Florence Roberts in Sapho Pleases at Page.

Florence Roberts as "Sapho" in the great feature play delighted a very appreciative audience at the Page last night. There are 206 beautiful scenes, and 150 people in the cast. It is produced in six parts and the picture even exceeds the stage production as given and made famous by Miss Olga Notherdale. In addition to this a splendid musical program was rendered by the Page Theater Orchestra. This orchestra, under Mr. Howell's direction has become a great drawing card for the Page. It is the largest orchestra playing for pictures in the state, and that a city of Medford's population can support such an organization is evidence of its appreciation. Sapho will only be shown tonight.

DOGS UNDER FIRE PROVE HEROES IN EUROPEAN WAR

PARIS, Dec. 1.—Lovers of dogs will be gratified to know that so inspiring an organization as the Institute of Zoological Psychology reports that the dogs that accompany the French ambulances are behaving well under fire. The director of this institute testifies: "All reports are most encouraging. Some of the details of their instructions may be open to question. It is probably bad that they should be taught to bring in the caps and handkerchiefs of wounded soldiers, but our dogs of war are performing noteworthy service and it is a pity that we have not many more of them."

The leader of one section of the ambulance dogs says: "The best dog given to me at first pulled so hard on the leash that he tired me out; he would not always return on the first call, a trick that would be unfortunate under fire; he was terrified even by distant artillery and it appeared as if he would be useless in action. But in a week that dog was valuable beyond words. I have today returned with him from recovering wounded soldiers almost in the enemy's trenches with incessant din all around him. Tonight just before the ambulances were to return I took him out for one last inspection, in a half-hour he found three soldiers who otherwise might have died of exposure. Moreover, he never touched one of them but ran back and forth till I came up to him."

A writer in Le Matin claims that the Germans have 37,000 dogs mostly purchased in France that are now being trained to go with the ambulances. A French society has been formed to train dogs for this work and already many dogs are "at school." The Amical club of Vaugirard has offered its grounds, and many prominent physicians, statesmen and savants are encouraging the work.

JAPAN'S OBJECT IN WAR TO SHOW NATION'S PROGRESS

TOKIO, Dec. 1.—In an article entitled "Japan and the European Armageddon," Cog in Shikoku Okuma, the Prime Minister, writing in the Japan Magazine, about the war, says some foreful things about Japan's relation to the west.

"It will be our one ambition at this time," he writes, "to show the west what it is slow to believe, that we can work harmoniously with great Occidental powers to support and protect the highest ideals of civilization, even to the extent of dying for them. Not only in the far east but anywhere else that may be necessary, Japan is ready to lay down her life to the principles that the foremost nations will die for. It is to be in line with these nations that she is at this time opposing and fighting what she believes to be opposed to these principles."

The Premier continues: "She entered the Alliance with Great Britain to stand for and die for what Anglo-Saxons are everywhere ready to defend even unto death. It is Japan's aim and ambition to participate in all world-movements toward noble diplomacy, international relations and the principle of equal opportunity and peace, and to prevent by any proper means the outbreak or continuance of bloodshed between nations. Japan's relation to the present conflict is as a defender of the things that make for higher civilization and a more permanent peace."

Count Okuma devotes a considerable space to a historical resume of the causes of the present international war. Speaking generally, he thinks that the war is always due to an unevenness of advancement in the progress of civilization, which like winter must find its level. When its force is obstructed there will be violence and bloodshed. War also is a result of the pressure offered in resistance to the growth of civilization.

Speaking in particular, the Premier is inclined to find the root of the present war in the weakness of the Balkan Peninsula. "Like China," he affirms, "it is a scorching crater in the world's diplomacy."

GERMANS INTERNE BRITISH IN BELGIUM

The inhabitants of Antwerp, according to this same paper, are allowed only ten ounces of bread per capita daily.

J. FRANK CRUMP PIONEER DEAD OF APPLIGATE

Josiah Franklin Crump, a pioneer of Jackson county, died at his home on the Little Applegate Monday evening, November 30, of heart failure, about 5:30 o'clock, he went to the bam to do the evening chores. When he failed to return at supper time his wife sent one of his sons to look for him. The child returned and said: "Papa is asleep, and I can't wake him up." Neighbors were summoned and a doctor called, but life was extinct. Deceased was a brother-in-law of John S. Orth, cashier of the Medford National bank, who left this morning for the stricken home. The funeral arrangements will be announced later.

Mr. Crump was born in Macoupin county, Ill., October 27, 1863, and was 51 years, 1 month and 3 days old at the time of his death. When two years old his parents emigrated to this state, and after a few months in the Willamette valley came to Jackson county, locating on a ranch four miles south of Jacksonville. When Mr. Crump was 17 years of age his father died, and he then assumed the duties of caring and providing for the large family.

When 21 years of age Mr. Crump engaged in mining at the Sterling mine and for thirteen years followed this pursuit, severing his connections there in 1899. He then purchased a ranch on the Little Applegate where he has since made his home.

In 1893 Mr. Crump was married to Miss Corn B. Abney. He is survived by three children—Vivian, a student in the Medford schools, and John and Harold.

Mr. Crump was one of the best known and popular men in Jackson county and highly esteemed by a wide circle of friends.

GARMENT STRIKE BEGUN; NEW YORK

NEW YORK, Dec. 1.—A novel strike in which employers forced the issue began here today with the result that ten thousand coats, dresses and 250 shops controlled by the Children's Contractors' association, composed of finishers who contract for making up garments for manufacturers are closed.

The closing order was declared to force the manufacturers to withdraw a reduction in prices which they put into effect some days ago for the making up of garments, and is therefore virtually a strike.

A statement by the association says that in the present condition of the trade it would be out of the question to accept a reduction, especially as the contractors have already increased the wages of their tailors, now idle.

PITIFUL WAGES PAID WOMEN IN NEW YORK CITY

NEW YORK, Dec. 1.—During the busy season last year of 14,000 women workers in this city, 3,000 received less than \$3.50 a week for wages, according to Howard H. Woodson, director of the wage investigation of the state factory investigating commission, who today summed up the findings on wages in New York City, at the first of the preliminary hearings of the commission to be held here.

"Half the wage earners throughout the state investigated by the state factory commission get less than \$5 a week," said Mr. Woodson. "Out of a total of 164,000 persons, one-eighth earn less than \$5, one third less than \$7, two-thirds received \$10 or less and only one-sixth make \$15 or more."

"It is difficult to see how a girl manages to live properly on \$6 or \$7 a week. A typical weekly budget shows how near the budget edge many exist: Clothes, \$1.50; room, \$2; food, \$2.50; car fare, 20 cents; incidentals, 20 cents.

"Our figures show that at a mature age and after years of experience in the business, half the women don't attain \$10, nor do the majority of them reach \$18."

Baby of Future is Considered

Much thought has been given in late years to the subject of maternity. In the cities there are maternity hospitals equipped with modern methods, but most women prefer their own homes and in the towns and villages must prefer them. And when this is true, we know from the great many splendid letters written on the subject that sure "Mother's Friend" is a great help to expectant mothers. They write of the wonderful relief how it seemed to allow the muscles to expand without undue strain and what a splendid influence it was on the nervous system. Such books as "Mother's Friend" and the knowledge of them should have a beneficial influence upon babies of the future.

In a little book for such women these facts are more thoroughly brought out and a copy will be mailed to anyone who will send us their name and address.

"Mother's Friend" is sold in all drug stores and highly recommended for its timely usefulness. Its goodness and the real help it affords. Ask for it at the store and write us for the book. Bradford Regulator Co., 511 Lamar Bldg., Atlanta, Ga.
