A young man by the name of Robert Shortis, who had lived in my father's family in Missouri came with If your Back is aching or Bladder a number of adventurous young men, to Oregon in 1839. He was so charmed by the beauty of the Willamette valley, the mild winter and possibilities open to settlers that he wrote to his old friends urging them to come to Oregon. These letters were published in the papers and caused great excitement and started the movement towards Oregon.

I cite these instances simply to show the movements that had been made towards bringing immigrants to Oregon and towards saving the country to the United States long before Dr. Whitman made his famous ride.
