

LIST OF JACKSON COUNTY BOYS AND GIRLS WHO WON PRIZES FOR DISPLAYS AT STATE FAIR, SALEM

Statement by Supervisor Peterson to Scholars Who Participated in Industrial Club Fairs in County and State.

To the boys and girls who have done industrial club work in Jackson county, or who entered exhibits at any of our fairs: For the present year the fair season is over, having closed with the state fair at Salem. Many of you won prizes at the different places. Some of you were disappointed in this respect, although you did splendid work. But I trust that those of you who won no prizes will not be discouraged. You did not make a failure. Someone else did better than you, that's all. Just remember, "real failure is not for the boy who fails once; it's in not getting up there's proof of the dunces." So if you did not win, make up your mind that next year you are going to give the other fellow a harder race than he had this year.

If you made a real effort to produce something, but did not get a single prize at any of the fairs, your efforts have not been in vain. The greatest prize of all and the one that will really stay with you is the greater efficiency that you have gained through experience. If you were in the potato-growing contest during the past season, and stuck to your work faithfully you surely know much more about potato growing now than you did a year ago. The same is true if you followed any one of the club projects. The knowledge and skill that you have gained through your efforts and your experience and the real interest that you have acquired in the work may prove of untold value to you in time to come. At any rate you are better prepared to enter the race next year than you would have been had you not tried this year.

Spuds by Parcel Post
I have in mind an industrial club in a little community away off in the mountains. Fate was against the members. Their season was late, crops did not mature in time for the fairs; "scab" got into the potatoes; hawks took the chicken, fruit jars were broken in shipping and in other ways. The members knew before they entered the fair that they could not win any of the prizes. Yet they did not give up. As they are 45 miles off the main road, they had to ship their exhibits out by parcel post—corn including ears and stalks, a peck and a hill of potatoes, cabbage, onions, carrots, parsnips and beans, and canned fruit. All these went through to the state fair, 350 miles, by parcel post. And they arrived there in good condition. Though these boys and girls did not win a prize this year, their efforts are certainly commendable, and I venture to assert that their experience has placed them in line to give someone a mighty interesting race next year.

Their satisfaction in knowing that they carried their projects through to the end is in itself a desirable prize. It shows that these boys and girls have in them the making of men and women who will accomplish real things in the future.

Rules to Be Simplified
Those who sent exhibits to the state fair will receive them back so far as it is possible to return them. Some things, such as melons, were cut by the judges and of course can not be returned. There would be little or no use in returning green vegetables. Some shipments reached the fair without identification marks and it was impossible to tell whose they were. If something of yours is not returned, telephone or write to the office of Superintendent Wells at Jacksonville, giving a full description of the article. It will be located and returned if possible.

We are not prepared at present to say much about club work for the coming year. However, it is safe to assert that the rules will be much simplified and that we shall be better prepared to carry the work through more successfully and with greater satisfaction to all concerned. Every boy and girl in the county who completed a club project, whether he won a prize or not, will be given a certificate and also an achievement badge.

List of Jackson County Prize Winners at State Fair

- Corn, first, P. P. I. E. trip, Claus Charley, Brownboro.
- Potatoes, first, P. P. I. E. trip, Audley Meyer, Lake Creek.
- Corn, first, \$1.50, Kilmer Bagley, Talent; third, \$1.00, Tyranno Ragsdale, Lake Creek; second, \$1.25, Thos. Ragsdale, Lake Creek; third, \$1.00, Donnie Lowe, Ashland; fourth, 75c, Audley Meyer, Lake Creek.
- Watermelon, first, \$1.50, Viva McDonough, Ashland; second, \$1.25, Henry Pace, Talent.
- Pumpkin, third, \$1.00, Viva McDonough, Ashland.
- Potatoes, fifth, 50c, George Gray, Ashland; potatoes, fourth 75c, Audley Meyer, Lake Creek.
- Cabbage, first \$1.50, Joe Davis, Ashland.
- Onions, first, \$1.50, Walter Law, Rogue River; first, \$1.50, Carl Magerle, Rogue River.
- Bird house, fifth, 50c, Lawrence Anderson, Gold Hill.
- Manual Arts, first, \$1.50, Roy Clary, Ashland; second, \$1.25, Arnold Rickman, Ashland; fifth, 50c, Melvin Whipple, Rogue River.
- Composition on Manual Arts, first, \$1.50, Edward Cameron, Sams Valley.
- Bread, third, \$1.00, Mildred Lynch, Talent; fourth, 75c, Alta Dunlap, Derby; fifth, 50c, Chloe Roberts, Talent; first, \$1.50, Maud McCallin, Talent.
- Canned Fruit and Vegetables, second, \$1.25, Leta Stevens, Talent.
- Chickens, third, \$1.00, Leta Stevens, Talent.

