The meeting was attended by scores of prominent mining many of them associated with Heinze in the earliest days of his brilliant career in Butte. Those most enthusiastic in their eulogy of the deceased were men who had bitterly opposed him during the mining war of Butte.

DEMOCRATS WIN NEBRASKA OFFICES GERMANS REPULSED

OMAHA, Neb., Nov. 7 .- With something over half the vote of the state reported it is quite evident that the result of last Tuesday's election is a mixed victory. The democrats have elected governor, state treasurer, attorne- seneral and one regent of the state university; the republicans have railwa" commissioner, land commissioner and one regent, while the vote on lieutenant governor, secretary of state and state auditor, is so close that neither side is positively claiming them.

Woman suffrage has been defeteed decisively, the latest returns showing a majority of more than 5000 against the amendment.

Three recently formed army corps, the 18th, from Frankfort, the 8th from Coblenz, and the 10th from Hanover, have been brought up to stiffen the German troops, who are exhausted after nine days of ceaseless fighting. The troops are being mased around Arras behind strong positions at Beauvais, Tilloydk and St. Laurent de Blangy,

Preparatory cannonading has become intense in the last two days, according to a resident of the district just arrived in Paris and infantry attacks have apparently had strength.

It was remarked that the enemy seemed to be abandoning the mass tacking in open order, making use of all available cover, moving forquick-firers opened.

Amsterdam dispatch to Reuter's Telegram company: "The Handelsblad learns that many fishing vessels from Katwijk-Aan-Zee, a fishing village of The Netherlands, are arriving at Ymuiden and will not leave again the vessels report that floating mines were caught in the nets which had to cut. They say that fishing is im-Leader, possible.

"The fishermen also saw many floating corpses, some naked."

DRILL LESSON OF WAR INTO U. S. A. NEW PLAN

WASHINGTON, Nov. 7 .- Both Secretary Garrison and Secretary Daniels will lay before congress, in public the lessons which they believe change in the mother results. the army and navy of the United States should draw from the war in Europe.

No extraordinary expressions have been asked for by either the war or navy departments in the annual estimates already filed with the appropriation committees of congress, but the two cabinet heads will discuss in detail the best methods of obtaining a mobile and adequate army and a powerful and efficient fleet.

WASHINGTON, Nov. 7 .- That the

the battle in the north and every and other private improvements in word from official and other sources Crater Lake National park, is the striking recommendation of Superintendent Will G. Steel in his annual report to the secretary of the interfor which has just been made public. "The frequent changes of administration in this government, together with the unsatisfactory condition in which the national park service is teft by congress, are so pronounced that captalists are unwilling to advance funds on park concessions in amounts adequate to their needs, writes Mr. Steel, "inconsequence of which rapid development is seriously impaired, and the impression is gaining ground among men of large means that such investments are extra hazardous.

"Under such conditions it seems to me imperative that the general government acquire possession of all hotels and other permanent improvements of a private nature within the parks, and that they then be leased the object of testing the French to desirable parties for a reasonable consideration. This would be an important step toward making the parks selfsustaining, which they methods of advancing and tried at-should be. With the road system completed, this revenue, together with that received from automoward by short spurts and throwing biles, would make the Crater Lake parks self-sustaining, which they providing a comprehensive plan of management were developed to meet new conditions. Construction of private improvements at Crater Lake is yet in its infancy, for which reason I would recommend that the experiment be tried here, where the initial outlay would be comparatively

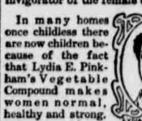

THE CHARM OF MOTHERHOOD

for the fishing grounds. Most of Enhanced By Perfect Physical Health.

> The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from on unprepared condition, and with am-ple time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
