it differs from the club life of men. 3. The methods and their operation. 4. Results obtained and outlook for the future. 5. The influence exerted upon communities in which they exist.
