

GREAT GAIN IN FRUIT SHIPMENTS FROM CALIFORNIA

SACRAMENTO, July 25.—Fruit shipments to the eastern markets made what is probably the greatest gain for one season over another last night, when the total shipment, according to reports issued by the California Fruit Distributors, showed a gain of 1003 carloads over the shipments of last year for the same time.

The gross value of a carload is estimated at \$1200, which would make the value of the increase alone \$1,203,600.

This great gain is due to a number of things, but principally, say fruit men, to the early season and abundant crop. The total cars shipped in all varieties up to the present is 3940½, as against 2937½ for the same period last year.

The last shipment sent east was 166 cars, as follows: Peaches, 84½; plums, 21¾; pears, 56¾; grapes, 3, and miscellaneous, ¼ car.

CROP CONDITIONS IN FOREIGN LANDS

Gay Conner, local agent for Simons, Shuttleworth & Co., has received the following report of fruit conditions in Europe for July, 1914:

England

Pears, good crop, but being somewhat modified by present weather conditions.

Apples, generally a half crop, except in the county of Kent, which at present may be taken as one-half to two-thirds crop.

France

Bartlett's, generally heavy, other varieties medium. Apples, good crop.

Germany, half crop pears, good crop apples.

Belgium, half crop pears, good crop apples.

Holland, under half crop pears, under half crop apples.

Portugal, under half crop pears, small crop apples.

TO EXPORT CATTLE OWNED BY TERRAZAS

EL PASO, Texas, July 25.—A concession to export from Chihuahua state all the cattle owned by Luis Terrazas, senior, was consummated with General Villa, today, according to an announcement by J. E. Garrett of Corpus Christi, Texas. It was said the first shipment would total approximately 200,000 head, and that most of the cattle would be marketed at Kansas City, Fort Worth and Chicago, the remainder being taken to ranges in southwestern United States.

Close Mexican observers here predicted that this deal ultimately would result in the release of Luis Terrazas, junior, who has been held a prisoner by General Villa on account of his alleged Huerta sympathies.

PROHIBITION ISSUE TO LIVE IN TEXAS

DALLAS, Tex., July 25.—Whether statewide prohibition shall be voted on by Texas citizens in the summer of 1915 and whether the next governor shall be a prohibitionist or an anti-prohibitionist, were the main issues in today's democratic state primary election. The primary was to nominate eighteen candidates for congress, candidates for the legislature and state and county officials from governor down. In all the important offices, nomination today was equivalent to election. This was a "white" primary, negroes not being qualified.

WAR PANIC SENDS WHEAT SKYWARD

CHICAGO, July 25.—War panic seized the wheat market today, but only for a few minutes. In some cases nearly 3 cents per bushel advance was paid for wheat, as compared with the night before. The great bulk of the trading, however, was at a rise of not to exceed ½ to 1½.

STOCK MARKET SHOWS GAINS AFTER SEVERE SLUMP

NEW YORK, July 25.—The foreign situation was again a highly unsettling factor in the local stock market, which opened with losses of 1 to 2½ points in response to London's depressed level. Substantial support soon brought about a complete reversal, with some material gains. Another gold shipment to Paris was attended by a further advance in exchange. The closing was irregular.

Europe again was the primary factor in today's local market operations, the semi-panic conditions on all foreign exchanges, finding direct reflection in numerous severe early recessions here. Canadian Pacific was most seriously affected, losing 2½ at the outset on a sale of 1500 shares, while Northern Pacific fell almost as much. Steel also was extensively dealt in, large blocks changing hands at one point decline. Practically all the international list registered losses of 1 to 2 points, with a number of new low records. Business in the early dealings was heavier than at any previous sessions of the week, being augmented by foreign offerings. A rally before the end of the first half hour materially reduced initial declines and the market closed strong with many gains.

The statement of the actual condition of clearing house banks and trusts for the week shows that they hold \$613,417,750 reserve in excess of legal requirements. This is an increase of \$466,233,000 from last week.

