

### CHURCHES UNITE FOR BIBLE READING IN PUBLIC SCHOOLS

CHICAGO, June 24.—"Co-operation by Protestant, Catholic and Jew in the matter of bible reading in the public schools is an indication of the growing spirit of brotherly regard and toleration," said Marion Lawrence, secretary of the International Sunday School Association, at the session of the fourteenth triennial convention here today.

"This is a great step forward in the study and recognition of the Bible. Encouragement of the reading in public of those portions of the Bible agreed on by all is the aim of such co-operation.

"Perhaps one of the most significant advances that has been made in Sunday school work is that of recognizing the church and the Sunday school in the regular work of the day school," said Mr. Lawrence.

The organization of Sunday schools in Arizona has effected the closing of many saloons and public dancehalls in mining towns, according to a report today by the Rev. W. C. Merritt of Claremont, Cal., to the convention.

"Previous to the organization of the Sunday school in one town," said Dr. Merritt, "there were seven saloons and three dancehalls. In three years four saloons and all the dance halls closed. There has not been a public dance there in a year, no shooting-up of the town for months, the justice court is about out of business and it is all due to the Sunday school."

### JOHNSON TO FIGHT AT 210 POUNDS

PARIS, June 24.—Jack Johnson, the champion heavyweight pugilist, will weigh about 210 pounds when he enters the ring Saturday for his fight with Frank Moran of Pittsburgh. This means he will be about ten pounds heavier than at the time of his fight against Jeffries at Reno, July 4, 1910.

Since Johnson began training he has lost 25 or 30 pounds in weight. He will continue his hard work until Friday.

Johnson says he is still looking for a taker of a bet of \$5000 which he wants to wager on himself.

The odds in regard to the fight range from 5 to 1 down to 2 to 1 in favor of Johnson.

### PAN HANDLE SYSTEM PASSES A DIVIDEND

PHILADELPHIA, June 24.—The directors of the Pittsburgh, Cincinnati, Chicago and St. Louis, railway, the Pan-Handle system, a subsidiary of the Pennsylvania railroad today passed the dividend on the common stock and reduced the dividend on the preferred stock to half of one per cent for the quarter.

The Pennsylvania directors for the lines west of Pittsburgh declared the usual semi-annual dividend of three per cent.

### RECORD COTTON CROP WORTH OVER BILLION

WASHINGTON, June 24.—Final figures on the 1913 cotton crop announced today by the census bureau, place it as the largest the United States has ever grown, with the exception of that of 1911. At the same time the estimate of the total value of the crop shows it was the most valuable ever produced, it being worth \$1,043,060,000.

### REBELS REPORTED TO HAVE TAKEN ZACATECAS

WASHINGTON, June 24.—Semi-official despatches coming through from Tampico today said it was reported there by reliable sources that the constitutionalist general Natera had taken Zacatecas on June 5 and that the troops were being hurried on to San Luis Potosi. The report was not credited here by administration officials nor constitutionalists.

### HEROIC WORK IN SAVING PASSENGERS FROM LOST VESSEL

HUGHTOWN, Scilly Islands, June 24.—The saving of the passengers of the wrecked Belgian steamer Gothland was accomplished by almost superhuman efforts on the part of the steamships crew and the lifesaving crews which came to the rescue. Members of the lifesaving crew from St. Marys told today how one of the Gothland's small boats crammed with women and children broke away from the davits and fell 30 feet into the sea. The bottom of the boat was smashed and all were thrown into the water. The women and children struggled helplessly in the waves. A quartermaster of the Gothland sprang from the steamer's deck and succeeded in saving three of the women.

Several of the lifesaving crew also jumped into the water and handed drowning children to their companions in the rescue boat until all had been saved. There was a heavy sea running and all salvage work was perilous but eventually all were put safely ashore.

The crew of the Gothland, which was on the voyage from Montreal to Rotterdam, went on board today to jettison some of her cargo of grain in the hope of lightening the boat sufficiently to refloat her.

### ORGANS TRANSPOSED ALL ON WRONG SIDE

WASHINGTON, June 24.—With all his organs transposed—his heart being on his right side, the liver and appendix on the left and the large end of the stomach on the right—the case of Thomas Murdock, a negro laborer killed in a fall from a building, was the subject of comment today in medical circles. An autopsy revealed this curious anatomical phenomenon, without precedent in the district coroner's office. The body of the negro was otherwise normal and well developed and seemingly he had enjoyed good health.

