ANTI TRUST BILL PLAYED BY REED WASHINGTON, Sept. 28.—Senator Reed opened his attack on the Clayton anti-trust bill conference report in the senate today, declaring that if passed in its present form it should be entitled: "An act to apologize to unlawful restraints and monopolies." He assailed the elimination of specific criminal penalties for unlawful price discrimination and exclusive contracts and the deletion of his amendment authorizing courts to sell property of convicted corporations. "If the allies," declared Senator Reed, "had attempted to stop the Germans with dough bullets, the soldiers of the kaiser would have taken Paris in twenty-four hours. So far as its anti-trust features are concerned, this is a dough bullet bill. Instead of 'Clayton anti-trust' that should be referred to as 'the conferees' capitulation.' It is a sort of a Hague propaganda promulgated under a white flag to the soothing melody of 'Peace on earth, good will toward the trusts.' Rockefeller, like another Richard, can declare: 'Now is the juncture of our discontentment made glorious summer by these conferees.'"

GERMAN WARSHIP TRIES TO MINE ENGLISH HARBOR NEW YORK, Sept. 28.—An unsuccessful attempt to mine the harbor at Bournemouth, England, said to have been made by a disguised German cruiser, which had on board 1000 German marines and enough explosives to blow up many warships, was reported today by Miss Margaret Daniels, a missionary of the Baptist Foreign Missionary society, on her arrival aboard the French liner Espagnole from Havre. The vessel, according to Miss Daniels, was disguised as a Dutch merchantman. The Dutch flag flying at the topmast aroused the suspicion of the British authorities, who had made arrangements with the Dutch that all their vessels entering English ports should fly the Dutch flag at half-mast. The ship was accordingly surrounded by torpedo boats, and a search revealed 1000 German marines hidden below decks. The marines were arrested and sent to a detention camp. Ignazio De La Barra, brother of the former provisional president of Mexico, was among the Espagnole's 205 passengers. He came from Monte Carlo. Gambling paraphernalia, he said, had been replaced with hospital beds and operating tables. CENSOR'S CURTAIN HIDES WAR NEWS LONDON, Sept. 28.—There has been a distinct falling off of war news emanating from the capitals of the belligerents, or which must pass through these capitals in reaching the United States. The censorship at London has been made much more severe, evidently in the interest of British strategy and this action has been reflected at Paris, resulting in abbreviated reports, official and unofficial, from France. From the start the censorship at Berlin has been rigid. At the present moment, the absence of detailed reports from the battle lines seem to indicate that momentous events are transpiring. MEXICAN ENVOY TO FRANCE QUILTS POST PARIS, Sept. 28, 4:10 p. m.—Francisco De La Barra, the Mexican minister to France, telegraphed his resignation to the constitutionalist government of Mexico several days ago, but up to the present time he has received no reply. In the meantime he continues to devote himself to the interests of Mexico. BELGIANS RESIST GERMAN ATTACKS PARIS, Sept. 28, 4:57 a. m.—A dispatch to the Petit Parisien from Amsterdam says violent fighting has occurred between the Germans and Belgians at Schooten, four miles east of Antwerp; at Ternonde, sixteen miles east of Ghent, and Hofstede, eighteen miles east of Ghent. In the latter locality the heavy German artillery became stuck in the mud and the Germans were obliged to retire before the attacks of the Belgians. It is confirmed, says the dispatch, that the Germans are fortifying Liege. SUPREME CLASH RAGES (Continued from page 1.) fronting them on the left were not from the German left, but were part of the forces detached after Charleroi and sent to East Prussia, but now brought back in haste. The general opinion is that the battle has reached the most critical, as well as the most violent phase and that the issue cannot be delayed much longer. RUSSIAN HORDE ENTERS HUNGARY LONDON, Sept. 28, 6:20 p. m.—A Central News dispatch from Rome says that the following telegram has been received there from Petrograd: "The right wing of the Austrians has been driven back beyond the Carpathians into Hungary, where they are being pursued by the Russians. The Austrian debacle is complete and they have lost all their artillery. The Austrian left wing has retreated to Cracow. The Russians have occupied another of the forts of Przemysl." 