BONANZA BULLETIN GIVES UP GHOST

Killed by the indifference of a community it has fought for years, the Bonanza Bulletin, one of the leading newspapers of Klamath county, gives up the ghost in the following description of the tragedy labeled "the last straw":

With this issue we "surrender the ghost" and give up a thing that has been keeping us on the wrong side of the ledger for the past six months or more. No one but that has been through the mill as we have can conceive the worry and time it consumes to run a newspaper on "wind."

In July, 1906, we purchased the Bonanza Bulletin, from the former owner, J. F. Salcido, and for a while the public gave us good patronage. It is for to say how well we did our part in the matter of publishing a paper for your perusal. For some time the legal notices poured in to us from the land business and we made some money. This we put into material and buildings, improving the town, until we had one of the best equipped country newspaper plants in the southern part of the state.

On January 1, 1914, we sent out to those who had been using the paper in various ways, statements aggregating in the whole \$685.25. From this call we received about \$80, leaving the \$605.25 still in the future. Now on the heels of this came the misfortune of January 15 and wiped out the entire plant without a dollar of insurance, hence our eight years of labor was taken in less than one hour.

We rushed to the front and with the assistance of The Klamath Falls Northwestern have been trying to keep this sheet alive, but as we just said, having lost our all in the fire and not being a millionaire, it was impossible to keep our nose above water, hence we are compelled to take this step for the protection of maintenance for the wife and babies. We will now try to keep the "wolf from the door" in some other manner.

Thanking all my friends and patrons for the support they have given me in this my last struggle, I beg to remain, Respectfully,

J. O. HAMAKER, Editor.

Second Spray for Codling Moth. According to breeding records kept by Prof. F. C. Reimer of the local experiment station during the present season, the second application of spray for codling moth should begin immediately. Apples infested with larvae from the first brood were collected and kept in screened cages. The first moths from these appeared July 12th and six days later began laying eggs. The first "worms" from these eggs are due to appear about July 25th. The best spray is arsenate of lead at the rate of four pounds to 100 gallons of water. It should be applied as a very fine mist.

M. P. HENDERSON, Pathologist.

PORTLAND SENDS BIG DELEGATION TO TRI-STATE MEETING

Geo. E. Boos, secretary of the Pacific Coast Good Roads Association, has received the following letter from C. C. Chapman of the Portland Commercial club:

Dear Mr. Boos: Jackson county heads all the list in what it is doing for the state of Oregon in the construction of permanent through highways.

Portland is realizing this more and more, and if enthusiasm for Jackson county was the only feature in building up a delegation to attend your goods roads meeting July 27th you could expect us down there by the trainload.

Unfortunately for this excursion there happened to be so many demands for delegations at just the same time this summer that with the vacation season on us it is difficult for us to organize as large a delegation as we should like. You can feel sure, however, that Portland will be creditably represented. I enclose copy of the letter of announcement just sent to our members. As soon as our list is complete we will send you copy of same.

Please do not look for, or prepare for, any large number but we want you to realize that the more we can get to visit Medford the better satisfied we will be, and we will leave no stone unturned to advertise your convention.

Yours cordially, C. C. CHAPMAN.

SEEKING PEACE IN SAN DOMINGO

SANTO DOMINGO, July 25.—John Campbell White, American charge d'affaires, is endeavoring to obtain a further extension of the truce between the government forces and the rebels. In the meantime the government has accepted an offer arranged by Mr. White to receive a delegation from all the rebel groups in order to discuss the propositions they have to make. The government refuses, however, to treat with General Vidal, as it argues that he does not represent the revolution, but only a part of the south.

NEW BOOKS ADDED DRAMA LEAGUE SHELF

Two new books have been added to the Drama League shelf in the public library this week:

"Studies in Stage Craft," by Clayton Hamilton, a very attractive presentation of modern drama problems, containing chapters on the moving picture, Drama League work, and a most discriminating final chapter on the qualifications of a dramatic critic.