### PARIS POSTMEN USE POST OFFICE AS BARRICADE

PARIS, June 24.—About six hundred striking lettercarriers today barricaded themselves in the Paris central post office, of which they took possession last evening. A force of eight hundred policemen was placed in position around the block by the authorities, who were considering whether or not to storm the place and forcibly expel the strikers.

Those within the building had exhausted their small supply of food this morning, but some comrades outside succeeded in running the blockade and supplying the garrison with eatables.

The men struck owing to the refusal of the senate to include in the postal budget some increased allowances.

### LAKE CONSTANCE YIELDS UP DEAD

FRIEDRICKSHAFEN, Germany, June 24.—The bodies of ten fishermen were recovered today from Lake Constance, and at least twenty five more are missing, believed to have drowned in a sudden storm which broke over this region yesterday.

The storm came so quickly that the fishermen were unable to reach land, only a mile or so away.

Many were rescued by lake steamers and other craft after their light boats had capsized.

### POVERTY DUE TO FEEBLE MINDEDNESS SIN AND DISEASE

ATLANTIC CITY, N. J., June 24.—Feeble-mindedness, sin and disease were today characterized as the principal causes of poverty by physicians and surgeons attending the sectional meeting here of the American Medical association.

Dr. Hurty, of Indianapolis, a member of the committee on poverty, declared the normal person never sank to the level of poverty. In the main, he said, poverty was caused by sins unmentionable in a public gathering. The eradication of sin and disease, he said, would remove poverty. The infant incubator has been more of a failure than a success, Dr. E. Chapin of New York reported in a paper before the section of diseases of children. Out of 150 personal experiences with the incubator for infants, he could not report one satisfactory result, death resulting in the great majority of instances.

Dr. M. P. Ravenal, of Madison, Wis., before the section on preventive medicine and public health, said the day had come when it was time to take the public health officers of every municipality from under political control and see that a man was named for such a position with a view to his fitness for it.

The specialists were surprised by figures presented by Professor Herman Kuttner, of Breslau, Germany, one of the experts in this line of surgery of Europe, who related that 40 of 100 cases treated by surgery where the diagnosis had been brain tumor had failed to save the life of the patient.

### RESERVE BANKS TO OPEN ABOUT SEPTEMBER FIRST

WASHINGTON, June 24.—Although August 1 is the date originally set for the probable time for the organization of the federal reserve it now seems likely that organization will not be earlier than September 1. The senate's delayed confirmation of members of the federal reserve board and delayed choice of directors for the federal reserve banks will defeat the plan to open August 1.

The organization committee is engaged in compiling list of nominations for directorships in the 12 federal reserve banks. After the complete list has been compiled it will be submitted to the electors named by all member banks. These electors in turn must cast their ballots for directors within 15 days after the receipt by them of the list of nominees.

## Quick Action Getting The Blood in Order

There's Bounding, Pulsating Life in Every Drop of Great Remedy.

Let S. S. Huxtle Impurities Outward. Impurities lodge so deeply in the tissues that they cannot be reached by any ordinary method. Mercury and other dangerous mineral drugs may check a disease, but to get right down into where the blood is vitiated requires S. S. H., the greatest blood purifier known. Its action is pronounced. In a very brief time S. S. H. has the reconstructive process so under control that remarkable changes are observed. All eruptive places heal, mysterious pains and aches have disappeared, and from head to foot there is a conscious sensation of renewed health. The extraordinary manner in which S. S. H. drives impurities out of the blood is due to its catalytic force in the blood cells, contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment and the medicinal elements of this matchless blood purifier are just as essential to well balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food. Not only this, but if from the presence of some disturbing poison there is a local or general interference of nutrition to cause boils, carbuncles, abscesses, and kindred troubles, S. S. H. so directs the local cells that this poison is rejected and eliminated from their presence. From the fact that S. S. H. is purely a botanical preparation, it is accepted by the weakest stomach and has great tonic influence. Not one drop of drugs or minerals is used in its preparation. Ask for S. S. H. and insist upon having it. And if you desire skilful advice upon any matter concerning the blood and skin write to The Swift Specific Co., 224 Swift Bldg., Atlanta, Ga. Do not allow some zealous clerk to harp the atmosphere in eloquence over something "just as good" as S. S. H. Beware of all counterfeits.

# WE HAVE SOLD

After July 1, this sale will close, as we have sold the remaining stock on that day to the Medford Harness company and it will be moved.
