

PORTLAND BOOSTS TRI-STATE ROADS MEET AT MEDFORD

Judge W. M. Colvig sends the following circular letter being sent broadcast by the Portland Commercial club:

"Portland, Or., July 15.

"Members: "Are you going to Medford, July 27-28 (Monday and Tuesday) to attend the Tri-State Good Roads meeting?"

"Some are going by rail and some by automobile; many will go on up to Crater lake and return via Klamath Falls and eastern Oregon.

"Jackson county is leading the state in local improvement of through highways; you ought to see what they are doing. "Motorists coming up in 1915 through California on the Pacific highway will glide over the Siskiyou and through the magnificent Rogue River valley on roads as good as California's best, right here in Oregon.

Go to the Medford meeting and give to the people of Jackson county the encouragement they so richly deserve.

"On inclosed card advise size of your party, and whether you desire hotel reservations.

"Yours cordially, "PORTLAND COMMERCIAL CLUB, EXECUTIVE COMMITTEE.

"C. C. Chapman, Manager."

"To the Editor:

"For your information I inclose you circular which I received this morning. I am going to be there—and I predict a large crowd from Portland. Many are going by auto. Keep in touch with and rush the movement. I am telling the members of the club about Rogue river fishing, scenic wonders of Crater lake, etc. Get out a leaflet touched up in rainbow hues. Speak of the snow line on the rim of the lake. The cool and vivifying air and water of the mountains, the great interminable forests where rolls the Rogue, where naught is heard save the scream of the panther, the howl of the wolf, the growl of the grizzly—and its own spashing. Any man could write poetry amid such scenes of nature. Tell them of Medford—the gateway to this region of the gods, its splendid caravansaries, its progressive people, etc.

"Strike while the weather is hot. "WM. M. COLVIG."

TRAINMEN AGREE TO FEDERAL MEDIATION

CHICAGO, July 18.—The committee of the general managers of the western roads and the chiefs of the Brotherhoods of Railway Engineers and Firemen spent today in preparation to submit their wage dispute to the federal board of mediation hastening here from Washington to open sessions Monday.

Acceptance by the men's leaders late yesterday of the federal offer of mediation, after they had declined to consider it, alleging that the roads had not been bound in the past by arbitration courts' decision, aroused hopes that the wide differences might be adjusted.

TRUST PREPARED TO RAISE DIAMOND PRICES

NEW YORK, July 18.—Notices of the signing of an agreement between three of the largest diamond producing companies, controlling about 98 per cent of the world's supply, to curtail their yearly output, have been received by diamond brokers here. The effect of the agreement, one broker said today, would be to put an end to competition between the three companies, with the result that prices would be materially increased.

ROSEBURG TO PLAY GOLD HILL TEAM

GOLD HILL, Ore., July 18.—The Roseburg regulars, strengthened with several speedy Willamette valley players, will meet the Beaver-Portland Cement company team, of this city, on the local diamond Sunday. A spirited contest is anticipated by fans as the Gold Hill team will also be strongly recruited for the game. On the Roseburg grounds last Sunday the locals won by a score of 5 to 2, and the rivalry is sufficiently keen to safely insure fast ball.

EXPLAINS LAW OF BRAIN BUILDING AT CHAUTAUQUA

ASHLAND, July 18.—Mrs. Louise Francis Spaller, of Chicago, an extensive traveller throughout America and abroad, occupied the Round Table hour on Medford Day at the Southern Oregon Chautauqua assembly and was greeted with the largest audience of the season. Her subject was, "Brain and Character Building," the facts presented were gathered by her in a public work of education and service extending over 19 years.

Mrs. Spaller's address was practical was told with the freshness and earnestness of one reciting facts gained by direct, personal contact, and was especially interesting to parents, teachers and pastors.

She explained the law of brain building and showed how any stimulus to the brain finds an outward expression. In education stimulus awakens the emotional centers of the brain, these in turn awaken the will which seeks expression in some act, such as drafting, building, etc. In all work along moral and religious lines the general trend is simply to present stimuli that awaken the emotions and nothing is presented to stir the will and quicken it to express the emotionality in some beneficial or helpful act. This the speaker deemed as one of our greatest brain leaks of the present day and explains why so many good things said by ministers, and reformers are wasted as they awaken only the emotions and find outward expression in the same instead of in deeds of honesty, conscience, and service to the needy.

