LEAVE NO FRENCH IS GERMAN ORDER

BORDEAUX, Sept. 25, 12.35 p. m.—The French foreign office today made the statement that General Stenger, commanding the fifty-third German infantry brigade, issued an order, of which the following is a translation:

"Make no prisoners. Shoot all who fall into your hands, singly or in groups, and dispatch the wounded, whether armed or unarmed, as the Germans must leave no Frenchmen living behind them."

NEWS FROM COUNTRY CORRESPONDENTS

EAGLE POINT EAGLETS.

By A. C. Howlett.

When I quit off writing my last consignment of Eaglelets I was just ready to tell about E. J. Lewis and Shorty Dodge spending the night of the 16th with us. They had been to Medford after a load of supplies and reached here just in time to spend the night.

William Compton, formerly a citizen of this place and once the owner of the now famous farm belonging to Dr. W. H. Nuding, is now traveling in the interest of a land company, making his headquarters in Los Angeles.

The farmers still continue to bring in their hogs for shipment to California, and they are going at a good price, from 7 to 8 cents per pound live weight. After they are all delivered I will try to give the sum total of all, and one thing we know is that Mr. Burdick is leaving quite a lot of money, for I saw him draw a check for one lot for the snug little sum of a little over \$800, while others received considerable more than that.

Last Saturday Mike Hanley, Frank Isaacs and a stronger whose name I did not learn were here for dinner on their way to the Hanley ranch, on the north fork of Little Butte creek, and while they were here Carl Biebert and his son Alvin and Mrs. Thompson of Lake Creek and later Orin Turrel, also of Lake Creek, came in for dinner.

Mrs. Charley Pruett, whose husband owns one of the best farms on Butte creek, was in town last Friday.

Misses Louisa Blass and Samantha Minter, who have been spending the summer out in Klamath county, returned a few days ago.

Miss Rose Nealon commenced her school in the Reese creek school district on the 14th inst.

Last Sunday we had at the Sunnyside for dinner Mr. and Mrs. Fred L. Heath, Mr. and Mrs. T. F. Holtz and family, Mr. and Mrs. J. V. McIntyre, our banker, and a stranger whose name I did not learn.

Sunday morning we had the regular services at the Baptist church, and at the close Rev. L. L. Simmons, the pastor, suggested that we all come to the evening services promptly at 7.30, and that he would try to get through with his services by 8 o'clock, and suggested that we all go to the opera house to hear Mr. Crandall, a noted lecturer that was sent in here by the west side of the controversy on the question of whether the state of Oregon shall be wet or dry or whether we shall vote for or against the dry amendment. So we all, about sixty, met at the church and he preached one of his best sermons in just twenty minutes, and at the close we all, I think every man, woman and child, went to hear the lecture, showing the wets in our little town that we are not afraid to hear their side of the question, as they seem to be. By the time we all arrived and were seated the house was pretty well filled, and by the time the speaker arrived, about 8.15, the seats were all filled and many were standing. He commenced by referring to the present European war and quoted a prophecy by Hon. Shaw, formerly one of President McKinley's cabinet, commented on that for quite a long time until he had got his audience interested and then he began to tell of the failure of prohibition in Kansas and denying the statements that the governors and statesmen of that state had published, but as he drew near the close of his lecture he seemed to lose his zeal and began to act as though he had no hopes of turning or changing the opinion of any of his audience. But he is a fine speaker and a man that is calculated to influence an audience if he has the right side of the question.

Monday morning I started for the industrial fair on Butte creek and spent the day there, and will tell about it in my next.

Regain the Mastery Over Blood Trouble

No Matter How Disheartening
You Can Overcome It.

