

BUTTE RIOTERS RESUME WORK; QUIET RESTORED

BUTTE, Mont., June 15.—With Governor Stewart in the city conducting an investigation of the lawlessness of the last two days and all local authorities making every effort to bring calm among the ranks of Butte's 9000 mines, the city is quiet this morning.

Men are at work in all the mines today. In the Speculator, the North Butte company's property, one of the largest mines in the city, 90 per cent of the day shift is reported at work. In the Black Rock, the Butte and Superior mine, nearly all the shift went down this morning.

Miners Return to Work

It was at these two properties that the trouble was precipitated last Friday. No officials of the Western Federation of Miners local union were present to protest against the men who failed to show their union cards.

Officials of the Western Federation local have not appeared since they fled when the parade was broken up on Miners' Union day. It is expected that no protest will be made for the present, thus avoiding further trouble and keeping the mines in operation until some understanding can be reached. In the meantime the seceders from the union who have been influenced by Industrial Workers of the World agitators, are planning to set out a large vote on Wednesday, when the miners will cast their ballots on this question: "Shall we refuse to show Western Federation cards at all the mines?"

Militia Threatened

A committee of the seceders today again called on the chief of police, urging him to get track of the miner to whom was entrusted \$1200, the contents of the Miners' union safe which was blown open by the seceders on Saturday night.

The order closing all saloons is still in force.

Governor Stewart today reiterated his denial that he had ordered the state militia to hold itself in readiness for a call to Butte. The governor stated that he has come here simply to learn the situation at first hand and to give advice wherever necessary to citizens and authorities.

MEDIATION MAKES RAPID PROGRESS DECLARES BRYAN

WASHINGTON, June 15.—Secretary Bryan conferred at length today with President Wilson over the progress of the Mexican mediation and afterward dispatched a telegram to the American delegates at the Niagara conference, which, it was understood, concerned the character and personnel of the proposed provisional government and the attitude of the Mexican delegates, who object to a provisional executive with constitutional leanings.

Mr. Bryan would not discuss the nature of his conference with the president and would only say that mediation was "progressing satisfactorily."

The opinion prevailed here that the United States would not recede in its desire to have named as the head of the temporary government which would succeed Huerta, a man who would be acceptable to the revolutionary faction.

The presence in Washington of Pedro Del Villar continued to arouse speculation, and a report was persistent that adherents of Felix Diaz, represented by Delegate Villar and the Huertistas, had patched up their differences and were acting together to exert the strongest possible influence before the mediators. Delegate Villar is said to have conferred with representatives of Huerta.

Constitutionalist agents in Washington had received no reply to Niagara Falls.

CHICAGO, June 15.—Nominations, headed by Mrs. Percy V. Pennybacker of Austin, Texas, for re-election as president, and which in the absence of nominations from the floor are equivalent to election, were made by delegates to the convention of the General Federation of Women's clubs. Names may be written in on the ballots tomorrow but they will not affect the result it is stated.

The inroads of the suffragettes was again reflected at today's session when Miss Mary Garrett-Hay of New York was nominated as a director. Miss Hay is president of a big suffrage organization in New York and known as a vigorous worker for equality at the polls.

Brown, it is understood, is to be retained as a scout. Speedy Marsans will be used on first by Bridwell to give the "Feds" the "pop" that seems largely responsible for their present position. Marsans played first for the Reds part of last season.

TO SAVE HUERTA FROM HUMILIATION

WASHINGTON, June 15.—Facing the crucial stage of mediation negotiations at Niagara Falls, President Wilson and Secretary Bryan, on resuming communication today with the American delegates, were to take up the question of selecting a provisional president acceptable to all factions in Mexico. While the United States holds firmly to its stand that a constitutionalist must be named to succeed Huerta, yet the Mexican delegates have argued for a "neutral" candidate. Cabinet officials here, nevertheless reiterated that negotiations were going ahead safely.

Embassies of Huerta who were in Washington were expected to attempt to see President Wilson. They were said to be exerting efforts to save Huerta from humiliation.

HEAT RECORDS OF YEARS BROKEN

Heat records for the year were equaled Sunday and broken today. Sunday the mercury registered 94 degrees, and this noon thermometers on Main street registered 95 degrees. Prospects point to a degree or two higher this afternoon. Two weeks ago Sunday the temperature was 94 degrees, but a thunderstorm broke the heat. A continuation of the present hot spell is forecasted.

The hot weather is welcomed by the farmers, and hay cutting started bright and early this morning. Electric fans were set in motion and refreshment institutions did a good business.

A week of the present weather will send camping parties into the hills. Scores of Medford people motored Sunday afternoon to the country.

TAFT ATTACKS TRADE UNIONS FOR RESTRICTING COURTS

CAMBRIDGE, Mass., June 15.—Former President Taft, before members of the Phi Beta Kappa fraternity of Harvard university, attacked today the trade unions for their championing of the Clayton bill, pending before congress, exempting them from operation of the Sherman anti-trust law, and for their support of the strikers in Colorado.

The subject of the former president's address was "The supreme court of the United States and popular self-government."

"We find," he said, "many labor organizations insisting that the arm of the courts be weakened so that lawless violence on their part may be an effective instrumentality to gain their industrial ends. Indeed, we find actual rebellion against state authority maintained by certain trades unions and supported by contributions openly solicited from their sympathizers the country over."

GRADUATING CLASS COMES TO VISIT PRESIDENT

WASHINGTON, June 15.—Because President Wilson could not go to the Park Ridge, N. J., high school today to address the graduating class, the graduates came to the White House and the president addressed them there.

PRESIDENT SIGNS PANAMA TOLLS REPEAL MEASURE

WASHINGTON, June 15.—President Wilson today signed the Panama tolls exemption repeal bill as amended in the senate and agreed to by the house.

There was no ceremony at the signing. Assistant Secretary Forster was the only person with the president. Mr. Wilson signed the bill with a quill pen used by President Harrison in signing the international copyright law in 1891, and by President Taft in signing the Pan-American copyright treaty, the Lincoln memorial bill and the act incorporating the national institute of arts and letters.

The pen is the property of Robert Underwood Johnson of New York.
