MANY SEEKING WORK ON ROADS AT CRATER LAKE

(Klamath Northwestern) "I think it has cost about \$25 to date to feed the men who have come from the Medford side of the mountains into Crater Lake Park already this spring looking for work with the government engineering crew on the roads in the park," said Assistant Superintendent Momyer of Crater Lake park yesterday.

Mr. Momyer came down from headquarters five miles this side of the rim of Crater Lake yesterday. He left headquarters early in the morning, was met about three miles this side by an automobile and was in this city in time for noon lunch. He has much praise for the new passenger service between here and Fort Klamath which made this possible.

Plenty of Work Soon In telling of the workmen coming into the park Mr. Momyer says they are told in Portland and other points north of the mountains that there is plenty of work for all on the park roads. They probably beat their way to Medford on freight trains and hike from there to the park headquarters.

Road Soon Opened Mr. Momyer said he believed the road across the mountain will be open to the Rogue river delegates to the tri-county meet to be held here June 23 can come that way. Teams and rigs are being driven over the road as much as possible in order to break the snow and cause it to disappear more rapidly.

STEALING A CARTOONISTS' CREATIONS

A SAMPLE of the Hearst business morals is now being given by the Hearst papers and other journals to whom he syndicates his Sunday "funny" section.

Years ago the Dirks brothers helped to make the Hearst comics famous. Gus Dirks found humor in insects. The idea being new, it made a hit. The other brother created the famous "Katzenjammer Kids," whose pranks for a score of years have amused young and old, perhaps the most successful of all the funnies.

Gus Dirks years since was called by death, but his cartoon ideas were appropriated by Hearst, who set imitators to copy his creations and has for years kept the series running at a profit to himself, though lacking the zip and humor of the original.

Rudolph Dirks has left the Hearst employ for that of the New York World, which, with allied papers, presents the familiar "Katzenjammer Kids" each week. Whereupon Mr. Hearst starts the publication of the adventures of a fake Katzenjammer family, all the characters and ideas stolen from Dirks.

A few years ago the New York Herald did the same trick with R. F. Outcault's "Buster Brown" creation, and has since published weekly a fake "Buster Brown," a bold theft of an idea.

The plagiarism of the great dailies is as much a crime as any other variety of theft, but there seems to be no more protection for the cartoonist than there is honor among the millionaire publishers.

TIME FOR A SHOWDOWN

A FEW weeks ago Senator La Follette published in the Congressional Record a voluminous mass of evidence conclusively proving that the railroads of the nation and their affiliated and dependent corporations were in a widespread conspiracy to create hard times and manufacture sentiment favoring the authorization of an increase in railroad rates.

Every possible avenue, he asserted, was being utilized to bring pressure upon the interstate commerce commission and force a decision, not after calm and dispassionate review upon the merits of the case, but upon public clamor.

Now comes President Wilson and shows that the effort to create hard times, when banks are full of money and crops are record-breaking, is the result of an effort to coerce the government into abandoning its trust regulative program and hasten the desired railroad increase.

There has all along been more than a suspicion that this was the case. However, the time has come for definite decision as to whether big business or the government is to rule, and it might as well be fought out now—as it was in Andrew Jackson's time.

WHAT IT COSTS TO DO BUSINESS

The Law Alone Dozes in the Dead Past

(Sacramento Bee) The president of the Illinois Bar Association in an address opening the annual convention of that organization used these words: At the outset we must admit that the inhabitants of the United States are the most lawless of all civilized peoples.

To that the Chicago Public takes this exception. Whatever may be the matter with our legal system—and it is not for a mere layman to criticize the minutiae of the law—one thing is certain: If the lawyers and judges do not reform the machinery of the law, The People will. We have lawyer law, and judge judgments, and the result is so far from justice and common sense that the average citizen looks upon the whole legal system as a terrible engine in the hands of his enemies. He

element of people so poor that they feel that wrongs not redressed by themselves will not be redressed at all. And this legal suspicion and hopelessness have so permeated society that we have become the "most lawless of all civilized peoples."

There is but one way to make our people law abiding: Make the laws just, and administer them impartially. Quibbling must cease, technicalities must be brushed aside, and interminable delays must be brought to an end. The poor must stand upon the same footing before the law as the rich; and this fact alone requires that the judgment be speedy, and its execution certain.

In a word, the law must be converted from an impotent relic of the past into an efficient agent of the present. That is what The Bee has been preaching for, in these many years.

CHICAGO MAN BUYS 36-ACRE ORCHARD

Hamilton Patton of Chicago has purchased a 36 acre tract of five year old pears and apples on the Eagle Point road five miles from Medford, for \$15,000, and will take possession at once. The property was bought from Earl S. Tully and Charles Boynton. The purchase was made after Mr. Patton had inspected fruit land in this section, and compared with others.

Mr. Patton recently graduated from Amherst, and took a horticultural course in the University of Berlin. The land will be improved.

MILLION PROMISED FOR REORGANIZATION LORIMER BANKS

CHICAGO, June 15.—One million was promised to be deposited today in the La Salle Street Trust and Savings Bank, and William Lorimer and C. B. Munday, president and vice-president of the bank closed by the state bank examiner, will sever their connection with the institution, according to statements by Munday. The million dollars, he said, would be sufficient to re-open the bank.

"The resignation of Mr. Lorimer and myself," he added, "seem at this time, to be called for by the circumstances." Daniel V. Harkin, chief state bank examiner for the Chicago district, declined to comment on the promised deposit of \$1,000,000. He said that the examination of the bank's books and assets would proceed.
