

WILSON REFUSES FEDERAL TROOPS FOR MONTANA

WASHINGTON, June 29.—President Wilson will take no action in the strike situation at Butte, Montana, pending further developments.

BUTTE, Mont., June 29.—Officers of the Butte local number one Western Federation of Miners were expected to be reopened here today in a room in an office building.

The tense situation caused by the recent fight of the metal miners still continues. Since the last riot during which President Moyer of the federation fled for safety no efforts have been made by any organization to bring about peace among the miners' union.

Each faction marked time Sunday. It was announced today that 2532 men had signed the rolls of the new union which is to be free from jurisdiction of the Western Federation of Miners.

Serious charges that the police have been inactive and that Butte property is unprotected have been made. Up to last Thursday night no arrest for rioting had been made.

At the meeting of the Silver Bow Trades Council held Saturday night it was decided not to take action in the fight until after the conference called by President Charles H. Moyer of the Western Federation of Miners has announced its decision.

RUSSIAN ANIMOSITY TO AUSTRIA DISPLAYED

ST. BLUE TO FIGHT BUBONIC PLAGUE AT NEW ORLEANS

WASHINGTON, June 29.—Surgeon General Blue of the public health service will go to New Orleans to take charge of the campaign against bubonic plague, which has appeared there. One death already has been recorded.

After receipt of telegrams today from Oscar Dowling, president of the Louisiana board of health, the treasury department ordered the surgeon general to take charge. Dowling reported immediately bacteriological confirmation of two cases. The public health service, however, will make its own examination.

Surgeon General Blue said today neither the city of New Orleans nor the territory surrounding was in any danger, but that it was advisable that the federal government take sharp measures.

Apparatus for rat catching and fumigation are being sent to New Orleans and a corps of experts on plague eradication including Surgeon Creel of the public health service, will carry out the surgeon general's plans.

Three suspicious cases have been discovered in Santiago, Cuba, and infections continue to be reported from Havana. No new deaths have been reported from there.

With infections being reported from ports along the Spanish main, public health officials are setting in motion all available machinery to prevent its introduction into seaboard cities of the United States.
