

QUIMET WINNER GOLF CHAMPIONSHIP OF SUNNY FRANCE

VERSAILLES, May 28.—Francis Quimet, American open golf champion, became amateur champion of France today, by defeating Henry J. Topping of the Greenwich Country club, Connecticut, by four up and three to play, in the final round of 36 holes.

Warm winds and sunny weather greeted the players. All players of other nationalities, as well as 12 other American entrants, were eliminated in the earlier rounds.

Both Quimet and Topping began the second round badly. Quimet pushed his drive out of bounds, while Topping putted to the foot of a tree and could only pitch out for position. Both took four strokes to reach the green and then Quimet holed a four-yard putt and won the hole. Quimet again pushed his drive out of bounds at the second, but got a half. Quimet holed a six-yard putt for two at the third. The fourth was holed and Quimet was then 6 up and apparently a certain winner.

Although the expected happened in the victory of Quimet, it was not until the end of the morning round that the American champion obtained a satisfactory advantage over Topping. At the turn in the afternoon round the game appeared almost at an end, but Topping revived and played some remarkable approach shots. They came too late, however, to be of any use except to postpone his defeat for two holes.

WHEELING, W. Va., May 28.—A movement was started here today to have President Wilson intervene for Miss Fannie Sellins, confined in Fairmont jail for violating the injunction of Judge A. G. Miss Sellins was an organizer of the National Garment-Workers' union and is said to have worked among the families of the striking miners.

HINDUS OFFER MILLION BAIL FOR FELLOWS

VANCOUVER, B. C., May 28.—Vancouver Hindus told the immigration officials today that they were willing to put in cash and property half a million dollars bail for the 376 of their countrymen now aboard the Komagata Maru if the government would allow the release of the party until the courts finally decided whether or not the East Indians have a right to enter Canada. Lawyers representing the crown and the Hindus discussed the matter and agreed to cut proceedings short by having dismissed by consent a habeas corpus application filed today in the supreme court, so that an appeal might be brought tomorrow before the court of appeals, the highest court in British Columbia.

This proposal, however, did not please the Hindu leaders in Vancouver. They declared against a short cut, and it is possible now that they will insist on fighting over every inch of the legal pathway that may lead either into Vancouver or back to Yokohama. They have so far declined to consent to the court arrangement, and came back to the officials today with the counter proposal that the entire party had been released on bail, which the Vancouver men were ready to furnish. Some of the Vancouver Hindus are admittedly wealthy.

STOCKS FIGURES VARY LITTLE

NEW YORK, May 28.—Unimportant variations were the rule in the early stock market dealings today. The leaders were mildly reactionary and General Motors yielded two points of its recent advance. Dealings were in exceedingly light volume, and the list as a whole bore the familiar ante-holiday aspect. There seemed to be some disappointment at the lack of more definite details regarding the Mexican negotiations, this feeling finding reflection in London, where Americans were mostly lower.

NO TOLERATION, NO REGULATION, NO ORGANIZATION

CHICAGO, May 28.—Discussion of the report of a special committee on white slave traffic was the order of the day at the general assembly of the Presbyterian church in the United States. The report emphasized the slogan: "No toleration, no regulation, no recognition," and urged that the evil be eradicated by the strict enforcement of municipal, state and federal laws.

Doubt was expressed in the report of the advisability of teaching sex hygiene in the public schools, and parents were urged to inform their children personally of the truths of life.

An overture seeking to allow women to serve as ruling elders in the Presbyterian church was frowned on by the assembly, which sustained the committee on bills and overtures in its recommendations that no action be taken on the petition.

A recommendation that when ministers of the Presbyterian church are sued for divorce the local Presbytery should investigate the case and spread its report on the records of the Presbytery, was approved, and sent to the various Presbyteries for a referendum vote.

MERCHANT SHIPS NATION'S NEED, SAYS WILSON

WASHINGTON, May 28.—President Wilson told delegates to the National Foreign Trade convention who called on him at the white house today, that one of the chief needs of the United States was a merchant marine, and that he was greatly interested in the development of the foreign trade of the United States.

"There is nothing in which I am more interested than the fullest development of the trade of this country and its righteous conquest of foreign markets," said he. "It is one of the things we hold nearest to our heart that the government and you should co-operate in the most intimate manner in accomplishing our common object. I am sure that I speak the conviction of all of you when I say that one of our chief needs is to have a merchant marine."
