CHICHESTER'S PILLS. Joyful Anticipation of Motherhood. There is not to be a latent apprehension of children to mar the complete joy of expectation. But this is quite overcome by the advice given by many women to use "Mother's Friend." This is an external application designed to soothe and lubricate the muscles and to thus so relieve the pressure exerted on the nerves, that the natural strain upon the cords and ligaments is not accompanied by those severe pains and many local distresses. Many people believe that those remedies which have stood the test of time, that have been put to every trial under the varying conditions of age, weight, general health, etc., may be safely relied upon. And judging by the fact that "Mother's Friend" has been in continual use since our grandmother's earlier years and is known throughout the United States it may be easily inferred that it is something that women gladly recommend. "Mother's Friend" is prepared only in our own laboratory and is sold by druggists everywhere. Ask for a bottle to-day and write for a special book for expectant mothers. Address: Medford Household Co., 297 Lamar Bldg., Atlanta, Ga.
