

DERELICT PATROL TO FREE OCEAN FROM WRECKS

WASHINGTON, June 19.—To free the North Atlantic of derelicts, the revenue cutters Seneca and Miami early in July will establish an international patrol in those waters, as authorized by the international maritime conference in London last year.

At present the two cutters are working out of Halifax to warn vessels against icebergs which may cross the paths frequented by steamers between the United States and Europe. As soon as the danger of icebergs has passed the two cutters will search for derelicts which imperil shipping.

One on European Side

One of the cutters will make its headquarters somewhere in the Azores and confine its duties to the European end of the trans-Atlantic routes. The other will make its headquarters either in Newfoundland or Nova Scotia and limit its efforts to the American end of the well-traveled courses. All leading countries endeavor to keep the waters for at least 200 miles off their coasts free from obstruction, but this will be the first time an effort has been made by international cooperation to clear the high seas of derelicts.

Although the United States has been authorized to maintain this derelict patrol it will be paid for by all the powers which participated in the conference and signed the treaty growing out of that conference. The treaty will not be effective until July 1, 1915, but by common consent the patrol is to be established this year and the interested nations expected the United States to take charge of it. England will bear 30 per cent of the expense of the patrol, France, Germany and the United States each 15 per cent and the balance will be apportioned among powers with fewer ships in the North Atlantic.

To Destroy Derelicts

A majority of the derelicts in the North Atlantic are carried from the shores of the United States by the gulf stream and other currents toward Europe and deflected south by currents off the European coast. It is impossible for wrecks off the European coast to make their way to the United States. Consequently, a cutter with headquarters in Nova Scotia or Newfoundland will be able to destroy wrecks which the gulf stream is carrying toward Europe and another cutter in the Azores can intercept southward wrecks which escape the Nova Scotia outlook or originate off the European coast.

The two cutters will use gun cotton to demolish derelicts. They are equipped with wireless.

INSPECTION TOURS OF WATER SYSTEM

Councilman George Porter and Water Superintendent George Tranna are planning on making a tour of inspection of the city water intake Sunday, providing Mr. Tranna can make the trip. The report has reached the city that a large amount of water is leaking from the city mains, and that the water is running away faster than it is coming in, a condition unknown in previous years.

Councilman Porter said today that he would introduce a resolution at the next meeting of the city council calling upon Water Superintendent Tranna to make a full and complete and detailed report of the condition of the water system, and outline fully its needs, and how much it would cost to put it in shape so all taxpayers could have all they wanted of the most plentiful matter except air, without quibbling.

Councilman Medynski will also make another tour of inspection of the water system next week.

TABLE ROCK TABLETS

Harry Nealon is hauling baled straw to Medford this week.

The blight seems to be almost under control again in this district.

Clarke Collins is helping put up hay in the sticky country this week.

Miss Grace Lydiard who has been filling a position as stenographer for the last two years in Los Angeles, returned home Monday to spend the summer.

Apple thinning is in progress in this vicinity at the present time.

During this warm weather some of our citizens find that it is better to get out to work about 4:00 o'clock in the morning, work during the forenoon and go fishing in the afternoon.

The school election passed off very quietly here only three voters besides

the school board being present. S. M. Nealon was elected director and J. H. Lydiard clerk. Both were the present incumbents.

The Modoc ball team defeated the Central Point team Sunday in a close game at that place.

Rose Nealon is attending the teachers' examination at Jacksonville this week.

We have received word that Dr. Paddock of Portland who has charge of the congregational church work in Oregon will attend the Children's Day exercises next Sunday at this place.

Those who braved the hot sun to see the ball game Sunday at the Table Rock grounds, between the home team and the Foot Hills team were disappointed as the Foot Hills team failed to put up any game worth seeing. The game was ragged and long drawn out, the Table Rock team getting 16 runs and allowing the visitors but eight. Both teams claimed to be shy some of their best players.

The committee in charge of the Children's Day exercises wish to announce that the program will begin at 10:30 sharp.

A four-horse load of young people will journey to the Meadows district Friday to attend the school exercises and picnic at that place.

Battle snakes are coming out a little earlier than usual, a number having been killed on the lower rock this week.

