WAR CALLS OFF BASEBALL INVASION

CHICAGO, Aug. 26.—A proposed European invasion this fall by baseball teams composed of stars of the American and National leagues has been abandoned, it was announced today by Ted Sullivan, director of the New York Nationals and Chicago Americans' world's tour last year, upon his return from London.

BAR WORLD NEWS FROM FATHERLAND

LONDON, Aug. 26, 3:15 p. m.—That the Germans are in almost utter ignorance of any news from the outside world or even of important domestic happenings is emphasized by a copy of the Berlin Tageblatt, dated August 22, which arrived here today by way of Holland.

BELGIANS HOLD SIX FORTS

ment was attended by heavy losses on both sides. Charleroi, which was in the center of the action, is an industrial mining district and in the slag heaps of the surrounding country the French found admirable vantage ground, while meanwhile in upper Alsace the Germans mounted mitrailleuses in every steeple of the town.

In the face of a withering fire from the German mitrailleuses the French again entered the unhappy town of Charleroi, and after furious fighting drove the Germans in confusion across the Sambrex river. The French entered a city littered with dead, battered by shell fire and devastated by every instrument of modern warfare.

Killed at the Table

"Outside a dilapidated inn could be seen the figure of a German officer, the head bowed over a basin of water and the lather of soap dry on the face. He had been shot while in the act of washing. Another officer lay across a table, his hand holding aloft a coffee cup which he was raising to his lips when death found him. In every part of the city houses were in flames or smouldering. Every cellar was occupied by terror-stricken inhabitants."

GRASS VALLEY, Cal., Aug. 26.—

Two hundred men are fighting fire in the Tahoe national forest, near the Nevada state line, and a call has been issued to all neighboring forest preserves for help. More than 1000 acres of timber are reported to have been ravaged.

GERMANS SLAY WOMEN, CHILDREN BELGIAN REPORT

WASHINGTON, Aug. 26.—E. Havenith, Belgian minister, presented today a protest at the state department against what he termed a "war against women and children"—the Zeppelin airship attack on Antwerp.

Ten persons were killed, the minister said, four of them women. Eight people were injured.

Secretary Bryan was reticent in discussing the attitude of the United States toward such protests and intimated that the state department could make no action.

Reported activity of Brand Whitlock, the American minister, in officially protesting to Germany, was denied by Secretary Bryan.

It is understood here that the German military leaders in the battles before Liege and other Belgian cities gave due notice of their intention to use airships, as is required by the fourth Hague convention.

CLAIM FRESH VICTORIES

(Continued from Page 1)

grenades were used, the Russians finally carrying the positions at the point of the bayonet. The Germans retreated toward Osterode, leaving behind many guns, machine guns, caissons and prisoners.

Defenses Along Istala

"Meanwhile the Vilna army is driving the first German army corps toward Danzig. The question now is whether the German forces can escape and how long the Russians will take in occupying the territory east of Vistula. They will find strong defenses of the Germans there. It is reported the Russians on Monday reached Marienburg, only 25 miles from Danzig.

"The Germans at Gumbinnen had all the advantage of numbers and position. It was a clear case of the best man winning. Russia was the best.

"The Russian losses include representatives of all the noblest families in the empire.

"The Grand Duke Dmitri Pavlovitch and the Princes John and Oleg Constantinovitch, who are subalterns in the horse guards, rode in the terrible charges which will forever be a glory to their regiment and the Russian army."

Purifies Blood With Telling Effect

Gives Conscious Evidence of Its Direct Action.

S. S. S., the famous blood purifier, almost talks as it sweeps its way through the circulation. Its action is so direct that very often in some forms of skin affliction the appearance of the eruptions changes overnight, the itch and redness are gone and recovery begins immediately.

As a matter of fact, there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment. That is why it regenerates the blood supply; why it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions.

And in regenerating the tissues S. S. S. has a rapid and positive antidotal effect upon all those irritating influences that cause rheumatism, sore throat, weak eyes, loss of weight, thin, pale cheeks, and that weariness of muscle and nerve that is generally experienced as spring fever. Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright and energetic, but you will be the picture of new life. S. S. S. is prepared only in the laboratory of The S. S. S. Co., 534 Swift Bldg., Atlanta, Ga. Who maintain a very efficient Medical Department, where all who have any blood disorder of a stubborn nature may write freely for advice and a special book of instruction. S. S. S. is sold everywhere by drug stores, department and general stores, but beware of all substitutes. Do not accept them.

One Man -9000 Horsepower

How the Largest Exclusive Tire Factory Keeps Cost Down and Keeps Quality Up

Firestone TIRES

Cost No More Than Average

Every facility for economical production that science has been able to produce has been brought to bear in the Firestone plant to give you Firestone quality at ordinary price. The power plant, where one man feeds the boilers that produce 9000 horsepower, is one example of Firestone scientific management.

Every man in this factory is a tire specialist, doing his work with skill and accuracy.

Here nothing but tires is made, and every ounce of steam power, every effort of the workmen, every bit of study and thought, are focused on the making of Firestone Tires. This concentration and specialization in production make it possible to give highest quality at a cost no greater than only average tires.
