With the re-opening of the deer season many hunting parties are preparing to leave for the hills. The forest service urges the utmost carefulness as to camp fires, etc., as there have been no rains and the forest fire situation is still menacing. Due to the unusual dryness many hunters have found it impossible to approach near to deer so that few goods bags have been obtained. Because of this the greatest exodus of hunters will not occur till after a rain.

ENGLISH DUKE HERO; SAVES COMRADE'S LIFE

LONDON, Sept. 3, 2:14 p. m.—The Duke of Westminster has distinguished himself in battle. No data on which to base a judgment of the general situation over the wide flung battle line in France is available. Five Thousand Killed
"The Austrians were signally defeated, losing 5000 killed and many prisoners, including one general, thirty-two guns, a standard and quantities of supplies.
"Apparently the progress of the southern Russian army from Podolia in Galicia has been a series of fights on an increasing scale until a third river, known as the Foul Lipa, was reached. The fight for the possession of the valley of the Foul Lipa was severe. The Austrians realized the strength of the Russians and had strongly fortified a naturally formidable position. This was carried after an obstinate fight. The Austrian force, a whole army corps, lost about half of its strength.
"These actions occupied the Russian left, her right still being in Russian territory. It is evident that all the actions were part of a concerted movement with the surrounding of Lemberg as its objective, thus dealing a death blow to the Austrian defence."