1500 HEAR WET AND DRY DEBATE E. A. Cantrell, representing the "wets," and A. E. Rowell, representing prohibition, held a debate in the large hall of the Natatorium Sunday evening. Fully 1500 people were in attendance. Cantrell proved himself far the able speaker of the two and was a favorite with the crowd. He declared that women "ruined more men than whisky" and said it was not a question of whether liquor would be sold or not, but a question of where it would be sold. Rowell, on the other hand, maintained that liquor was disastrous to the younger generation and caused crime. ALLIES BEAT OFF GERMAN ATTACKS LONDON, Sept. 28, 6:11 a. m.—The official war information bureau issued the following statement this afternoon: "Last night the enemy attacked our line with even more vigor but with no more success. There is no change in the situation. The Germans have gained no ground and the French have advanced here and there." CURTAIL 1915 COTTON CROP ACCOUNT WAR WASHINGTON, Sept. 28.—Curtailed of the cotton crop next year because of the amount of the 1914 crop remaining on hand because of the closing of the European market by the war was discussed here today by governors and congressional delegates of cotton growing states. COLONEL INVADES OHIO CITIES CLEVELAND, Sept. 28.—Endorsing the entire progressive ticket in Ohio, asserting that the democratic party "is openly or covertly supporting the liquor interests and that the republican party is trying to dodge the issue, yet at the same time supporting it." Colonel Theodore Roosevelt addressed a meeting of the members of the City club and a number of the club's guests at noon here today. The colonel left at 1:30 for Columbus, where he will make an address tonight. CLEVELAND, O., Sept. 28.—Colonel Theodore Roosevelt returned today to Cleveland from Mentor, where he spent a part of yesterday and last night at the home of James K. Garfield to attend a reception of progressive candidates and executive committee members in the office of Mr. Garfield. Before leaving Mentor the colonel made an address in the town hall. Colonel Roosevelt is to attend a reception at the Builders' exchange, and is to speak at the chamber of commerce under the auspices of the City club. This afternoon the former president will go to Columbus, where he is to hold a conference with Walter Brown, progressive leader of the state, and in the evening he will make a speech. Tomorrow he is to make an address in Toledo. DR. HODGE TALKS ON ALCOHOL Dr. Hodge of the University of Oregon lectured last night in the Presbyterian church on the results of scientific investigations in the best laboratories of Germany, England and America of the effects of alcohol on the physical system. The investigations were carried on with alcohol in moderate quantities so that if any benefit was to be obtained from its use as a beverage it might be known. As a result of these investigations without a single exception in any laboratory alcohol is pronounced by science an absolute waste. It lowers efficiency, increases fatigue, distorts development, lowers the vitality and tells disastrously upon the offspring of those addicted to its use. Science has never pronounced so unanimously against anything as against alcohol as a beverage. Dr. Hodge said that there could be but one conclusion for us as guided by the results of the laboratory, and science only asks for the facts in its investigations, regardless of whom they may concern. BUSINESS SECURITY. Insurance to All Countries, Not Insuring This Security. One of the most important questions of the day relates to the extent to which a government should interfere in the affairs of business. The successful man has always had to run the risk of attack, not only from unreasonable interference by government or attack by others, but also from the failure of his greatest exertions. In some countries, as in parts of Asia, government interference has been nothing but poverty and business stagnation. In such a society, the country is progressive, and its future prosperity is well provided. But as soon as a government begins to deprive the producer of a square deal, or when business is "regulated" by people without the experience and necessary training, business security will be transformed into business depression. A government should be limited to its natural functions of just and reasonable legislation for the greatest benefit of the greatest number of people, and should never show favoritism in order to "protect voters" or to secure campaign contributions.