E. R. PETERSON, Rural School Supervisor.

DE WOLF HOPPER IN "MIKADO" AT PAGE THEATER SATURDAY

UNCLE SAM TELLS HOW CONCENTRATE REAL APPLE CIDER

WASHINGTON, D. C., Oct. 8.—The specialists of the fruit and vegetable utilization laboratory of the department of agriculture have completed arrangements for a commercial test of the recently discovered method of concentrating apple cider by freezing and centrifugal methods. As a result a cider mill in the Hood River valley, Oregon, will this fall undertake to manufacture and test on the retail market 1000 gallons of concentrated cider, which will represent 5000 gallons of ordinary apple cider with only the water removed. The new method, it is believed, makes possible the concentrating of cider in such a way that it will keep better than raw cider and also be so reduced in bulk that it can be shipped profitably long distances from the apple-growing regions. The old attempts to concentrate cider by boiling have been failures because heat destroys the delicate flavor of cider. Under the new method nothing is taken from the cider but the water, and the resultant product is a thick liquid which contains all the apple juice products and which can be restored to excellent sweet cider by the simple addition of four parts of water. The shippers and consumers, therefore, avoid paying freight on the water in ordinary cider. In addition, the product when properly barreled, because of its higher amount of sugar, keeps better than raw cider, which quickly turns to vinegar. The process as described by the department's specialists consists of freezing ordinary cider solid. The cider ice is then crushed and put into centrifugal machines such as are used in making cane sugar. When the cider ice is whirled rapidly the concentrated juice is thrown off and collected. The water remains in the machine as ice. At ordinary household refrigerator temperatures this sirup-like cider will keep perfectly for a month or six weeks, and if kept at low temperatures in cold storage will keep for prolonged periods. At ordinary household temperatures it, of course, will keep a shorter time. To make the concentrated sirup, the cider will must add to its equipment an ice-making machine and centrifugal machinery, so that the process is not practicable on a small scale. The specialists are hopeful, however, that the commercial test soon to be inaugurated in Oregon will show that it will be possible for apple growers to concentrate their excess cider and ship it profitably to the far south or to other non-producing regions. The specialists also believe that it will enable apple producers to prolong the market for cider.

MOWED DOWN BY THOUSANDS IN CROSSING NETHE

LONDON, Oct. 8, 4:50 a. m.—Telegraph—From Antwerp under date of Sunday, the Times correspondent describes the fighting in connection with the German attempts to cross the river Nethe. He says: "The bad, by all accounts, a dreadful experience last night, which was described to me there today by officers who were eye-witnesses. The Germans succeeded in getting a non-troop completed and they came down to the river bank in solid masses to cross it. As they came every Belgian gun that could be turned on the spot was concentrated on them, and they were blown away, blocks of them at a time, and still the masses came on. The Belgian officers spoke with enthusiasm of the steadiness and gallantry with which, as each company was swept away, another pushed into its place. "At last the bridge went, shattered and blown to pieces. The Belgian guns continued a while to search the opposite river bank, but the Germans fell back and no more masses of men came down to where the pontoon had been."

ASHLAND LOSES POWER INJUNCTION

The federal court at Portland has denied the motion of the City of Ashland for the dismissal of the petition for a permanent injunction against the city filed November 28, 1913, by the Ashland Electric Power & Light company. The city is trying to effect the removal of the equipment of the electric company from the streets of Ashland. The company avers that it has been granted a permanent franchise, and refuses to be ousted. The franchise was issued January 29, 1889, but was revoked July 25, 1911, on the ground that the company had not fulfilled its terms. The poles and wires of the company were ordered removed from the streets. The company then asked for an injunction and the city replied by filing a motion to have the petition dismissed. As a result of Judge Wolverton's decision the case will now come to trial. The point at issue, according to the court, is "whether it is competent for the council of Ashland to confer a perpetual right or authority to the company." W. D. Fenton and A. C. Hough of Grants Pass represented the plaintiffs, while W. J. Moore and A. E. Reames of Medford were in charge of the case for the defendants.

