

SEEK MOTIVE OF MURDER MYSTERY OF DOCTOR'S OFFICE

FREEMONT, N. Y., July 1.—Police and county authorities are seeking today a motive for the murder of Mrs. William Bailey, wife of William Bailey of Hempstead, in the office of Dr. Edward Carman, William Bailey, husband of the woman is a hat manufacturer in Brooklyn. He was surprised to learn that his wife had been a patient of Dr. Carman and said so far as he knew, she had no enemies. Dr. Carman, too, told the authorities that he knew of no cause for the crime, or reason to believe the shot was intended for him.

Mrs. Bailey was shot through the heart.

According to Dr. Carman, she arrived at his office, which is in his home, at 7:30 o'clock last night. An hour later, he said, she was preparing to leave when a window pane was broken, a man's hand holding a revolver, thrust in and the shot fired that ended her life.

Detectives found that the window through which Dr. Carman said the shot had been fired was covered by a wire screen, which was on hinges and could be only opened from the inside.

Dr. Carman said today Mrs. Bailey's visit to his office last night was her first and that he had not been acquainted with her before that time.

Two men patients, waiting in the physician's outer office when Mrs. Bailey was shot, said they heard no noise until they were startled by the report of a pistol. When they entered the consultation room Mrs. Bailey was dead and they helped Dr. Carman carry her body to a couch.

So many persons had trampled the grass outside the windows of the doctor's office that bloodhounds brought to the scene today proved useless.

WILLIAMSON, W. Va., July 1.—Miners worked with feverish energy today digging a shaft into the workings of Mine No. 1 of the Sycamore Coal company, near here, in the hope of reaching five men who were cut off when fire broke out last midnight.

The throng surrounded and realized the hope was forlorn but the men under the direction of a mine inspector and their bosses, continued to dig. Dense volumes of smoke poured from the openings, and it was feared the fire was spreading.

Butter smokes at 329 degrees. Lard at 400 degrees.

You can heat Crisco to 455 degrees and it will not smoke.

Smokeless Frying!

Frying with Crisco means a sweet, smokeless kitchen. For Crisco does not smoke at frying temperature. The potatoes and doughnuts, etc., become almost instantly a crisp brown. There is no "lardy" taste.

Crisco costs about the same per net pound as the best pail lard.

There is no loss through rancidity, as Crisco stays fresh and pure indefinitely in ordinary kitchen temperature.

Foods fried in Crisco absorb less, because they fry so fast and brown so readily.

The same Crisco may be used for all frying. You can fry fish, onions, doughnuts, etc., all in the same Crisco. Merely strain out food particles after each frying. This is a further saving.
