PACIFIC HIGHWAY WORK TO DATE NET COST \$50,000

County Clerk Gardiner reported to the county court at its monthly session Wednesday that a total of \$59,000 of the \$500,000 bond money had been expended up to date, including the payments on the Siskiyou grading contract and the paving operations on the Medford-Central Point road, the engineering expenses and machinery and equipment purchased. Of this amount, the engineering expenses and machinery cost, totaling about \$10,000, will be refunded to the county by the state, leaving the net cost of operations to date under \$50,000.

Engineer Kittredge of the highway work reported that the work so far completed on the Siskiyou division had run from 600 to 1000 yards per section under estimated cost, and that the completed grade would probably cost less than first estimated, as the engineer in charge had found it possible to save considerably by alterations and departures from the surveyed line.

Engineer Kittredge was requested to prepare a detailed statement for publication, showing the cost of grading to date and the cost of paving per yard, including the cost of quarrying and mixing. His statement will be ready within a few days.

All members of the court agreed to go over the Siskiyou road work Saturday with Engineer Root of Ashland and Engineer William Gerig of the Pacific & Eastern.

COUNTY COURT TO STOP EXTORTION AT TOLL GATE

At the monthly meeting of the county court Wednesday, County Attorney Kelly was requested to prepare an order fixing uniform toll rates on the Dollarhide toll road over the Siskiyou.

Complaints from numerous sources have reached the court regarding alleged hold-ups by the Dollarhides, who have not done any work to keep the road in repair this year, and who charge all the traffic will bear. Their excessive tolls have forced wagon traffic over the Green Springs road, around to Klamath river and Fall creek, to avoid the tolls.

To show the variations in charge, the following instances were reported to the court: H. L. Walther, auto and five passengers, both way, \$1.50; J. P. Churchill, auto and five passengers, same day, \$2.50 each way; Engineers Bedford and Graves, roadster, \$2.50 each way; same day, Mr. Bradley, in roadster, \$2.00; same day, two Ford touring cars, one \$2 and one \$2.50.

THREE-YEAR-OLD BADLY BURNED

The three-year-old daughter of E. I. Green of the 401 orchard, lies in Sacred Heart hospital, suffering from burns, caused when her clothing caught fire this morning, while she was playing with matches in a tent. Her left side is burned from the knee to the shoulder and the right arm seared. The father's hands were badly blistered in efforts to extinguish the flames. It will be several days before it is known whether the little miss will survive the shock.

The little girl was playing in a box of clothes in a tent adjoining the home, and in some way procured matches. These she lighted, one dropping among the inflammable clothes. Instantly her light dress was afire, and her screams brought her father, who smothered the flames. The fact that the little girl in her terror remained seated impeded the progress of the flames.

Immediately after the accident, which occurred about 11 o'clock Dr. Porter was called, and the tot taken to Sacred Heart hospital. It was a narrow escape from death by being burned alive.
