The entire railroad system was utilized for the movement of troops' trains, the telegraph system was virtually monopolized for government business and a strict censorship was imposed.

Serbia has also mobilized her forces and had withdrawn the garrison of Belgrade, the capital, to the interior, as the chief city of Serbia occupied a position too vulnerable to be held. Every war office and admiralty in Europe was occupied in preparations for eventualities, even the smaller countries such as Holland, Belgium and Switzerland taking precautionary measures.