MEXICAN BATTLE AT NAGO RENEWED

NAGO, Ariz., Oct. 8.—After a brief lull beginning about midnight, Governor Maytorena reopened his attack today upon the Carranza garrison in Nago, Sonora. His sharpshooters appeared to be much more effective, and General Hill, commanding the town's defenders, began preparations to retreat. During the firing more bullets fell into the American town than at any time previously and protests again were made to the opposing Mexican commanders. Similar protests during the last few days elicited the statement from Maytorena that he could not entirely control the Yaqui Indians, who largely compose his forces.

GERMAN AIRSHIPS DROP BOMBS ON PARIS

PARIS, Oct. 8, 12:55 p. m.—A German aeroplane flying over Paris and the suburbs of Aubervilliers and St. Denis at 9 o'clock this morning, dropped two bombs, one of which wounded three persons. The other did no harm.

WOMEN WHO ARE ALWAYS TIRED

May Find Help in This Letter.
Swan Creek, Mich.—"I cannot speak too highly of your medicine. When through neglect or overwork I get run down and my appetite is poor and I have that weak, languid, always tired feeling, I get a bottle of Lydia E. Pinkham's Vegetable Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a great blessing to women, and I cannot speak too highly of it. I take pleasure in recommending it to others."—Mrs. ANNIE CAMERON, R. F. D., No. 1, Swan Creek, Michigan.

PROBE ROCK ISLAND'S FINANCIAL CONDITION

WASHINGTON, Oct. 8.—Investigation of the financial operations of the Chicago, Rock Island & Pacific railroad by the interstate commerce commission will begin here October 16 before Commissioner Clements.

DE WOLF HOPPER IN REVIVAL OF SULLIVAN OPERA

By an overwhelming popular majority, "Mikado" has been selected as the opera to be given at the Page Saturday evening by De Wolf Hopper and his all-star cast. De Wolf Hopper alone is an attraction that appeals to every theatergoer, and the fact that he is more continuously on the stage in "The Mikado" than any other of the operas in his repertoire makes this selection a particularly happy one. It was the success of this satire when revived a few years ago that brought about the organization of the company headed by De Wolf Hopper, which has since presented many of the Gilbert & Sullivan operas. In "The Mikado" the charm of the music and the happy humor of the libretto prove again that the freshness and appealingness of Gilbert & Sullivan's masterpiece are perennial. De Wolf Hopper will be Ko-Ko, the lord high executioner; Herbert Waterous, the lord high everything else; Arthur Cunningham, the mikado; Arthur Aldridge, the mikado's son; Nanki Poo, Gladys Caldwell the Yum Yum and Jayne Herber the Katsi-sha. This revival is marked by exquisite delivery and the utmost care. In making these revivals it has been the aim of the producer to adhere strictly to all the stage traditions which surrounded the management of the Savoy theater, London, where these operas were originally produced, and to that end all the business found in the original prompt books, from which the present revivals were rehearsed, have been carried out.

SICK CHILDREN LOVE CASCARETS FOR THE BOWELS

Get a 10-cent box now. Most of the ills of childhood are caused by a sour, disordered stomach, sluggish liver and constipated bowels. They catch cold easily, become cross, listless, irritable, feverish, restless, tongue coated, don't eat or sleep well and need a gentle cleansing of the bowels—but don't try to force a nauseating dose of oil into the little one's already sick stomach—it is cruel, needless and old-fashioned. Any child will gladly take Cascarets Candy Cathartic which act gently—never gripe or produce the slightest uneasiness—though cleanse the little one's system, sweeten the stomach and put the liver and bowels in a pure, healthy condition. Full directions for children and grown-ups in each package. Mothers can rest easy after giving this gentle, thorough laxative which costs only 10 cents a box at any drug store.—Adv.

GIRLS! CLEAN AND BEAUTIFY HAIR NO DANDRUFF—25 CENT DANDERINE

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance. Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

Ford
Buyers to Share in Profits Lower Prices on Ford Cars
Effective from August 1, 1914, to August 1, 1915, and guaranteed against any reduction during that time:
Touring Car \$490
Runabout 440
Town Car 600
F. O. B. Detroit. All cars fully equipped. (In the United States of America Only.) Further, we will be able to obtain the maximum efficiency in our factory production, and the minimum cost in our purchasing and sales departments if we can reach an output of 300,000 cars between the above dates. And should we reach this production we agree to pay as the buyer's share from \$10 to \$50 per car (on or about August 1, 1915) to every retail buyer who purchases a new Ford car between August 1, 1914, and August 1, 1915. For further particulars regarding these low prices and profit-sharing plan, see the nearest Ford Branch or Dealer.