Helpful suggestions were given telling parents and teachers how to train and educate the character building brain centers so that stimuli of a moral nature would be expressed in right conduct.

Many illustrations were given of building brain centers, some of them interesting experiments of Prof. Elmer Gates on animals and the defective, also the method employed in educating the feeble-minded, and the speaker's personal association with Helen Keller and her instructor. What a suggestion is and its potentiality in character building was given and practical lessons given of its application in prefixing the character and over-coming undesirable traits. Following this, many specific directions were given for strengthening and developing different brain centers. The address climaxed with an appeal on the power of love as the key note of power in saving a life, a people or a nation.

BRITISH HOME FLEET HOLDS ANNUAL REVIEW

SPITHEAD, England, July 18.—The British home fleet, comprising almost the entire navy, today gathered in the roads here for its annual review by King George, commander-in-chief. His majesty, however, was detained in London by the political situation. It was announced that he expected to spend a couple of days with the warships before their dispersal.

The program of the review comprised flights of aeroplanes and airships attached to the royal navy flying corps. More than 400 craft of all types are assembled, all fully equipped and manned, numbers of the naval reserves having been called up for service.

GUARD OHIO MINES AGAINST I. W. W. BOMBS

BELLAIRE, O., July 18.—Sheriff John Anderson and fifty deputies were busy today guarding mining properties on rumors that Industrial Workers of the World had threatened to blow them up. No arrests were made. The sheriff and his men made the rounds of the mines in motor cars.

The opinion was expressed here today that Sheriff Anderson would have difficulty in following the advice of Governor Cox and swear in 300 deputies. Many citizens already have declared they will not serve if called.

MILITANT LEADER AGAIN OUT OF JAIL

LONDON, July 18.—Mrs. Emmeline Pankhurst, the militant suffragette leader, was again released from Holloway jail today.

LOUISE GRASSLER, SUPPORTING GUY BATES POST IN "OMAR, THE TENTMAKER," AT THE PAGE AUGUST

Critics of "Omar, the Tentmaker," say that it eclipses even "The Bird of Paradise" in the rich splendor of its settings and "Kismet" in the ingenuity of its stage devices. A fortune has been spent upon the scenes of gorgeous oriental coloring and design which follow one another, and cleverness of a high order is manifested in the management of such points as the passing of Omar's soul from his body while he is unconscious in the stocks, and in the second, and a remarkable and very unusual bit of staging in the third, giving the luckless clay of the potter and a sort of debate with the Jars.

TO ARMS! TO ARMS! IS CLARION CALL OF COURT HALL

To the People of Medford: Get busy now. We are going to petition the council to place the city engineer in charge of the water department.

A house to house campaign will be made with this petition, and it is safe to say that four-fifths of the voters of Medford will sign it. With such a petition the present mayor and council may recognize the people's rights.

The city engineer can easily get employees who are not insulters of women. Men can be hired who can look after the best interests of the city, yet show judgment, consideration and courtesy to the taxpayers.

Hundreds of phone and personal calls have come to me since I have taken up this fight for the people of Medford. It is simply astounding the way the people have been treated. Are you going to keep on submitting to insults? I for one will not, and any taxpayer or voter with a spark of American womanhood or manhood will not.

COURT HALL.

CHANGE PLANS FOR FINALS IN DAVIS CUP MATCHES

SEABRIGHT, N. J., July 18.—The plans of the Davis tennis cup committee for the finals of the test matches were changed today. Maurice E. McLoughlin and Thomas C. Pundy, the national champions, will meet Karl H. Behr and T. R. Pell, middle states winners, this afternoon in the final of the doubles.

R. Norris Williams II, the young Davis cup player, will meet T. R. Pell, holder of the singles trophy, tomorrow in the challenge matches.

Patronize Home By smoking Mt. Pitt, the best cigar on the market.

HERE ARE A FEW OF MY BARGAINS:

- A good lot, well located, for \$80. Six-room house and two fine lots, close in, \$900. 120-acre stock and timber ranch, 8 miles from Medford, with \$1500 worth of personal property, all for \$3500. 160-acre stock ranch on Rogue river, with 50 head of cattle, at a rare bargain. 160-acre homestead relinquishment, 3 miles from Ashland, for less than cost of house on it. 10 acres of fine 9-year-old orchard near Medford, \$3000. Other good bargains in orchard and farm lands, city property and personal property of all kinds. I now have four span of good mules for sale at right prices. And I have wagons, harness, buggies, horses, pumps, windmill and a complete set of household furniture at money-saving prices.