Blood disorders are quickly checked by S. S. S., the famous blood purifier. It rushes into the blood and in three minutes has traversed the entire circulation. It penetrates to where the blood is made. It washes out those spots and places where stagnation has settled. It cleanses the membranes, drives irritation from the joints, fills the blood stream with antitoxin influence and from head to foot creates conditions that make for blood health. There are people in every community who know this to be true. They have used S. S. S. for severe forms of rheumatism, for indolent, ulcerated spots, for eruptive skin diseases, for any and all those bodily conditions caused by blood loaded with impurities. Being a pure product of Nature it can not hurt the stomach and has therefore been the refuge of a host of people misguided in their dilemma by first trying to those dangerous mercurial drugs which have claimed so many unfortunate. If the skin breaks out in a rash, if boils or other eruptions appear, if there are blood risings or any other indications of impure blood get a bottle of S. S. S. at once! But beware! Not every bottle is good. It is in doubt as to your trouble or you wish competent medical advice free, write to the medical department, The Swift Specific Co., 28 Swift Bldg., Atlanta, Ga. This department is known far and wide as one of the greatest of help to blood sufferers. But don't delay to get a bottle of S. S. S. today.

FRENCH DELAY IN AIDING BRITISH DUE TO TRAITOR'S ACT

NEW YORK, Sept. 25.—Another

version of the reason why the French delayed in coming to the support of the British when they were hard pressed by the Germans at Mons, was told to her friends in New York today by Miss Eva Gay of Norwood, Mass., a former Mount Holyoke College girl, who has been teaching school in Spain, and returned from England on the Olympic.

Miss Gay said that she had been

told by English friends, who had relatives connected with the British war office, that General Joffre, in response to the request of General French, the English commander, for reinforcements to extricate him from his dangerous position, entrusted orders for the dispatch of such reinforcements to a certain high French officer. When the execution of these orders was delayed an investigation was begun. It was known that the French officer had a German wife. His home in Paris was searched and therein were found military documents of a treasonable nature. The officer was immediately court-martialed, convicted and shot.

Miss Gay said that she had been told that the English authorities had refused to permit publication of the affair for the fear of its effect on the morale of the English troops.

For Congress

Fred Hollister

The reason the Courier asks voters to give Congressman Hawley's place to Fred Hollister of Coos county, is because Mr. Hawley is not making good—the same reason the Courier would let go of an incompetent printer and put another man in his place.

There isn't an individual or newspaper in this district that can ask for Mr. Hawley's return to congress on his record—for his record won't bear the strain.

During his past four years in congress he has not passed a bill—except private pension bills.

This of itself wouldn't do anything against him, perhaps, but during his term in congress he has come down the line with the big interests and standpatters on about everything they have tried to jimmy through the national legislature—and this office has his roll call record to prove it.

He has been the handy man to the big bunch to such an extent that such periodicals as LaFollette's magazine has held him up to the view of the people as a "Me, too," congressman.

Heretofore the Democrats have nominated a weak brother to run against Mr. Hawley, and made his return easy.

Whether this was misfortune or intent doesn't matter now.

But this year Mr. Hawley has a live one for an opponent—a man running against him who is going to beat him out.

More Business and Less Politics A Coast Man For A Coast Country

(Paid Adv.)

Fred Hollister of Coos Bay Is Every Ounce a Hustler and Doer

He is a progressive from the ground up a progressive for progressive Oregon. He believes this district has been overlooked in the Washington shuffle, and he wants a new deal.

He believes that a congressman who has served eight years and had 170 of his 175 bills killed, must have been asleep at the switch.

It is certain that Mr. Hawley has always been lame so far as Oregon has been concerned.

Supposed to be representing this state, a state which emphatically went on record for reduced tariff duties, Mr. Hawley took the stump in Massachusetts advocating a repeal of the present tariff laws and a return to protection duties.

There are no reasons for returning Mr. Hawley, and there are the best reasons for electing Mr. Hollister and having this state represented by a man who represents the people.

It's a joke, a burlesque for progressive Oregon, to return this Disciple of Joe Cannon.

We have timber to beat him and we will have correct representation in Mr. Hollister.

If voters of Clackamas county will use their heads and forget party, Mr. Hawley will be a once-waser November 3, and we will have a congressman in Washington who will not have to think whether he is representing Massachusetts or Oregon.—Oregon City Courier.
