HINDU SHIP TO SAIL TOMORROW

VANCOUVER, B. C., June 10.—Captain Yamamoto of the Koraogata Maru, received a dispatch today from his owners in Kobe, definitely instructing him to sail from Vancouver tomorrow for the Orient if the remainder of the charter money is not paid by that time. There are 300 Hindus still aboard. Captain Johnson, agent for the ship, officially notified Gurdit Singh that if he did not pay \$15,000 before June 11 his charter would be ended and the vessel would immediately leave.

The Hindus after a day of feasting went on hunger strike again today. Monday a consignment of provisions was sent out to them, but they paid only \$100 in cash, owing \$1000. They declare they cannot get the money to complete payment until they are allowed ashore, and this the immigration officials will not permit. In the meantime Gurdit Singh will allow no more Hindus to go ashore and appear before the immigration board, and the deadlock of last week has been resumed.

If the ship clears tomorrow for her return trip trouble is looked for. The shipowners have no responsibility for provisioning and they purpose to sail whether the Hindus are aboard or not.

REBELS SOLVE LAND PROBLEM

JUAREZ, Mexico, June 10.—The agrarian problem in northern Mexico which has been discussed by the Niagara Falls mediation congress, already is working itself out satisfactorily under constitutionalist direction, according to information given out today by officials. They assert that the plan of cutting up the enormous estates of the ranch owners does not mean confiscation, and that in many cases the large landowners will be glad to have their estates divided and sold under government supervision.

The constitutionalists point out that heretofore the large landowners, being in control of the state governments, have paid only such taxes as they saw fit. They say when the land is assessed at its proper value many of the large estates would not pay enough under use as cattle range to pay the taxes. If this land were cut into small farms, however, it could be made to pay splendid returns. While the payment of these farms would be slow, it would be guaranteed to that government.

A Horse

"A horse, a horse, my kingdom for a horse," was not said in deeper despair than the cry that goes up from the home when in the great time of need, when sickness or accident befalls the household in the dead of night, when no helping hand and heart of sympathy is near to comfort and help—then is when the telephone comes to the rescue, summoning the doctor, the nurse and medicine, brings the friends and neighbors from any where. The cost then is not measured in money—the summoned relief may mean life itself, which is beyond price—yet the cost is the least consideration, only 5 cents a day, (no other charge) installed in your home, ever ready to summon help when in need, go for you every where, any time, day or night, all the time. We are doing this for 2000 households in Medford and can do the same for you. The blue book goes to press June 10. Let us put your name in it.

Analysis by states shows the eastern states voting 73 in favor and 84 against the commission; the southern states 51 in favor and 2 against; the central western states 179 for and 12 against, and the western and Pacific coast states 61 for and 12 against.