IF YOU DON'T SEE WHAT YOU WANT, ASK FOR IT.

PERKINS BOOSTS RAILROAD FROM ROSEBURG TO SEA

MARSHFIELD, July 18.—"The railroad which will connect Roseburg with Coos Bay is now assured; it is just a matter of following out the details," said J. W. Perkins, chairman of the railroad commission of Roseburg. "We have men behind this project that will make it a success. There is absolutely no chance for it to be otherwise.

"More than 80 per cent of the people of Roseburg are enthusiastically boosting the project, and some of them are talking of bonding to the extent of \$500,000 instead of \$300,000. The railroad commission as a body favors the larger amount, and personally, I think it will be favored generally."

Among the men who are behind the proposition, as named by Mr. Perkins, are A. C. Marsters, president of the Roseburg National bank; H. H. Stapleton, cashier of the Douglas National bank; W. H. Fisher, cashier of the First Trust & Savings bank; R. W. Strong, president of the Umpqua Valley bank; Lee Wimberly, publisher and editor of the Roseburg Review; Carl D. Shoemaker of the Roseburg News; Hon. Binger Hermann; A. J. Lilburn, merchant; W. H. Richardson, capitalist, and J. W. Perkins, chairman of the commission.

Perkins is here at this time in the interest of the oil project, which he and E. M. Andrews of Medford are promoting. Perkins said in that connection that all that is needed is the leases from property holders on a reasonable basis. Then he said drills will be put into operation. The field in which he and Mr. Andrews propose to work is located between here and Myrtle Point and is about six miles wide and twenty miles long.

Perkins and Andrews will be in the city for two or three days. They have taken a number of local business men into their confidence and say they are gratified at the support which is assured them.

Mothers Tell of Mother's Friend

Experience is or should be our best teacher. Women who have observed the highest and noblest of all sacrifices, the struggle for the life of others, should have a better idea of helpful influence than those who theorize from observation. At any rate when a prospective grandmother urges her daughter to do as she did—to use "Mother's Friend," there is ample reason to believe it the right kind of advice. Its purpose is to furnish pliancy to the muscles, to take away the strain on the cords and ligaments, to relieve the tension of nerves and tendons so apt to provoke or aggravate nausea, morning sickness, twittings of the limbs and so on. It is applied externally. Although, in the nature of things, a woman would use "Mother's Friend" but rarely, yet so effective has it been found that this splendid remedy is on sale in most drug stores throughout the United States. It has been prepared by Bradfield Regulator Co., 306 Lamar Bldg., Atlanta, Ga., and advertised by us for over twenty years. Ask at the drug store for a bottle of "Mother's Friend." It is worth while.

The Popular Drink RITWAY COFFEE

It's Roasted Daily in Medford. It's Blended in Medford. It's the best in Medford. Why not use Medford Coffee?

If you expect to build up your town, use home products. Ask your grocer and insist on his sending you

Advertisement for Hubbard Brothers featuring an image of a thresher and text: "Your Farm Needs this Outfit. The combination of a Sterling thresher with an I H C gasoline engine, both mounted on one truck, is one of the biggest expense-reducing and labor-saving combinations ever brought to your attention. With this outfit, you can do your threshing practically alone, so little help is required. You can also do small jobs for your neighbors and in this way pay for the outfit. When threshing is over, you can dismount the thresher and mount a saw in its place. Or, you can belt the 4 or 6-horse power engine to a pump, corn sheller, grinder, etc., in fact, use the engine for a large variety of purposes. The Sterling thresher is so practical and easy to handle that a boy can attend to all duties connected with the threshing operation. IT WILL THRESH Wheat, Rye, Oats, Barley, Buckwheat, Kaffir Corn, Sorghum, Flax, Grass Seed, Beans, Cowpeas, Soy Beans and Peas. The Sterling is built with the following sizes of cylinder and separator respectively: 21 x 28", 21 x 33", 26 x 33" and 30 x 37". It is supplied unmounted; mounted on an individual truck, except 21 x 28" and 21 x 33"; or mounted on a combination engine-thresher truck, except 26 x 33" and 30 x 37" sizes. Get a special Sterling thresher catalogue for full particulars. HUBBARD BROTHERS"
