A fire alarm was turned in at 2:30 this afternoon from 1297 West Jackson because of a grass fire. Some boys had been smoking cigarettes in the locality. It was the third grass fire of the season.

STOCK MARKET CLOSES STEADY TODAY

NEW YORK, June 8.—The stock market closed steady. Outside news had little influence on values today, although there were important developments which the street had long been awaiting. The supreme court decision in the Shreveport rate case, favoring the railroads, and the bullish government crop figures, failed to stir the market. Realizing and short selling forced back prices all around toward the end, leading reacting a point.

BANNER YIELD OF WHEAT IN PROSPECT SAYS UNCLE SAM

WASHINGTON, June 8.—Nine hundred million bushels, almost half of the average world's wheat production, and a new record for the United States is the prospective total yield of the farms of the country this year, the department of agriculture announced today in its June crop report.

The enormous crop will be 137,000,000 bushels more than ever, was grown before in the United States in any one year.

There also will be large yields of oats and barley, probably second in size in the history of the nation.

Spring wheat—area 17,990,000 acres; condition 95.5 per cent, indicated yield 14.6 bushels per acre. Estimated production 262,000,000 bushels.

Winter wheat—condition 92.7; yield 18.1, production 628,000,000.

All wheat—area 33,277,000 acres, condition 93.7, yield 16.9, production 560,000,000 bushels.

Oats—Area 33,383,000 acres, condition 89.5, yield 31.7, production 1,216,000,000 bushels.

Barley—Area 7,528,000 acres, condition 95.5, yield 27.3, production 206,000,000 bushels.

Rye, condition 93.6, yield 17.2. Hay, condition 88.7. Pastures, condition 89.8.

BOWLBY PLANS FOR RAPID WORK

State Highway Engineer H. I. Bowlby arrived in Medford to inspect Pacific highway work Monday. He announced that the state will purchase another concrete mixer for use on the highway between Medford and Ashland. With the present equipment and the new, it is expected to complete the pavement in record time. Over 300 feet a day is now being laid.

"The new work will be on a different basis," said Major Bowlby. "We will establish a central mixing yard and work two miles each way from it. Instead of scattering sand and gravel along the road, the material will be all apportioned for mixture in the central yard. A small track will be laid and the material delivered in small cars, like those in use at mines. These cars will be unloaded by cranes into the mixer and will enable faster and cheaper work."

NEVER SAME NAME TWICE

hopes of a blissful future filled the eyes. "You see," said a letter of August 6, "for the present 'S' (Schumann-Heink) must believe we are entirely estranged or never had any more intimate association."

In the course of a long epistle mailed two days later, Rapp referred to one of their numerous business plans, saying:

Planned a Road House "Talked to wealthy friend about the road house here (Chicago) on the north side, and he became enthusiastic about it. Suggested private dining room to seat about twelve and enclosed entrance so parties could not be discovered, and good meals, expensive and good things to drink. He is married, but seems to want a place where he can have merry times without detection and have a lot of wealthy friends and big spenders who also would patronize such a place."

Complainant's case was rested at the noon adjournment.

COUNCIL SHORT-SIGHTED

money to flow into the city through all the various channels of trade and would thus in the course of each year mean far more than the few extra dollars extorted through higher water rates or higher taxation from the few whose invested all would oblige them to stick here under such an unjust and short-sighted policy as this, which has been imposed. To my positive knowledge, no less than seven new homes are in contemplation here on the Heights, mine, for one, nearly ready for the contractor, and all will be discouraged by the enforcement of this new ordinance.

Those of us on Capitol Hill and in Siskiyou Heights really get no water unless there be a surplus running to waste from the reservoir. So it would seem to me that instead of charging an excessive rate out here for this waste water, that the logical thing to do would be to make a very liberal rate, thus offering an inducement to suburban settlement where lawns, flowers and gardens are the things

most desired. Most of the new-comers to our valley the last two years have been seeking this very condition, and quite a number of them have located up this way. What better use could be made of this surplus water than to offer it cheap as an inducement to such settlement? This excessive water rate will never force any one to vote unplatted, unplatted acreage property into the city in order to get cheaper water, and have that more than offset by higher taxes. Such an idea is preposterous and too simple to believe it emanated from any of our wise city dads.

