

Well, at That, Huerta Finally Got the Hat

By "Bud" Fisher

ROOSEVELT GRILLS WILSON'S TREATY WITH COLUMBIA

NEW YORK, June 25.—In a lengthy statement last night Col. Roosevelt asserted that the payment of \$25,000,000 to Colombia for having obtained the right to build the Panama canal as provided for in the pending treaty would be merely the payment of belated blackmail.

If the proposed treaty is right, he said, the presence of the United States in Panama is wrong and Panama should therefore be restored to Colombia and the United States should abandon the zone.

In his statement Col. Roosevelt said in part:

"The payment of \$25,000,000 to Colombia, together with the expression of what is in effect an apology for our having secured the right to build the Panama canal, is merely the belated payment of blackmail, with an apology to the blackmailers. If this proposed treaty submitted by President Wilson through Mr. Bryan is right, then our presence on the Isthmus is wrong. In such case Panama should at once be restored to Colombia and we should stop work on the canal and abandon the place, bag and baggage. There should be no halfway measures. If we as a nation have been guilty of theft we should not pay blackmail.

"The handling of our foreign affairs by President Wilson and Secretary Bryan has been such as to make the United States a figure of fun in the international world. This proposed Colombian treaty caps the climax, and if ratified, will rightly render us an object of contemptuous derision to every great nation.

"As president I declined to allow Uncle Sam to be blackmailed. President Wilson now desires the blackmail to be paid. His attitude can be illustrated by a hypothetical case. The present administration has, with regard to Mexico, pursued a course wavering between peace and war, exquisitely designed to combine the disadvantages of both of feebly tending first towards one and then towards the other. Usually it has permitted the free ingress of arms into Mexico, both from this country and from others. Occasionally, however, it has undergone spasms of understanding that these arms might ultimately be used against our own troops.

"It has then prohibited the landing of arms, sometimes wobbling back again to its original position as when it took Vera Cruz to prevent the landing of weapons and munitions of war and shortly after permitted the very same arms and munitions to be landed."

ZACATECAS FALLS BEFORE VILLA'S SUDDEN ATTACK

EL PASO, Tex., June 25.—Zacatecas, an important city of central Mexico, fell into the hands of the constitutionalists at sundown yesterday. This was announced last night by General Villa's officials here. Two of Villa's generals were wounded.

The attack could not have been made before yesterday morning, according to local reports. Villa's previous victories in the north had been accomplished in general only after days of fighting.

It was believed here that Villa's lack of effective artillery, ammunition had made it necessary to rush the federal positions with infantry, taking the position by a sudden attack, which according to the official reports, resulted in the capture of a large portion of the garrison and its munitions.

ENGLISH FRUIT INJURED BY FROST

The London office of the Northwestern Fruit Exchange writes under date of June 16th:

The chief uncertainty is the apple crop. The second frosts in May did much more damage to this fruit than the first. Apart from this some varieties have set full crops while others have failed badly. In Kent the crop is expected to be below average on the whole, and the other counties do not promise to counterbalance the destruction by frost. The fruit harvest will be one of great inequality for different growers. Those who have escaped frost damage will reap the benefit of high prices, resulting from general deficiency, while it is to be feared that many small growers will be ruined. The partiality of the frosts was extraordinary, some orchards in even the most badly injured districts having suffered very little damage.

Similar variation is noticeable in the attacks of insect and fungous pests. The apple has injured plums, apples, gooseberries, and currants badly in some districts or particular farms and hardly at all in others. As a rule the apple sucker has been in strong force, but not universally, while caterpillars are numerous in some places and few in many others. The maggots of the pear midge have done much damage, but this attack is variable, like the rest. As a sequel to the extremely wet weather of the winter and the early part of the spring there has been more brown rot fungus among apples than for some years past and in some places it is equally troublesome, among plums and cherries. The powdery mildew of apples is exceptionally prevalent in some parts of the country and not in others. These attacks would probably be even worse if it were not for the drought, which has kept apple and pear scab, in many orchards at least, from developing. American gooseberry mildew is prevalent in various degrees of intensity. On the whole the season of 1914 will be placed on record as one of the most unfortunate ever experienced by fruitgrowers.

COMMERCIAL CLUB THANKS FROHBACH FOR DISPLAY

The board of directors of the Commercial club by a unanimous, rising vote, adopted the following resolution, offered by Ben Sheldon. The specimens referred to fill a score or more large jars, are processed so as to last indefinitely and are an exceptionally fine display of Medford's fruit and vegetable products: "Resolved that the Medford Commercial club extend a hearty and most sincere vote of thanks to Mr. H. O. Frohbach of Ashland for the several splendidly prepared specimen of fruit and vegetables from our neighboring orchards and gardens. Not alone are they valued for their fine display of the unexcelled products of our soils, but as a significant evidence of the spirit of co-operation that exists between the several communities in this southern Oregon 'Garden of the Gods,' a spirit which Medford and her citizens will welcome an opportunity to reciprocate."

LADY WHO RAN FOR PRESIDENT INJURED

WASHINGTON, June 25.—Miss Helva A. Lockwood, the only woman who ever ran for president of the United States, fell in her office here today and suffered a broken arm and shoulder. Miss Lockwood is 84 years old, but her physicians stated she would recover unless complications set in.

M'CURDY LANDS RECORD

FISH WILLIAMSON RECORD

(Klamath Northwestern)

R. H. McCurdy holds the championship for landing the biggest trout caught out of the Williamson River at the Silvius summer resort, on the Klamath Indian Reservation, this season. With J. F. Morrill, Mr. McCurdy has been at this famous fishing resort for several days, enjoying the splendid fishing to be had. Yesterday morning they went out on the river with their tackle intending to catch a last mess to bring to Klamath Falls, for a fine feed for breakfast this morning. They had made several successful casts and pulled in a number of beauties when Mr. McCurdy's fly was nabbed by a monster trout and before he hardly realized what was happening the line on his reel was being yanked out at the rate of about forty yards per second, by what he believed for a time to be a whale.

FOR RENT—FURNISHED ROOMS

FOR RENT—Rooms, \$2.00 per week, free baths, meals 25c, family style. The Coleman, 1005 W. Main. 103
