FEDERAL TROOPS NOT NEEDED TO QUELL BUTTE RIOTS

WASHINGTON, June 16.—Senator Myers and Representatives Sout and Evans of Montana went to the white house today in connection with the request of Governor Stewart, that President Wilson send federal troops to quell disorder at Butte between members of the Western Federation of Miners and the Industrial Workers of the World.

In view of the apparent quiet conditions of Butte today, the Montana delegation did not press for the immediate sending of troops, but made an engagement to see President Wilson tomorrow and discuss the entire situation with him.

The request for federal troops came as a surprise to the president and to the Montana delegation. Senator Walsh is at present in Montana and it was hoped here that he might be heard for meduring the day.

Assistant Secretary of War Breckinridge was expected to inform the president today what troops would be available in service in Montana should federal interference become necessary. Governor Stewart in his telegram to the president said there are only 500 militiamen in Montana and that he feared serious troubles within the next few days.

DRY WORKER AGAIN MISSING

DETROIT, Mich., June 16.—After working on the case all night members of the police department said today they were without a clue as to the whereabouts of the Rev. Louis R. Patmont, the Westville, Ill., "dry" worker, who disappeared last night from his temporary home here, where he had been staying since his alleged kidnaping in Illinois in March.

The minister's wife and friends also said they had heard nothing from him since he attended church services last evening and started for his rooming place several miles away.

Mr. Patmont and his wife have been living in Detroit most of the time since he was found in a cellar of a house near Columbia, Ill., where he insisted he had been held in captivity.

His disappearance at that time resulted in a nation-wide search, and when he was found he gave out a sensational account of his abduction and alleged harsh treatment.

MEDIATORS REST FOR THREE DAYS

WASHINGTON, June 16.—Temporary suspension of formal conferences at Niagara Falls, among the mediators and the American and Huerta delegates during the absence of the Argentine minister, gave President Wilson and Secretary Bryan additional time today for consideration of men to be suggested for the provisional presidency in Mexico. Government officials were said to have experienced some difficulty in setting names of eligibles through constitutionalist agents in Washington.

During the three days' absence of Minister Naon, the president and his advisers hoped to make headway over the problem of personal of the new government that would materialize on July 1, according to the

THE GOAT—SYMBOL OF PROSPERITY

THE goat, since time immemorial, has been libeled as the emblem of everything evil—in contradistinction to the sheep, symbol of excellence and purity. Both characterizations are satires on the observations of the ancients. What a travesty the sheep with its stupidity is on purity!

The goat ranks as one of man's best friends. In the alleys and slums of the great cities, on the dreary wastes of the desert or on the barren and brushy mountain top, the goat is equally at home, a sturdy rustler for himself, a source of meat, drink and clothing for his owner.

In Jackson county the goat has been the mortgage lifter for many a pioneer farmer, an aid in clearing land, a reclamer of the forest as well as of exhausted soils, a provider of food for his table and a steady yielder of revenue.

The Jackson county goat is the Angora and should be a much greater economic factor in this section than at present. The Angora's history is as old as that of humanity. The breed was distinct even in the days of Abraham. The name came from the village of Angora, in Asia Minor, where Paul established one of the Western Christian churches.

The raising of Angoras is a success only in a few countries, Turkey in Asia, South Africa and sections of the United States. Transplanted elsewhere, the Angora has not proven a success. The census statistics show 3,700,000 Angoras in Turkey, 5,000,000 in South Africa and 800,000 in the United States.

Angoras were introduced in America in 1849. For many years the industry languished. In 1900 it was revived, with federal aid.

The Angora is valuable for the production of mohair, for meat and as a destroyer of brush and fertilizer of land. Nowhere does this goat thrive better, multiply faster or produce finer quality of mohair than in southern Oregon. The average fleece is from three pounds up, some as high as twelve pounds. The average price is from 25 cents to 35 cents a pound. The flesh is considered equal to mutton, and by many preferred to mutton, free from the strong flavor of most goat meat.

The average annual yield from a flock of Angoras in Jackson county is placed by goat raisers at \$2.50 a head, including fleece and kids. The goats cost little or nothing to keep, assist materially in reclaiming brush land, and the income yielded generally regarded as "velvet" by the raiser, the only expense being the protection of the flock from coyotes.

Every farmer whose property includes or adjoins the wild, should add a flock of Angoras to build up his bank account as well as his ranch, for the goat in Jackson county is a symbol of prosperity.

SOUTHERN OREGON'S OPPORTUNITY

FINANCIAL and business depressions have in the past invariably increased mining activities, and history is vindicating itself in this respect in the increased activity in the mining business and the demand for gold-bearing mining properties. Some high authorities attribute the present depression in business to the marked decrease in the world's output of gold, which has been placed at between ten and twenty per cent. In any event, there is at present an active demand for mining property all over the gold-bearing areas of the United States.

Southern Oregon as a gold-bearing field has had but little intellectual development or investigation.

