Medford is all right—known all over the country as one of the best towns on the coast, but it was not made what it is by a policy of sitting still and doing nothing.

Medford will be here when we who are now trying to guide its destinies are gone. Let the city go ahead. Do not break its heart.

IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves, sour, out-of-order stomachs or indigestion in five minutes.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes. Adv.

ly state your understanding that your assistance in these and other respects shall not be construed to lay any obligation whatever upon any member of this committee or upon the contemplated irrigation district.

"Upon that understanding we can see no valid reason for declining your voluntary aid, and we therefore accept your offer in the spirit in which it is made. Respectfully,

"The petition to the county court praying that the question of organizing the district be submitted to a vote of the land owners within the district is now being circulated. This campaign is entirely under the

management and direction of the committee. The committee as a whole and each individual member thereof are ready and anxious at all times to give any information within their power and to assist in every way possible in bringing the campaign to a satisfactory conclusion.

Each of the members of the committee has an office in the city of Medford at which he can be found during business hours. The committee contemplates holding meetings in various parts of the valley at which public speakers familiar both with the organization of irrigation districts and their general operation, and with the benefits and results of irrigation in

general, and irrigation under the district plan in particular, will speak. The committee invites suggestion and criticism from all land owners in the district. It feels that it is a servant of the people, and its only desire is to serve the people by bringing about conditions in the Rogue River valley which in its opinion are vitally necessary for the future success of the valley as a fruit-growing and farming district.
