

HINDUS SAIL FOR SHANGHAI UNABLE TO ENTER CANADA

VANCOUVER, B. C., July 23.—The Japanese steamer Komagata Maru with her 352 Sikhs aboard, sailed at 5:30 o'clock this morning for Shanghai. After a night of threatened trouble the departure of the Komagata was accomplished very peacefully. The vessel was accompanied by the Candania Rainbow, which will escort the Japanese vessel to a point 76 miles west of Vancouver.

The Komagata arrived here exactly two months ago. Her coming had been announced by cable from Shanghai, and every effort to obtain publicity for the Komagata's errand was made. It is said the promoters of the expedition are pleased with the publicity the Komagata expedition has received here, in Great Britain and in India and that the rejection of the Sikhs, most of whom are said to be former soldiers in the British army, will be made much of in the agitation for the overthrow of British rule in India.

The steamer was chartered from her Japanese owners by Gurdit Singh, a former contractor or Lahore, a former British soldier, and a man of wealth, to carry 345 Sikhs to Vancouver to demand admission as British subjects. On arrival at Victoria the men were detained by the health officers, who delayed the medical examination while the British Columbia government and the Dominion government carried on negotiations.

PLAGUE SCARE HARD UPON ALL VERMIN

NEW ORLEANS, La., July 23.—Four snakes, eighteen tarantulas, seventy rats, enough roaches to almost fill a barrel and bedbugs galore formed part of the cargo of a freight vessel sailing tropical seas and which was fumigated here yesterday, in connection with the fight against bubonic plague. Two of the snakes were boa constrictors more than five feet long. The others were of a harmless Central American variety.

WANTED, MAN UNDER SIXTY FOR SUPREME BENCH

WASHINGTON, July 23.—President Wilson wants to find a man under sixty years to fill the vacancy on the supreme court bench, caused by the death of Associate Justice Lurton, although a man slightly older would not be rejected.

When Senators Simmons and Overman today presented the name of Justice Walter Clark of the North Carolina supreme court, who is 68 years old, the president outlined his ideas. So far as is known, the president has made no definite selection from the many names presented. Secretary Lane and Attorney General McReynolds are still said to be foremost.

Governor Dunne of Illinois was indorsed for the vacancy in the supreme court today by Senator Lewis, who called on President Wilson.

Representative Dickinson of Missouri presented a telegram from Governor Major and indorsements from the entire Missouri delegation in congress and many lawyers in his state, supporting W. W. Graves of the Missouri supreme court.

ARMY WORM INVADES NEW YORK SUBURBS

WASHINGTON, July 23.—The army worm has descended upon New York, doing heavy damage to lawns in Harlem. Within the last two days the worm extended its operations to parts of Brooklyn and destroyed lawns on many large estates. In a single night the worms did considerable damage to plants and flowers. College Point, Whitestone, Jamaica and Newtown have been invaded. Appeals have been sent to Washington asking what methods can be used to kill them.

Thousands of the pests made their appearance yesterday in Bayonne, N. J., and other towns, and did much damage to lawns, flowers and vegetable gardens, and last night many persons were fighting the worms by firelight.

MORE FACTORIES WITH \$100 A DAY PAYROLL NEEDED

"If Medford had a dozen institutions like the Medford Printing company," said a prominent merchant last evening, "the merchants would soon note the difference in the increased payroll in the city. I presume you must pay out \$200 or \$400 a week, judging by the number of people you employ."

"That shows that you have only guessed at half the truth," said the talkative employe. "Would you believe that the daily payroll of a plant like theirs runs over \$100 per day?"

"Well I would not think it would go that high, but then you probably know what you are talking about," said the merchant.

"The payroll alone runs in the neighborhood of that amount," went on the garrulous printer. "On top of that add the rent, power, light, and thousand and one little incidentals that are necessary to a printing plant and you will see that the amount of money paid out each year runs into many thousands. Why don't you know that there is not another such plant in the entire southern part of Oregon, and few in the state. If all the printing needed and used in Medford was bought here at home they

would have to put on more men, get bigger quarters and pay more rent, and so on. The money paid them for printing is about three-fourths of it swallowed up in wages and these same wages would be spent with our merchants. Get the idea?"

The merchant had not realized it. He said so. He had no idea of the expense of conducting a plant like the one maintained in Medford by the firm mentioned above. When he got to talking about the range of work done at home he found that there was nothing in the printing line that

could not be obtained here at home where the merchants all get a share of that famous old home dollar. The more printing done the bigger the pay roll. You don't have to go out of town for a single item in your list of printing matter, be it color or plain work.

The next time you think of printing think Medford Printing company, phone 75.

BLEASE'S ENEMY SHOT BY STRANGER

COLUMBIA, S. C., July 23.—Dr. J. H. McIntosh, who has figured in a political exchange with Governor Cole Blease, was shot today by an unidentified assailant. The wound is not dangerous.

Bleuse had announced that when

he spoke in Columbia today he would call Dr. McIntosh to the platform to confront him with certain statements. Dr. McIntosh says his assailant, after shooting, made off, shouting, "Now, you won't bother Cole."

Bloodhounds have failed to pick up a trail, and the city and surrounding country have been thrown into a commotion over the affair.

At the capital a statement was issued saying Bleuse regretted the affair and that the governor's office would lend all possible aid for the capture of the assailant.