Proper inducements would cause this section to become so thickly populated in less than three years that we would all want to come into the city in order to get paved streets, sewers, street lights, police and fire protection, gas and the multitude of city advantages which could not be extended to us now, even if we did seek and obtain admission.

This city is destined to be a great center of population in the not far distant future. It will be a manufacturing and distributing center also. But not until we succeed in getting the Southern Pacific off our backs can we hope for or expect such conditions. This will take time, patience and wise management, but it will surely come about. In the meantime the city must depend largely upon its surrounding population of ranchers, garden and poultry raisers and retired business men who come here to enjoy the advantages which which nature has so bounteously supplied us.

The Commercial club has expended a great deal of money and effort and done good work in advertising these advantages to the world at large. But what will it profit to get the people to come here and then drive them away or prohibit them from locating among us by such arbitrary methods? Other erroneous ideas prevail within the city as regards the suburbanite, as I will endeavor to show. First, that we get more water than we are entitled to for what we pay. Second, that we have generally been using water promiscuously without meters, and, third, that we do not contribute our just share toward the city's development.

To refute the first and second, take my meter readings for the past eighteen months. They show that I consumed in that whole time 28,282 gallons at \$1.50 per month, or a total cost of \$42.42. The minimum rate all through, which is at 30 cents per 1000 gallons, would make the value of what I consumed \$8.49, and showing that I paid in that time \$18.61 for water which I did not consume. For thirteen months of that period I used but \$2.52 worth at the 30-cent rate, yet it cost me \$19.50. Most of us have had meters for two years or longer and few of us consume as much water by one-half as does a modern city residence.

A \$2.50 per month minimum for 5000 gallons would be at the rate of

TOO LATE TO CLASSIFY FOR SALE—One Durham giving \$12 gallons a day, one black Jersey giving five and one-half gallons, one Jersey giving two and one-half gallons, fresh soon. J. C. Hoover, phone 254-X.

FOR SALE—Mitchell automobile in good running order, cheap. G. L. Coleman, Talent, Oregon. 72

CRYING FOR HELP

Lots of it in Medford But Daily Growing Less

The kidneys often cry for help. Not another organ in the whole body more delicately constructed.

Not one more important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood.

Backache is one of the frequent indications of kidney trouble. It is often the kidneys' cry for help. Heed it.

Read what Doan's Kidney Pills have done for overworked kidneys. Proof of merit in the following statement:

Daniel Flaten, C. St. Jacksonville, Oregon, says: "It was six or seven years ago that I used Doan's Kidney Pills, but I can't forget how much good they did me. I suffered from weakness of the kidneys and all the disorders that go with kidney complaint. I ached all over. Doan's Kidney Pills soon fixed me up in good shape."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Flaten had. Foster-Nibbourn Co., Props., Buffalo, N. Y.

CHICHESTER'S PILLS

SPECIAL SALE IMPORTED SHAVES While they last, this week, from 7:30 a. m. to 6:30 p. m., 15 cents. Come early and avoid the rush. SUMMERVILLE'S BARBER SHOP

30 cents per 1000 gallons, yet the city's ships show that they can supply water at 8 cents per 1000 gallons and make a profit. In the face of these figures, if this new rate is not equivalent to confiscation or robbery then I am a liar who figures, or else figures do lie.

As to the third idea, few seem to be aware of the fact that the property owners in this district made it possible for Medford to have the present trolley system by contributing many thousands of dollars in property and cash as an inducement for the Public interests to build the same to the Heights. One company I am reliably informed, contributed \$15,000 to this end. This prohibitive ordinance makes it impossible for our people to make good, stamps them as failures in our midst, and sends them forth to herald to the outside world that confiscation of property rights, opportunities denied and retrogression is the policy of our civic government. Respectfully,

DR. J. D. RICKERT.
