NEW MANAGER AT PAGE THEATRE

Negotiations were completed today by Dr. F. C. Page, whereby A. H. McDonald of Portland will assume the management of the Page theater, Sunday, September 27. Vandeville secured from either the Pantages or Empress circuit will be presented with changes four times a week. These offerings will consist of the best single acts obtainable from these circuits. This will be welcome news to the vaudeville hungry theatergoers.

A force of men will be put at work the first of the week installing an indirect lighting system in the theater. By this method the theater will be lighted as bright as day at all times, not affecting the screen.

The prices of admission will be 15 cents for all seats downstairs, and a dime for the balcony. Five reels of pictures, besides the vaudeville act, will be given, the films including multiple reels of two or more parts, and licensed pictures. The first bill will probably include "A Million Bids," touted as one of the greatest of photoplays. There will be no change in the orchestra.

Mr. McDonald is the owner of theaters in Eugene and Portland and the Medford house will be operated in conjunction with these interests.

SEVENTY-TWO LIVES LOST

(Continued from Page 1)

their cabins, and many were still there when the boat went down."

The Buck had picked up a member of the crew named George Pullman before the Beaver arrived at the scene of the wreck. Farrell is a resident of Stockton, Cal.

One lifeboat was launched with 30 persons, including four women. I sank the instant it struck the water.

The scene of the wreckage into which the Beaver and Buck found themselves was at a point 30 miles northwest by north from Yaquina Headlight. The wreckage was of light lumber and far-reaching. The call the Beaver answered came from the steamship Buck at 12:30 o'clock midnight, saying that the Leggett had sunk, but gave no details, and had none when the two vessels later ranged alongside. They stood by for several hours and when they started north with their one passenger each, they did not outrun the flotsam from the Leggett until 6 o'clock this morning.

The first intimation of disaster reaching the Beaver, was a vague message from the Japanese warship Idzumo a bit earlier in the night and then officers if the Beaver were on the qui vive for the news which followed.

PORTER PRAISES PACIFIC HIGHWAY

That Jackson county is securing the finest paved highway on the coast is the opinion of Dr. E. H. Porter, who has returned with his family from an 1800-mile automobile trip through the Yosemite national park, Lake Tahoe and other California points of interest.

"We traveled over 1000 miles of cement highway in California," states the doctor. "This road is considerably rougher and a foot narrower than the highway being constructed in Jackson county. Furthermore, it is not as well constructed. I found that the proportion of cement used in the foundation was one to ten, as against one to seven here, and in the top surface, one to three, as against one to two here."

"I am fully convinced that Jackson county is building the finest cement highway on the coast, and second to none anywhere."

Joyful Anticipation of Motherhood

There is not to be a latent apprehension of distress to mar the joy of expectation. It is this is quite overcome by the advice of so many women to use "Mother's Friend." This is an external application designed to soothe the nerves, relax the muscles and thus so relieve the pressure reacting on the nerves, that the natural strain upon the cords and ligaments is not accompanied by those severe pains said to cause nausea, morning sickness and many local distresses.

Many people believe that those remedies which have stood the test of time, that have been put to every trial under the varying conditions of age, weight, general health, etc., may be safely relied upon. And judging by the fact that "Mother's Friend" has been in continuous use since our grandmothers' earlier years and is known throughout the United States it may be easily inferred that it is something that women gladly recommend.

"Mother's Friend" is prepared only in our own laboratory and is sold by druggists everywhere. Ask for a bottle to-day and write for a special book for expectant mothers. Address Bradfield Regulator Co., 207 Lamar Bldg., Atlanta, Ga.
