

WHEAT EXPORTS BREAKS ALL RECORDS IN PAST MONTHS

WASHINGTON, Nov. 5.—Large exports of domestic wheat in the three months which ended with September, 1914, brought the total for that period up to the highest point ever reached in the corresponding months of any year in the history of our export trade.

Most of this greatly increased exportation of domestic wheat was distributed to European countries. September alone showing consignments of wheat, exclusive of flour, in the following amounts: To France, 7,572,000 bushels; the United Kingdom, 6,640,000; the Netherlands, 2,261,000, and other Europe, 5,390,000.

The proportion of the domestic wheat product which is exported has greatly diminished in recent years. In 1901, 41.36 per cent of the domestic wheat crop was exported; in 1902, following the record-breaking crop of 748,000,000 bushels for the calendar year immediately preceding, 31.37 per cent; and in 1908, 25.71 per cent, while since that year the proportion exported has been less than 20 per cent, having fallen as low as 10.91 per cent in the fiscal year 1911.

LOUVAIN MOVES TO CAMBRIDGE

CAMBRIDGE, Nov. 5.—Cardinal Mercier has appointed professors from the University of Louvain to arrange for four courses of the faculties of theology, law, science and philosophy at Cambridge, and the proposal that the destroyed university shall transfer its work here for the time being is taking practical shape.

Students at Cambridge have started a shilling fund for the assistance of Belgian students and weekly contributions will be made on behalf of the Louvain students, several hundred of whom will doubtless begin their work at Cambridge in a short time.

Cambridge has much more the appearance of a garrison town than an educational center. Students have military drill instead of games for recreation. Instead of rowing and football, drill masters of the officers' training corps but the students through three hours of rigorous military training every day and military lectures are held at night.

At the military hospital medical professors and demonstrators care for hundreds of wounded soldiers quartered here. Both Belgians and British wounded are sent to Cambridge. Other Cambridge men are running a hospital ship at sea and 2000 commissions in all have been granted Cambridge graduates and ex-students who are now at the front.

The deceased leaves a wife and daughter. He was a native of Illinois and was for over twenty-five years identified with one of the leading railway systems running out of Chicago.

In spite of speed limitations and other precautions, a motor car now and then comes mighty near creating havoc in its wake. The other day a woman at the helm of a big auto ran into a small express wagon, which was being drawn and pushed by a couple of lads. The boys fortunately escaped, but the wagon was flattened like unto a pancake. Early in the week a small runabout driven by a young lady got stalled on a railway crossing in the face of an approaching train, and help had to be summoned to rescue car and driver from a dangerous predicament.

EAGLE POINT EAGLETS.

By A. C. Howlett.

The last time that I wrote for the Mail Tribune I was at my daughter's in Fairview, but this beautiful sunny morning finds me in my own home in the quiet little town of Eagle Point, where I arrived Tuesday evening in time to cast my vote.

On looking over the Sunnyside Hotel register I find that quite a number of the prominent citizens of Jackson county have been here during the past few days and among them were George A. Stannard of Ashland, Mr. and Mrs. C. F. Young, Medford, Mrs. Robert Hammond, Maister Robert Hammond, M. L. Edwards, Medford, Mrs. E. O. Reese, Ashland, Mr. and Mrs. G. W. Knight, Mr. and Mrs. E. S. Wolfner, Miss Lenore Walker of Eagle Point, O. C. King, Medford, J. Pardee Grant's Pass, James G. Chinnock, Rhea Soper and R. P. Cowgill. And a little later Mrs. Howlett had the Bill Hanley club, at least a part of them as follows: Mrs. J. F. Reddy, Mrs. C. L. Scheffelin, Mrs. J. M. Root, Mrs. Ed Hanley, Mrs. Platt, Miss Josephine Root, Miss Venetia Hamilton, and Mr. J. M. Root, although Mr. Root's name was not embraced in the list of members of the Bill Hanley club, so I inferred that he came along with the club as a kind of a chaperon and if he did he has our sympathy for they are about as lively and intelligent company of ladies as can be found in the state. And while on this subject I wish to express my sincere thanks to the Bill Hanley club for the nice present that they left with Mrs. Howlett for me. The reader will remember that just before I left for the Willamette valley that they were here and that when they left that my pencil disappeared, but that caused me but very little inconvenience as I soon procured another, but on my arrival home Mrs. Howlett presented me with a neat little shoe box neatly wrapped in a large sheet of costly paper and securely tied. Upon opening the package I found that the box contained a parcel that looked as though it might be a neck tie or a pair of fine gloves or something of a very rare nature so taking off the next wrapper I found that there was still another so taking that off as carefully as I could with my trembling hands found still another wrapper and on removing that to and behold I was presented with a neat folding lead pencil, but it came too late for me to write a big boost for the Bill Hanley club before the election so I give it now as it is never too late to do good. Many thanks to the ladies.

Among others whose names I found in the register were Mr. and Mrs. Herrin, Ashland, Mr. and Mrs. Thomas Sample, Mr. and Mrs. C. D. Schell, Wellen, Mrs. Etta C. Wharton, Mrs. Laurei Hill, Mr. and Mrs. J. E. Reed and son, Wellen.

I also found when I reached home the money to pay for the renewal of A. B. Clarno's subscription to the Weekly Mail Tribune, and also the cash for a three month's subscription to the Daily Mail Tribune for Hamlington Watkins, both of Eagle Point. Mr. Watkins is engaged in selling aluminum ware and was greatly disappointed on his arrival in town to learn that his goods had been delayed on the way.

I also learned that the Eagle Point Sunday school had had a grand rally on Wednesday the 25th inst. and a picnic dinner. Mr. John Fisher who has a homestead on Indian creek had had the misfortune to have his arm broken by the kick of a horse, Dr. Wm. P. Holt was called and reduced the fracture.

Well here I am on my fifth sheet and have not said a word about what I saw in Portland, Forest Grove, etc. On Wednesday the 25th I took the electric car out of Portland for Forest Grove and I was much surprised to find so much land that is still uncultivated for there are acres of as fine land as any one could wish to see that is still covered with brush and undergrowth, although the heavy timber as a rule has been taken off and utilized for fuel, another thing that I noticed was the scarcity of orchards. They say up there, especially in the north end of the valley that they have not gone crazy on the fruit question as we have down south, but the country shows that it is in a prosperous condition for the farmers generally have good substantial houses and barns and in most places have the sties and almost all of them keep what cows and pigs they can on the farm and consequently are able to keep their store bills paid up. But I intended to speak more particularly of the city of Forest Grove. It is situated in the midst of a thriving farming community and the houses as a rule are neat and well kept. The business houses seem to be in a very prosperous condition and there is but little complaint of hard times. The principle attraction is the Forest Grove College, the building is quite large and built of stone and brick

with a cement basement. They have about 135 in the college proper and about 350 in all, including the musical department and the citizens claim to have one of the cleanest towns on the coast. But I see that I am getting this letter too long so will stop for the present.

After writing the foregoing my attention was called to a lot of extra fine apples that had been presented by F. M. Corlies, foreman on the Alavista orchard. They are as fine a lot of apples as any one could wish to see and demonstrates the fact that southern Oregon can and does produce as good and nice looking fruit as can be found in any part of the coast. Thanks to Mr. Corlies for the favor.
