WHY HOOSIER OWNERS KEEP YOUNG
The answer is easy—they keep young because they save their strength and health by saving steps and standing. Keep off your feet—stop the miles of steps—learn to sit at your work. And your friends will begin to ask you where you found your new beauty parlor. The moment the Hoosier comes into your kitchen, work becomes easy.

Read How It Works. Everything you need in cooking is within reach of your arm, to use and put away again so that your table is never cluttered. Flour, sugar, coffee, tea, spices, salt and pepper, all have their own crystal glass containers, each in the most convenient possible place. The big top cupboard takes care of dishes and supplies. The low cupboard is for pots and kettles. Bread and cake go in a metal lined drawer especially designed. There are also drawers for towels and cutlery. Your rolling pin has a rack; there are hooks for small utensils and a clock-faced want list to keep your market list. The crowning convenience is the pure aluminum covered table, rust, heat and stain-proof; cleaned by simple wiping with a hot cloth—no more scrubbing. This table pulls out when you want to use it; slips back out of the way when you are through.