"Chitra," a drama by Tagore (Thakura) which commands interest not only by reason of its profound thought and clear style, but also from the fact that although it was written 25 years ago it might serve as an exposition of the principles of the most modern feminist.

Another play by Tagore, "The King of the Dark Chamber," together with an account of Tagore, may be found in The Drama, May number.

Choosing the Bride's Silver

It must be true in weight and fineness and be correct in pattern. It should bear the mark of a well-known maker and come from a store of character. It is something bought for a life-time to be filled in and amplified as the years go on. Let the advertising in this newspaper help you in your choice. Advertisers are daylight men. They make good on their promises and they use their advertising not merely to make sales but to build business. I carry the largest assortment of the Gorham Sterling Silver which has been recognized as the leading bride's silver. It has the largest silver factory in the world back of it.

HAITI FEDERALS GAIN UPPER HAND IN REVOLUTION

WASHINGTON, July 25.—Reports reaching the state department early today from diplomatic agents in Haiti were believed to indicate that the Haitian government has at last gained the upper hand of the revolutionists weakened and discouraged over their failure to overthrow President Zauror, the revolutionists appeared to realize the futility of further attempts. Officials here held out the hope that the Haitian government would now be able to restore order without American intervention.

While further developments in the situation were awaited, it was stated there would be no change in the navy department's preparations for the concentration of 1000 marines with in striking distance of the Haitian coast and that the war vessels now in those waters would remain there indefinitely. In the meantime diplomatic negotiations still were under way with a view to composing the differences between the contending elements in Haiti.

Decision as to what steps may be taken by the American government to force the restoration of peace both in Haiti and San Domingo had been deferred until next Tuesday.

DIED

QUISENBERRY—Janet Quisenberry, aged 3 years and 7 months, daughter of Mr. and Mrs. Walker F. Quisenberry, shortly after midnight, July 25, at the family residence on King street, from meningitis. She contracted the illness in Arizona a month ago and made a brave fight for life. Funeral services will be held at the Christian church, Sunday, July 26, at 2 o'clock, Rev. Tucker officiating. Interment in I. O. O. F. cemetery.

REPUBLICANS TO AID IN PASSING ANTI-TRUST BILLS

WASHINGTON, July 25.—Hopes for prompt disposition of the administration's anti-trust program and early adjournment of congress were renewed in the senate today as the result of republican senators having let it be known that they are as eager as the democrats to adjourn and go home. To that end the republicans, including Senator Smoot and Minority Leader Gallinger, declared they were to help the democrats to get the trust bills out of the way as soon as possible. They have determined to hold the democrats to their legislative program and will permit no business except trust legislation and conference reports to come up for discussion, and now home for adjournment of congress not later than September 1.

The declarations of republican senators surprised some of the democratic leaders who had been led to believe that the opposition proposed to filibuster on the trust bills and hold congress in session as long as possible in view of the fall campaign.

Your Farm Needs this Outfit

The combination of a Sterling thresher with an I H C gasoline engine, both mounted on one truck, is one of the biggest expense-reducing and labor-saving combinations ever brought to your attention. With this outfit, you can do your threshing practically alone, so little help is required. You can also do small jobs for your neighbors and in this way pay for the outfit. When threshing is over, you can dismount the thresher and mount a saw in its place. Or, you can belt the 4 or 6-horse power engine to a pump, corn sheller, grinder, etc., in fact, use the engine for a large variety of purposes.

The Sterling thresher is so practical and easy to handle that a boy can attend to all duties connected with the threshing operation.

IT WILL THRESH
Wheat, Rye, Oats, Barley, Buckwheat, Kaffir Corn, Sorghum, Flax, Grass Seed, Beans, Cowpeas, Soy Beans and Peanuts.
The Sterling is built with the following sizes of cylinder and separator respectively: 21 x 24", 21 x 33", 26 x 33" and 30 x 37". It is supplied unmounted; mounted on an individual truck, except 21 x 24" and 21 x 33"; or mounted on a combination engine-thresher truck, except 26 x 33" and 30 x 37" sizes. Get a special Sterling thresher catalogue for full particulars.