ROCK ISLAND CHIEF SPECULATIVE SUBJECT

NEW YORK, June 19.—No change of note occurred in today's dull and professional market. The market closed steady.

Trading became even more insignificant in the final hour, the day's total approaching a new low record.

Rock Island securities were the chief subject of speculation. The debenture bonds developed exceptional strength. They bounded up 4 3/4 to 7 3/4, a gain of more than 7 points in two days. The refunding bonds jumped 1 1/2. The collateral and the common and preferred stock, on the other hand, were lower. These movements were interpreted in the light of the report that an assessment of about \$30,000,000 would be levied on the stock. The general market movement was narrow and irregular, with a fairly firm undertone and a majority of small advances. The engagement was announced of \$15,000,000 of gold for export.

TWO MORE LORIMER BANKS CLOSE DOORS

CHICAGO, June 19.—Two more companies, headed by Charles P. Munday, vice-president of the La Salle Street Trust and Savings bank closed their doors today just as Patrick J. Lucey, attorney general, was filing a petition in the courts here asking the appointment of a receiver for the La Salle Street bank and charging that the bank was wholly and irretrievably insolvent.

The latest institutions to be hurt by the bank crash here last Friday, were the People's Bank of East Alton and the Litchfield Mill and Elevator company. The bank was a private concern with Munday as its president. The capital was \$25,000 and it has experienced something of a run all the week.

J. G. Munday was president of the Litchfield Mill & Elevator company.

Judge Humphries of the United States district court appointed receivers for both properties after they had filed voluntary petitions in bankruptcy. He also named a receiver for the C. B. Munday bank of Smithboro, Illinois.

In the bill for a receiver for the La Salle Street Bank, its president, William Lorimer, former United States senator, was listed as having loaned \$832,209 to concerns in which he was interested.

Munday was listed as having loaned \$310,572 to companies in which he was interested.

Judge O'Connor in the superior court refused to consider the application for a receiver made before him yesterday, while the petition filed by Lucey is pending in another court.

LONDON, June 19.—Brandon Thomas, actor and playwright, died here today, aged 58. He was best known as the author of "Charley's Aunt."

CONTRACT SIGNED FOR COUNTY EXPERT

The county court has signed a contract with M. P. Henderson of the University of Wisconsin to act as county horticultural and agricultural expert co-operating with the state in the studying and combating of plant diseases, under direction of the Oregon Agricultural College.

Under the agreement the county pays \$2000 and the state \$2000. The salary is \$2500, the remaining \$1500 being used to meet office and laboratory expenses, rent, etc. Under the O'Gara regime the yearly cost to the county was in excess of \$6000 a year.

Prof. Henderson will assume charge July 1, and will establish an office in Medford and also act as weather bureau observer.

The contract was signed by Messrs. Tou Velle and Leever, Mr. Smith being absent.

ADMINISTRATION CONTROLS MODERN WOODMEN

TOLEDO, O., June 19.—With regular administration forces in control, sessions of the head camp, Woodmen of America, were resumed today. Election of officers is the most important business scheduled for the day.

SHARP OF ELYRIA, O., AMBASSADOR TO FRANCE

WASHINGTON, June 19.—The senate today confirmed the nomination of Congressman William G. Sharp of Elyria, O., as ambassador to France.

AMES RESIGNS AS COLLECTOR OF CUSTOMS

WASHINGTON, June 19.—John C. Ames, collector of customs at Chicago since 1906, resigned today, soon as a successor is named.

Camel
Cigarettes

20 for 10c

Quality! Not premiums

All the goodness of a choice quality Turkish cigarette and the mildness of a domestic cigarette are blended in Camel Cigarettes—the new brand just produced by R. J. Reynolds Tobacco Co. Money can't buy you a more delightful cigarette!

Camels can't bite your tongue and can't parch your throat.

Don't look for premiums or coupons, as the cost of the tobaccos prohibits their use.

If your dealer can't supply you, send 10c for one package or \$1.00 for a carton of ten packages (300 cigarettes), postage prepaid. After smoking one package, if you don't find CAMELS as represented, return the other nine packages and we will refund your money.