Its surface indications uncovered in Nevada or any well-known or exploited field would inevitably cause a stampede and a mining boom. The mining operations so far conducted in this section have always been on the smallest scale and with no attempt at the economy practiced in the larger fields where that element is the only factor that enables the business to succeed.

In southern Oregon the small operator has been fairly successful without the employment of large capital or mining skill, and within the past few months there has been a marked increase in the production of dividend-paying ores.

Great credit is due to the Rays for the development of the Braden mine, which has now a payroll that is making prosperity for the community surrounding it, and which is returning handsome dividends to its owners.

Southern Oregon should take advantage of the increased activity in mining by organization and getting its properties before the investing public, which is at this time displaying so much interest in mining properties.

GRANTS PASS WINS FROM TALENT 15-2

GRANTS PASS, June 16.—Grants Pass, by hammering out seventeen hits and taking advantage of seven errors, slaughtered Talent yesterday on the latter's grounds by a score of 15 to 2.

Osborn pitched one of his best games. He did not issue a single pass, fanned four, and although taking things easy after Grants Pass gave him a seven-run advantage in the very first inning, held Talent to nine scattered hits. He received excellent support.

Terrific hitting by Miles, Fashion and Russell Wood featured the contest. The pudgy and belligerent second baseman gathered three singles and a double, Fashion four singles and Wood three.

Hamilton, Fashion and Ray Crawford—the latter joining the Hoop cohorts only yesterday—executed the finest double play of the season.

DRYS MUST CAPTURE ENTIRE GOVERNMENT

CLINTON, Mo., June 16.—The liquor question cannot be settled only by the three branches of government—legislative, judicial and executive—combining for its solution, declared James H. Woertendyke of Los Angeles, in an address at the national conference of leaders and workers of the prohibition party here today. Mr. Woertendyke declared the liquor question demanded political party action.

"A law to be effective must be administered by an administration favorable to it," he said. "In like manner, prohibition awaits an administration of the government by a political party that believes in that reform. It is impossible otherwise."

HAL CHASE LEAVES CHICAGO WHITE SOX

CHICAGO, June 16.—Charles A. Comiskey, president of the Chicago American League club admitted today that Hal Chase had notified him he would leave the White Sox "in ten days." The first baseman had an interview with Comiskey, but did not say he would join the Buffalo Federals. Comiskey gained the idea that Chase was going into business.

Chase himself refused to make any statement. From Federal League headquarters, however, came the information that he was practically sure to be with the Buffalo team within a fortnight.

WOMAN COULD HARDLY STAND

Because of Terrible Backache, Relieved by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I suffered from displacement and inflammation, and had such pains in my sides, and terrible backache so that I could hardly stand. I took six bottles of Lydia E. Pinkham's Vegetable Compound, and now I can do any amount of work, sleep good, eat good, and don't have a bit of trouble. I recommend Lydia E. Pinkham's Vegetable Compound to every suffering woman."—Mrs. HARRY FISHER, 1642 Juniata Street, Philadelphia, Pa.

Another Woman's Case. Providence, R. I.—"I cannot speak too highly of your Vegetable Compound as it has done wonders for me and I would not be without it. I had a displacement, bearing down, and backache, until I could hardly stand and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. ABRIEL LAWSON, 126 Lippitt St., Providence, R. I.

Danger Signals to Women are what one physician called backache, headache, nervousness, and the blues. In many cases they are symptoms of some female derangement or an inflammatory, ulcerative condition, which may be overcome by taking Lydia E. Pinkham's Vegetable Compound. Thousands of American women willingly testify to its virtue.

Choosing the Bride's Silver

It must be true in weight and fineness and be correct in pattern. It should bear the mark of a well-known maker and come from a store of character.

Let the advertising in this newspaper help you in your choice. Advertisers are daylight men.

They make good on their promises and they use their advertising not merely to make sales but to build business.

I carry the largest assortment of the Gorham Sterling Silver which has been recognized as the leading bride's silver. It has the largest silver factory in the world back of it.

MARTIN J. REDDY

It is Just Natural To Admire Babies

Our strenuous nature impels love for the cooing infant. And at the same time the subject of motherhood is ever before us. To know what to do that will add to the physical comfort of expectant motherhood is a subject that has interested most women of all times. One of the most helpful things is an external abdominal application sold in most drug stores under the name of "Mother's Friend." We have known so many grandmothers, who in their younger days relied upon this remedy, and who recommended it to their own daughters that it certainly must be what its name indicates. They have used it for its direct influence upon the muscles, cords, ligaments and tendons as it aims to afford relief from the strain and pain so often unnecessarily severe during the period of expectancy.

A little book mailed by Bradford Regulator Co., 206 Lamar Bldg., Atlanta, Ga., refers to many things that women like to read about. It refers not only to the relief from muscle strain due to their expansion but also to nausea, morning sickness, caking of breasts and many other distresses.
