

GOLF CONTEST FOR OIJMET'S TITLE OPENS AT CHICAGO

CHICAGO, Aug. 18.—First shots in the national open golf championship, the twentieth tournament of the United States Golf association, were made today at the Midlothian Country club course.

Eighteen holes, the first qualifying round, were to be played today. The thirty-two players turning in the lowest scores will compete in the finale on Thursday and Friday with the remaining thirty-two players who will qualify tomorrow at eighteen holes.

With few exceptions, the field is thoroughly representative of the professional talent of Canada and the United States.

Only once in the history of the open tournament has an amateur succeeded in winning the title, that being last year, when Oijmet won at Brookline.

Oijmet finished the morning round in 74. He did not improve his putting, being short most of the time.

PATTERSON FINED \$50 FOR RUNNING AMUCK

Stewart Patterson, through Attorney Lincoln McCormack, pleaded guilty before Police Judge Gay this morning to violation of the city ordinance regulating automobiles and was fined \$50 and costs.

A warrant has been sworn out against Mose Barkdull on a charge of resisting an officer.

In addition to four automobiles damaged, a bicycle standing along the curb belonging to the messenger of the Hotel Medford was demolished when the Myers car was crushed.

There is universal mourning among owners of old cars because their machines were not smashed by Mr. Patterson, and any time the latter wants to repeat the performance he is assured of at least fifty ears to practice upon.

WHY?

It is my business to know the best buy in Jackson county and have it optioned at the lowest cash price. That best buy today is a 190 acre stock ranch, 100 acres loam soil, irrigated, now in grain and alfalfa.

This land lies between the Applegate river and the foot hills, all bottom land, best of range, most delightful climate, no snow or fog.

J. C. BARNES

CANADA PREPARES TO SEND TROOPS TO HELP BRITAIN

OTTAWA, Ont., Aug. 18.—With the opening of parliament this afternoon by the governor general, the Duke of Connaught, legislative sanction was asked to be for the military measures the government has taken in the emergency arising out of the European war and to provide for the unprecedented state of internal affairs in Canada, which the conflict may precipitate.

Party leaders are understood to have reached an understanding to facilitate the passage of such measures as were to be suggested in the governor general's speech from the throne.

These measures include four bills—one for financing the Canadian expeditionary forces and for carrying out home defenses; second, a currency bill to legalize the steps already taken to relieve the banks; third, to confer on the governor general all necessary power for meeting such situations as may arise during the war; fourth, to deal with revenue.

PARIS ACCEPTS WAR CONDITIONS

PARIS, Aug. 18, 11:15 a. m.—Paris is beginning to accept the conditions of living that have come into being since war was declared and in some respects life in the city is today more comfortable than it was during the first days of mobilization.

While there still is little movement on the streets after dark, conditions in this respect are improving. Some of the subway lines are now permitted to run up to 8:30 p. m., and the tramways up to 9 p. m.

In the daytime the streets of the capital are quieter; such tranquility has not been known before in years. The reason is that more than one-half of the vehicular traffic has disappeared.

The governor of the city has reiterated his instructions to the effect that no one may keep a stock of absinthe in his residence. Any one suspected of drinking absinthe in secret is liable to have his domicile searched.

GERMAN AEROPLANE DESTROYED BY RUSSIANS

PARIS, Aug. 18, 10:25 a. m.—A German aeroplane has been destroyed in Russia near Samno and four German aviation officers have been killed, according to an official announcement here today.

BRITISH ARMY LANDED

(Continued from Page 1)

nately that the flotilla of transports conveying the troops had finished the over-sea movement under escort of strong squadrons of warships.

The transportation of the soldiers lasted several days and during that time not a mention of the expedition was permitted to the newspapers here. Even now the strength of the expedition, the names of the regiments composing the contingents and the ports where they landed are not allowed to be made public.

It is known, however, that a large proportion of the best troops of the British regular army are now on continental soil. The reception of the British soldiers in France was enthusiastic. The officers and men of the two armies fraternized warmly.

It is pointed out in authoritative circles here that the withdrawal of the Belgian government from Brussels to Antwerp may mean that the fighting in Belgium is drawing closer to the capital or it may be merely a precautionary measure.

Now that the three allied armies are working together on a coherent campaign scheme, the policy of secrecy has been extended to Belgium and as a fountain of picturesque news that country has suddenly dried up.

LONDON, Aug. 18, 11:45 a. m.—A dispatch from Brussels to Reuters' Agency today says that according to an official announcement by the Belgian war office, all the German troops recently fronting the Belgians have taken up strictly defensive entrenched positions.

South America Needs Coal

Eight South American countries from which statistics are available bought \$62,295,000 worth of coal in one year. Of this amount the United States sold only \$4,222,118 worth, while the sales of Great Britain, including Australia, amounted to \$52,226,562.

Among the South American countries having less demand for coal may be mentioned Uruguay whose imports amounted to \$2,647,179, no accurate statistics as to source being available.

The only obstacle to supplying the demands of Argentina, Brazil, Venezuela, and Colombia is lack of transportation facilities. Hitherto the length of the journey around the South American continent has practically prevented competition on the part of the United States producers in the markets of Chile, Peru, Ecuador, and Bolivia.

During the same year Brazil's import of coal amounted to \$29,679,052, of which \$17,589,284 worth came from the United Kingdom; \$2,788,601 worth from the United States and \$56,702 from Belgium.

Two Striking Things in European War

(From the Sacramento Bee.) A very striking point that stands out prominently in the confusion of the European war news is the unanimity with which the Jews of Russia are championing the Nation which has persecuted them—placing patriotism far above Judaism.

If ever a race in these modern days is justified in hatred of a Nation, the Jewish is in its bitterness toward the Kingdom of the Bear.

And yet when the blast of war resounds, Russian Jew joins Russian Gentile in standing for the protection and championship of Russia.

Great Britain's treatment of Ireland has been one long and, until recently, almost unbroken succession of cruel infamies. And yet in the house of commons only the other day, amid the wildest cheers, John Redmond declared Great Britain could remove every soldier from Ireland, and still safely entrust the interests of the British Empire in that island to Protestant Ulster on the north and to the Catholics of the south.

Wedding Bells

DODGE-JOHNSON—A very pretty wedding occurred at Ashland at the home of Mayor Johnson Sunday evening at 8 o'clock, when Miss Pearl Johnson and Mr. Fred Dodge were united in matrimony.

You Get the Best

There is when you smoke Gov. Johnson cigars and patronize home industries.
