\$160,000 PAID ON RAILROAD BONDS OF GRANTS PASS

(Grants Pass Courier)

Another installment on the purchase price of the railroad bond issue has just been received by the city from Keeler Bros., the Denver bond buying firm to which the issue was sold.

Under the contract the Keelers were to make monthly payments of \$40,000 until the entire issue had been taken, and with the payment just received there remains but a single other payment to complete the purchase.

Work has been delayed for a number of days upon the active construction of the railroad through the inability of the contractors to get angle irons and other supplies here, but a letter received from the shops says that the iron can come forward within a few days, so the rail laying can progress again by the end of the week.

The ties have all been distributed along the grade as far as the Applegate river, so that the completion of the line that far will require but a short time after the delayed materials arrive.

The bridge across the Applegate is ready for the deck, and this will be put in place as soon as the rails to the river from this city are laid so that the heavy bridge timbers can be hauled directly to the ground upon the cars.

The driving of the piling for the bridge was completed some days ago. Workmen have been busy the past few days putting a sheer boom in the river above the Applegate bridge to throw drift during high water away from the piers.

MAILS TO EUROPE MOVING REGULARLY

NEW YORK, Aug. 3.—Mails to Europe have moved regularly this far, according to a statement today by Postmaster Moran.

Axel Lundgren of the Blue Lodge district is in the city for a few days attending to business matters.

Restriction upon new currency is to be removed

WASHINGTON, Aug. 3.—Restrictions which limit the issue of currency under the Aldrich-Vreeland law to \$500,000,000 would be removed by an amendment to the banking act agreed on today by the senate and house banking committees.

As an amendment to a bill passed by the house Saturday removing other restrictions of the law in the present crisis, both houses of congress today are expected to leave the amount of the issue of such currency in the discretion of the secretary of the treasury.

The amendment would also extend the issuance of the currency to state banks and trust companies which have joined the new federal reserve system or agreed to do so.

GOVERNOR WEST HOME FROM EAST

SALEM, Ore., Aug. 3.—That Oregon is a more progressive state than any of those to the east which he visited, was the declaration of Governor West, who returned to Salem Friday after an absence of six weeks.

He said that Oregon was certainly in the forefront and had reason to be proud of what she had accomplished.

Governor West delivered lectures at Chautauquus and visited various penal institutions while away. One of the objects of his trip was to obtain suggestions for indoor work for the prisoners at the state penitentiary, but he said that he obtained none, for the Oregon institutions were conducted in a far superior way to those he visited in the east.

The governor denied that his mission to Washington, D. C., was in the interest of obtaining a political appointment, and declined to say what he intended doing when his term of office expired.

BUD ANDERSON WILL NEVER FIGHT AGAIN

(Grants Pass Courier)

Bud Anderson, the Northwestern welterweight, will never again be seen in the ring. Anderson is now in a hospital, where he recently had removed a kidney cancer, which had been in process of development for a year and a half.

The physicians state that though their patient will ultimately recover sufficiently to engage in some sort of work it is out of the question for him to talk of ever again engaging in another boxing contest.

System Awakens With Pure Blood

In Mind and Body the Change is Wonderful.

After the depression, the stagnation, the despair over some blood disorder, it is time to wake up to what S. S. S. has accomplished for you after a few days' use. It puts the nerves and blood in harmony; it arouses the cellular activity of the liver, kidneys, lungs, and other excretory organs to remove from the blood the body wastes that cause nearly all sickness.

This means that all decay, all breaking down of the tissues, is checked and repair work begins. S. S. S. has such influence on all local cells as to preserve their mutual welfare and afford a proper relative assistance to each other.

More attention is being given to catalytic medicine than ever before and S. S. S. is one of the highest achievements in this line.

For many years people relied upon mercury, iodine of potassium, arsenic cathartics and "drugs" as remedies for blood sickness, but now the pure, vegetable S. S. S. is their safeguard.

You can get S. S. S. in any drug store, but insist upon having it. The great Swift Laboratory is Atlanta, Ga., prepare this famous blood purifier, and you should take no chance by permitting anyone to recommend a substitute.

And if your blood condition is such that you would like to consult a specialist without charge, address Medical Dept., The Swift Specific Co., 512 Swift Bldg., Atlanta, Ga.

POOREST SEASON ON RECORD FOR FISHING

(Grants Pass Courier)

The figures of the Fishermen's Union at the close of the two months of activity show that this has been one of the slowest salmon seasons on record.

The total catch for the 61 days was 95,428 pounds, or about one-half that of last year. There are off years in the fish business, as in the apple business, but in the present case it is the result of very low warm water in the river.

In fact, it is stated that the river is lower this season than for many years past.

Along with the light run there also has been a slightly lower price than was obtained last year.

HUNDREDS OF WOMEN nowadays are entering the professions or business world and go to work day after day in bad health, afflicted with some female ailment, dragging one foot wearily after the other, working with one eye on the clock, and wishing for closing time to come.

Women in this condition should take Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. It has brought health and happiness to more women in America than any other remedy. Give it a trial.
