# Forty-fourth Year. Daily-Ninth Year.

Than Ever That Peace Conference Will Be Successful-No Meeting or Formal Announcement Probable Until Monday.

RUFFALO, N. Y., June 20,-"I was never more confident than I am today of the ultimate success of mediation," said Dr. Romulo S. Naon, minister from Argentina, when he arrived here today after conferences in Washington with President Wilson and Secretary Bryan.

Minister Noon predicted that negotiations would be continued at least another two weeks,

"I am confident," Minister Naon added, "and optimistic, which I always have been. While I regard the difficulties which have been encountered as serious, there are always difficulties in mediation, and it is the duty of mediators always to find a way to overcome them, so peace may ited, where a great explosion yester- + be accomplished."

### Next Session on Monday

As the minister took an automobile to a hotel for luncheon prior to returning to Ningarn Fails, he said he would consult with his colleagues tonight before making any announce- lor, fire boss, ment, and that there probably would he no full pession of delegates and other debris are heaped in the en- + medators until Monday.

Dr. Naon declined to say what proposals he had in mind which would for several days. Exploration by + break the deadlock.

MEDFORD MOTORISTS REACH CRATER LAKE THROUGH SNOW

Will Steel, superintendent of the Crater Lake National Park, left this morning for the lake with Court Hall by auto. A letter received from A. S. Tee, civil engineer in charge of road work, says that the park roads are in fine condition to Steel's camp, and that he thinks it will be possible to reach the crater in a short time, Superintendent Steel will remain at the lake until the season closes. The first of the touist travel

of the year is beginning to arrive, making their way north from California points, some regretting that they came too early to make the trip to the scenic wonder.

NINE AVIATORS INMIMICBATTLE PERISH MID-AIR

NO. 78

**Biplane Rips Dirigible Airship While** Both Were Flying at Great Height During the Austrian Army Maneuvers-Explosion Follows, Aircraft Burned.

VIENNA, June 20 .- Nine aviators lost their lives today when a mimic war was suddenly turned into tragedy by the accidental ripping of a dirigible airship by a biplane while both were flying at a great height during the Austrian army maneuvers.

Both craft were destroyed and their occupants, nine military and navy officers and non-commissioned officers, were burned and mutilated beyond recognition.

The Austrian army dirigible balloon Koertling ascended at Fischamende, about 125 miles from Vienna where there is a military aviation station. It was the intention of Captain Johann Hauswirth, the commander, to take photographs of the movements of the troops below and then to join in the maneuvers,

## Makes Sham Attack

The aeroplane started half ap hour later from the same spot. It was manned by Lieutenants Flatz and Hoosta.

The mosquito craft soon overtook her big sister and immediately began a sham attack. After encircling the airship several times at a height of 1500 feet, the bipiane's pilot suddenly maneuvered his little craft with the object of taking a position directly above the airship.

The navigator evidently miscalculated his distance or his speed, for the nose of the biplane grazed the envelope of the airship and ripped it wide open.

**Terrific Explosion** 

There was a terrific explosion and the airship took fire. The flames engulfed the biplane and in a few moments the remnants of both craft TORREON. Coahuila, June 20 .-- with their occupants, crashed on the
