LOSING YOUR HAIR?

Read What a Herpicide Enthusiast Says

You are becoming bald. The hair is getting thin on the top of your head and unless you take my advice you will, before long, be as hairless as a croquet ball. Remember too that chronic baldness is incurable. It is all due to dandruff. I can tell, because you always have dandruff flakes on your coat collar. Besides being an indication of impending baldness, it also suggests untidiness.

Irrigates the Blood Knocks Rheumatism

A Remedy That Flushes the Blood from Head to Foot.

To get rid of rheumatism requires that the blood be completely flushed—not a mere makeshift as by salts and pain killers. The long record of S. S. S. is important to know. It has found its way into every section of the nation. It is the most widely used and most widely talked of remedy there is for all blood troubles. And it is a known fact that rheumatism is primarily a blood trouble.

It is conceded by the clearest students of the subject that rheumatism is caused in most cases by an acid condition of the blood and aggravated by the remedies commonly used for relief. In other cases rheumatism is the result of nerve depression; in still others it is the effect of some vitiated blood condition, having been treated with mercury, iodides, arsenic, and other poisonous mineral drugs.

The recoveries of all these types of rheumatism by the use of S. S. S. is a wonderful tribute to the natural efficacy of this remarkable medicine, for it is accumulated just as naturally, just as specifically, and just as well obtained as the most acceptable, most palatable and most readily digested food. Do not fail to get a bottle of S. S. S. today, but insist upon S. S. S. Don't accept a substitute. You will be astonished at the results. If your rheumatism is of such a nature that you would like to consult a specialist, confidentially, write to the Medical Dept., The Swift Specific Co., 538 Swift Bldg., Adams, Ga.
